#### Bluffing the Fishermen.

As we stated yesterday, few fishermen connected with the Union have an opportunity of seeing any other newspaper than the Advocate, consequently they are obliged to accept the dicta laid down by that journal, not being in possession of any evidence in rebuttal. Knowing this, Mr. Coaker is deliberate and studied in his outbursts to Council and Convention alike in promulgating the Kill-Coaker cry throughout the Coasts of Unionism. But thanks to the forward movement of the United Fishermen of the North, there are hundreds of men in St. John's to-day who are affiliated with the various Councils working in their particular localities. These men have been able to see other papers than the Advocate, and from them learn prevails, it is not directed of the Union Trading and other be very much prized by the winner.
