Intervention in Mexico Inevitable in Opinion of United States Senators

Conservative Senators Believe Situation Has Reached Deadlock Between Huerta in South and Carranza in North—Duty of the United States to Humanity Is to Put End to Anarchy in Northern Mexico, and to Force Huerta to Retire.

Washington, March 7.—Senators familiar with the foreign affairs of the United States today advanced the opinion that the ultimate destination of the present Mexican policy is intervention. Believing it is inevitable, they are in favor of intervention in the northern states of Mexico now. They say this will not be war on Mexico, that President Huerta will be helpless before a restoration of peace in the northern states, and that upon the successful conclusion of such intervention by the United States the administration will be in a position to demand the retirement of Huerta at once with some hope of success.

It is not bombast. In view of the policy of President Wilson, the above outline of the plan in the minds of conservative Senators sounds like bombast. The fact is, the suggestion is seriously entertained in the minds of many conservative statesmen, and it has been discussed in the executive sessions of the Senate. There is strong reason to believe the President foresees that unless something unexpected turns up in the next few weeks or months intervention will be difficult to avoid.

To senators of long experience in foreign affairs, the situation appears to be at a deadlock. Interested citizens of Mexico, that is, interested both Carranza and Huerta, have told the senators that there is no hope of a solution of the problem by either of the forces now in the field in that country. They say that should the Constitutional army attempt to march to Mexico City the southern provinces of Mexico will rise and rebel against Huerta has been driven out of the northern provinces and to all appearances both sides have about reached the end of their geographic scope.

Constitutional Marauders. While Huerta is maintaining a semblance of order in the south, conditions in Northern Mexico are admittedly those of chaos, for the reason that the Constitutionalists have been unable to control independent bands of marauders, who, while operating with them for purposes of personal salvation, are not co-operating with them for law and order.

Three Months' War. The senators believe such an intervention could be made successful in three months and peace and tranquility restored in Northern Mexico. Having considered the initial step, they ask whether or not the United States would not be in a better position to deal with Huerta than it is now, and then proceed to answer that question affirmatively.

They believe that with the northern provinces under the control of the United States and with the certainty of his own fall, if he failed to yield upon the promise of the United States to restore those provinces to a constitutional government in Mexico, Huerta would be far more inclined to quit his office as provisional president than he would be under any other form of pressure that could be brought to bear upon him.

Bond Issues of Calgary and Vancouver Sold. Both Cities Have Received Good Prices For Recent Debentures.

CALGARY, March 6.—The best sale of bonds, as regards price, that has been made by the City of Calgary this year was consummated today at a special meeting of the council, when that body accepted the offer of the Dominion Securities Co. of Toronto, to purchase \$2,243,117 of twenty year five per cent. local improvement debentures of the city at 98 1/2 cents accrued interest.

Vancouver Sale. VANCOUVER, March 6.—The city has issued instructions to Messrs. Brown & Shipley of London, to make an issue of their debentures to the extent of almost two and three-quarter million dollars at a price higher than has been received for some years. Offers are still being received for the local improvement bonds, but the latest is even higher than that offered by the London financial agent and if the latter are not able to report the figure which is believed to be 97 1/2 cents may be taken out of their hands. The matter is expected to be settled by next Monday.

NOTE.—Edmonton's two million dollars' worth of twenty year five per cent. debentures, issued from last year, were disposed of last week by the administration, for 94 1/2 not to the city, with accrued interest.

G.T.P. MOUNTAIN GAP TO BE CLOSED BY END OF APRIL

By Bulletin Leased Wire. MONTREAL, March 6.—The Grand Trunk Pacific reports that work on the mountain section is proceeding day and night now, with gangs of men aggregating 5,000 in number. There is a gap of some 91 miles to be filled up. This will be accomplished by the end of April.

Homeless Dog Saves The Lives of Family

Excited Barking of Dog Aroused Inmates as House Was Burning

WINDSOR, Ont., March 4.—A Pit-bull, owner of the Michigan Central Hotel, his wife and daughter and three boarders were awakened at an early hour this morning by excited barking of a dog and found the hotel on fire. All were forced to flee in the street and only in their night clothes. The owner and inmates consider that they owe their lives to the dog, which was a homeless one that strayed in and sought the warmth of the hotel on a bitter cold day about two weeks ago. The fire destroyed the entire building and contents. The damage was about \$20,000.

EXPORT OF IRISH CATTLE IS STILL PROHIBITED

Liverpool, March 7.—Frank Deveney and Company report that owing to fresh outbreaks of foot and mouth disease, both in England and Ireland, the export of Irish cattle is still prohibited, and there were consequently no cattle for sale at Birkenhead today.

C.N.R. Locomotives Are Using Brazeau Coal

Superintendent Brown Says It Has Proved to Be Excellent—Saskatoon-Calgary Branch

Through passenger service on the C.N.R. from Saskatoon to Calgary is forestalled by W. A. Brown, general superintendent, who returned to Edmonton Saturday after a ten days' trip to Calgary, the Brazeau coalfield and Saskatchewan.

With M. H. McLeod, general manager, I. L. Bomer, superintendent, S. J. Hunsford, superintendent of rolling stock, and J. Carl, master mechanic of the Western division, an inspection was made of the mine in the Nordberg field. Mr. Brown states that engine steam coal from this mine is now being used on C.N.R. locomotives and has proved eminently satisfactory.

In regard to the Canadian Northern entrance into Calgary Mr. Brown says that the traffic developed to such an extent on the new line that the single freight crew first put on was unable to handle the business, and that three crews are now working. He also states that settlers in that part of the province who in the past have relied upon an inconvenient and expensive service via Stettler, are well pleased with the tri-weekly service given.

"It will not be long," he said, "before we shall have to put on a daily through service between Saskatoon and Calgary, but portions of the tracks near Calgary will need re-laying."

Opening of Market in U.S. For Canadian Cattle Puts Many Dollars in Farmers' Pockets

Enormous Export Business Following Removal of Duty by United States on Canadian Cattle Falling Off Owing to Levelling of Prices on This Side of the Line

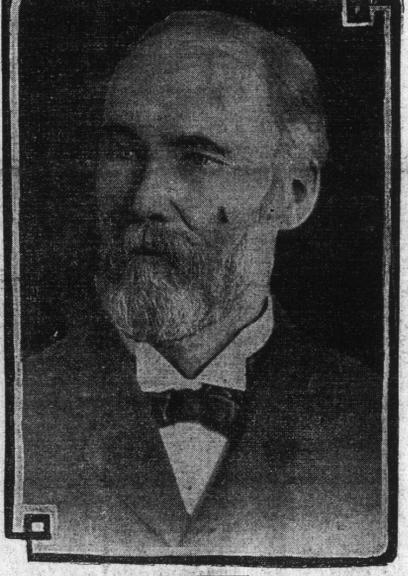

OTTAWA, March 6.—The effect of the Underwood tariff bill upon the exports of Canadian beef, which resulted from the abolition of the United States duty on that important article of consumption, is shown in a return brought down in the House this afternoon.

This return shows the movement of cattle from Canada to the United States during the four months from October to January, when the new tariff law was in force, as compared with the movement during the corresponding months the year before. In the month of October last, 58,671 cattle found their way across the border from Canada, as compared with 5,142 during the corresponding month of the preceding year, when the American duty was in force. In November last the movement was at its height and 76,987 cattle were exported, as compared with 6,662 during the corresponding month of the year before. In December, 22,223 were exported as against 4,126, and in January 5,699 went across, as compared with 4,311.

The falling off during the months of December and January are due not only to the depletion of the Canadian herds, but to the fact that the Canadian prices have risen and export is not now necessary to procure a good price for cattle.

Sir Geo. W. Ross, Former Premier of Ontario Is Dead

Dististinguished Statesman, Leader of Liberal Opposition in Senate, Succumbs in Toronto General Hospital After Illness of Several Weeks' Duration

Toronto, March 7.—Sir Geo. Ross, Senator of the Dominion of Canada, and formerly premier of the Province of Ontario, died today after an illness lasting several weeks.

By profession a school-teacher, Sir George was known popularly as "The Father of the New Ontario," owing to his activity in the development of that province. He was recognized as one of the best public speakers in the Dominion. He was strongly in favor of reciprocal trade relations with the United States, and a resolution introduced by him in 1882 gave birth to the movement for reciprocity. He was called to the Senate of Canada in 1907, and was knighted by King George in 1910.

By profession a public writer on educational subjects, temperance and contemporary history. Suffered Relapse. A little over a week ago Sir George Ross had a relapse and had been lying in a state of coma ever since, until Thursday night, when he had a return to consciousness. He was then clear and rational in his mind, and was able to talk to his visitors. Yesterday morning he was still conscious, but today he was unconscious.

Sir George Ross became worse yesterday afternoon about four o'clock and from that time he was unconscious, with more rapid failure at five o'clock this morning. It was evident at that hour that Sir George was sinking fast, and he passed peacefully away about eight o'clock. Only Dr. Greer, a nurse and his valet were at the death bed. Lady Ross had been sent for but Sir George had passed away before her arrival.

Regret at Ottawa. Ottawa, Ont., March 7.—The news of the death of Sir George Ross was received with genuine regret in parliamentary circles. Tributes will be paid to his memory in both houses next week. It is generally expected that Senator Bostock, of British Columbia, will become the new leader of the opposition in the upper house.

Take Refuge From Wolves in a Tree. Two Women Lose Way and Are Compelled to Seek Refuge From Wolves.

Fort William, Ont., March 7.—After several hours spent in the branches of a tree, where they had taken refuge from wolves, Mrs. Minnie Boutlier and Miss Margaret Vrooman, were found late last night by a small search-party in Kaministiquia township, west of here.

The women had started for a neighbor's and lost their way. They wandered around until after midnight, when they heard cries of wolves, which this year are numerous in the district. When found, shortly before midnight, the women were suffering intensely from the frosty atmosphere.

BRITISH TRADE FIGURES. London, March 7.—The February statement of the board of trade shows a decrease of \$3,632,000 in imports and an increase of \$5,445,000 in exports.

Canada's Revenues Decrease But Expenditures Increase. Ottawa, March 6.—The financial statement of the Dominion for the month of February, issued today, puts the total revenue for the month at \$9,968,120, a decrease of \$3,437,750, as compared with February, 1913. Of this decrease the greatest proportion is attributable to customs, the collections for the month being \$6,656,829, a decrease of \$2,322,864 as compared with last year.

SHACKLETON HAS MONEY ENOUGH FOR EXPEDITION

Exploring the Antarctic Continent—Offered \$175,000 For Moving Pictures. London, March 7.—Sir Ernest Shackleton has now secured \$175,000, which was needed to carry out his exploration trip across the Antarctic continent in the south. He wants \$50,000 more to have a margin for the supporting parties. The government has given \$50,000 while anonymous persons have offered \$100,000 as free gifts; another person offered \$175,000 for the cinematograph rights over the explorer's adventures, the remains to be decided. He is working 15 hours a day at the plans and is obliged to postpone his intended trip to the United States and Norway.

Eighteen of Crew Adrift On Ocean in Open Boat

Captain and 17 Men Took to Long Boat When Steamer Sank Off New Jersey

Seaside Park, N. J., March 7.—Eighteen members, including the captain, of the crew of the steamer "Hartmann Tower, Jr.," which sank near here, are adrift on the ocean in an open boat. The last seen of them they were going out to sea in a southeasterly direction. The steamer sank in fifty feet of water, three-quarters of a mile off shore, between Cedar Creek and Forked River life-saving station, six miles south of here.

H. H. Thomson, of Brooklyn, first mate, and three members of the crew were rescued. The revenue cutter "Itasca" put to sea to search for the castaways. There are two big sand bars near the spot where the steamer went to the bottom and the life savers were handicapped in launching their boats. One finally launched, however, falling on its side, and the life savers waded ashore. The captain of the vessel and 17 men took a longboat. It was so overcrowded that they were afraid to try landing on the flat bar and hung around outside hoping the turbulent sea would subside. Some were falling on their backs about three o'clock this morning and the longboat was lost from view.

The weather lightened up again about 4:30 and there was then no sign of the longboat. When last seen the men were so cold they could not get up the boat. They were unable to control the craft. They were aided by the revenue cutter or some steamer. The longboat was seen by a wireless communication along the coast has been completely prostrated since last Saturday's storm; communication between the life-saving stations was difficult and only accomplished after delay.

The Towat was owned by the Southern Transportation Company, with which Charles W. Morse, of New York, is identified. It is said this was the first trip of the steamer in six years and that the crew was new to the officers.

Benton's Murder Is To Go Uninvestigated

Anglo-American Commission to Investigate Manner of Britisher's Death Still Halted

Washington, March 7.—Secretary Bryan said today that the Anglo-American commission appointed to examine the killing of William S. Benton, the British subject, still was in "status quo." In official circles it was understood the commission will make no further effort to accomplish the task for which it was appointed. Secretary Bryan said nothing had been received regarding the investigation being made in the Benton and Bauch cases by the Mexican constitutionalist commission.

The secretary expects to receive the commission's finding in the Bauch case. General Carranza already had declared that any information in the Benton case must be delivered to the British authorities themselves.

OLD COUNTRY FOOTBALL

London, March 7.—Following are the results of the four games played today in the fourth round of the Football Association Cup, each game being contested on the ground of the first-named club: English Cup—Fourth Round. Aston Villa 1, Sheffield Wednesday 0. Liverpool 2, Queen's Park Rangers 1. Manchester City 0, Sheffield United 0. Sunderland 0, Burnley 0.

League—First Division. Everton 1, Bradford City 0. Middleborough 2, Chelsea 0. Tottenham Hotspur 1, Preston N.E. 0. Bolton Wanderers 1, West Bromwich A. 0.

League—Second Division. Barnsley 2, Clapton Orient 1. Blackpool 1, Grimsby Town 1. Bury 1, Leeds City 1. Fulham 1, North County 2. Huddersfield Town 1, Bristol City 2. Hull City 3, Glossop 0. Leicester Fosse 2, Bradford 3. Lincoln City 1, Birmingham 1. Notts Forest 0, Woolwich Arsenal 0. Wolverhampton W. 3, Stockport C. L. 1.

Southern League. Bristol Rovers 2, Norwich City 1. Methylton 1, Watford 0. West Ham United 1, Coventry City 0. Plymouth Argyle 0, Crystal Palace 0. Southampton 2, Reading 1. Swindon Town 0, Hillingham 1. Cardiff City 0, Northampton 0. Exeter City 0, South End United 0. Millwall Athletic 0, Brighton & Hove 1.

C.N.R. APPLICATION FOR AID PRESENTED TO PREMIER BORDEN

Idea of Loan or Subsidy Has Been Abandoned by Sir William

Ottawa, March 6.—Messrs. MacKenzie & Mann, in their campaign for assistance to the C.N.R., still occupy the centre of the stage around Parliament Hill, although the curtain has fallen. This is to say, the Government has not intimated what it is going to do. Sir William and Sir Donald were both in evidence around the House today. William Moore and Wm. Sloan were in the office and a staff of legal lights are within call. Things have materially changed in the last day or so and the formal application of the company for a bond guarantee means the abandonment of all idea of loan or subsidy. Inquiries which were made today as to the prospects of success of the undertaking, seem to be established that there is much less objection among the members to a bond guarantee than to other forms of aid. The prevailing opinion is that the company will be successful in securing this form of assistance, providing, as stated previously, it comes across with a substantial amount of high-class securities. The government, it is understood, is willing to consider this form of aid but the other forms have been eliminated.

Application Presented to Premier. It is stated the formal memorandum upon which the application of the C.N.R. for aid is based, was presented to Premier Borden this afternoon by Sir William Mackenzie and Sir Donald Mann. The memorandum sets forth at length the reason why the railway magnates consider they are entitled to further assistance.

Lloydminster Liberals Hold Big Annual Rally

Hear Hon. J. R. Boye, Pass Resolutions of Confidence and Elect Officers

Lloydminster, March 7.—At one of the largest annual rallies ever held in this province last night, J. R. Boye, minister of education, gave a stirring address. He outlined the work of the Legislature during the past year and dwelt briefly with its policy. Resolutions expressing confidence in the Liberal party, Sir Wilfrid Laurier and in the Government of Alberta were passed unanimously.

Yesterday a meeting of the executive of the Liberal Association was held at Kitchissippi, and in the afternoon a business meeting of the association was held. Delegates were present from every part of the constituency and the following officers were elected: Hon. president, Sir Wilfrid Laurier; hon. vice-president, Hon. A. L. Sifton; president, J. D. Munroe, Lloydminster; vice-president, J. Carey, Lloydminster; secretary-treasurer, C. Leonard, Kitchissippi.

The mass meeting was held in the evening and was attended by all the delegates, as well as hundreds of people from the town.

INJURED IN TRAIN WRECK

VANCOUVER, March 7.—Conductor Noble received a gash in his thigh, and Mr. G. B. Bancroft, a sprained hip when a train on the P. G.E. Railroad ran into a misplaced switch at Dundas yesterday morning and caused one of the coaches to overturn. A foreigner was cut on the arm and three other passengers were slightly bruised.

MANTELL AND WEEKS

VANCOUVER, March 6.—Frank Mantell, of Sacramento, California, arrived here today to finish out his training for a scheduled fifteen round contest with Billy Weeks, at the Steveston Arena, on St. Patrick's Day.

THE BRITISH LIBRARY
