Last night one of the most enjoyable sights and pleasing entertain-ments was given at the Rossley John Bull's Boarding School; the singing and Dancing was perfect, and Mrs. Rossley has every reason to feel proud when she looks on her talented little troupe, and know she herself has taught them, for she has worked wonders with those little girls; the dance of the nations simply brought down the house. The show is bright with music original, refined and very artistic. Among the new moving pictures shown is the French Spy in three reels, by the Vitagraph Co., with Maurice Costello, Edith Story, and two shows and another vitagraph.

The Treasurer submitted his statement, showing that after I will send you a complete list of paying all expenses this year there was a substantial balance. The collision that occurred in the Society end of this month. Race was discussed. The Secretary read a communication from the C.C.C Boat Club containing a resolution to he effect that because of their boat 'Cadet' being deliberately run into and damaged by the 'Shamrock,' owing to the improper steering by the coxwain; also by reason of the conduct of one of the Shamrock's crew

who threw an oar at the coxswain of the Cadet, all tending to jeopardize the lives of men, it was resolved that in future the C.C.C. boats would not participate in any race that these two nen in question were rowing in. An animated discussion followber present took part. The concensus of opinion was that no action be taken without the defence being present and to hold a special meeting to hear

both sides. Then a proposition was passed to the effect that a special meeting be called for this (Tuesday) night week, requesting the coxwains of the raceboats Cadet, Guard and Shamrock to be present in addition to the man accused of throwing the oar when the matter will be probed thoroughly. On motion of Messrs. L. Chafe and J. L. Noonan, supported by Messrs. C. W. Ryan, W. J. Higgins and J. P. Crotty, it was asked to pre-sent the set of silver medals that were left over in the Committee to the St. Mary's boys who finished the course second in the So-Capt. English. Electrical Storm.

Beginning at 11 p.m. yesterday, an electrical storm of unusual severity swept over the city and along the railway line to Bishop's Falls, and continued until about 3.30 a.m. to-day. The lightning was very vivid at intervals, the most severe being from 1.30 to 3 o'clock this morning. Though rained considerably all night, the heaviest downpour was after daylight when the thunderstorm had sub-sided. Beyond Bishop's Falls and along to Port aux Basques the weather was comparatively fine, as there had been rain at intervals all day graph lines worked satisfactorily and there was no s rious interruption
