NIAGABA ON THE LAKE, Ont., Aug., 10.

—The 300th anniversary of Izaak Walton was fittingly celebrated by the gathering of anglers at these fishing grounds, the most historic in Canada. The day was devoted to pleasure, most of the anglers who came from Detroit, Buffalo, Rochester, Toronto and other cities, indulging in black bass fishing. The bass were in good mood and many good catches were made, the best being by J. A. Aikenhead, of Toronto, who captured a string of bass fifteen in number, the largest weighing four pounds and three ounces. Sixty-five sat down to the banquet last night. and three ounces. IMPORTANT CHANGES IN THE STATES.

NEW YORK, Aug. 10.—After several days' deliberation the eastern racing associations determined yesterday to reduce the value of their over-night purses from \$1,000 to \$600. The announcement of this sweeping reduction was made public last night, when the following official bulletin was sent out: "The added money for the over-night events for the fall meetings of the Coney Island Jockey Club, Brooklyn Jockey Club and New York Jockey Club will be \$600 and upwards. As the Monmouth Park meeting will close in two weeks, it was not mentioned in the notice, but there is no question that the purses will be reduced at that track next year. These four associations, the Monmouth Park, the Coney Island, the Brooklyn and the New York jockey clubs comprise all the legitmate race tracks in the east, and their united action in the matter of reduction of the value of the purses will have a tremendous influence on the thoroughbred interests all over the United States. The value of the thoroughbred is, of course, dependent upon his earning capacity and if that is reduced \$60 per cent. the price of the thoroughbred must be correspondingly effected. As there are millions of dollars invested in running horses in Kentucky, Tennessee, Virgina, California and other States, the widespread effect of this decision of the eastern associations may be imagined. The reduction in values has been probably forced on the big clubs by the decreased attendance this season and the bitter rivalry of the small associations. The decrease in the value of over-night purses, it is believed, will be followed by a cutting down of the meney in stake, which will probably be eliminated and over-night purses at \$600 put in their places. duce the value of their over-night purses from \$1,000 to \$600. The announcement of

A Terrible Fact Borne Out by Statis-

The official death records kept by the various cities of our Dominion prove clearly that something must be done to check the increasing rate of infant mortality. The rich harvest of the "grim reaper"—death—comes from the ranks of the helpless children. Men and women wonder at the appalling loss of young life during the summer months. It is time that fathers and mothers should know the reason why so many babies and young children die. Our best physicians say it is owing to bad food and improper feeding. We know the doctors are right; they know whereof they speak. Many physicians are astonished at the criminal ignorance of some mothers in the matter of baby feeding. The frail, weak and languishing babes are fed on impure milk, porridge, crackers and milk and other improper forms of food that are not fitted for a strong stomach. Indigestion, sickness and death follow such a course of dieting. Physicians tell us that Lactated Food is the only safe diet for the young, especially during the summer months. Indeed, a long experience has proved that this Lactated Food has saved many a child's life. Mothers that have once given it a trial will use no other food. It is nourishing and strengthening at all seasons, and never fails to keep the digestive organs in perfect condition. If more of this life-giving food was used, the death rate among infants
