The late Myles Pennington, in his book, "Railways and Other Ways," gives an account of the freight charges on the first "railway" with which he was connected. It was a species of tramway between two can When Mr. Pennington had to make out his first way bill from Man-chester to Preston he asked his employer where the rates were. "Oh, call in Joe, he knows most about rates," was the answer. Joe was one of the carters. The following conversation is then given as showing the way rates were arrived at. . Mr. Pennington called out "Tommy Careful, one bale." "Fourteen pence," says one bale." "Fourteen pence," says Joe. "Billy Sharp, one bale." "He'll only stand a shilling," says Joe. Reports from Eastern Ontario and Quebec are less favorable. Inquiries made by the United States Minister to Argentina tend to show that this year's wheat acreage will not exceed last year's, and may b much less. Wheat growth is generally retarded by the backward season and in Spain, Italy and Hungary, it quality is deteriorated by persisten rains. Condition is reported improving in Northern Europe; also in Roumania Bulgaria and parts of Russia, but not in Poland or the southwestern provinces.
