By Lillias Campbell Davidson.

You know there was nothing poor Harry would not do for me," I said. "I often think if I had seen more of him just when these dreadful things began, I might have kept him from them. No one has tried to help him all through-he shall see at last there is one hand held out to him if he will but try to turn back, even yet.

So, as my 21st birthday fell in May, and I came into possession of all the considerable fortune my dear father had left me, there was really no possibility of thwarting me, and my mother had reluctantly to give way.

For a little while it seemed as if my efforts would all be in vain. I could hear nothing of Harry's whereabouts. At last I had word of his having been seen at a race meeting in a certain town of Essex; and, having friends in the immediate neighborhood, I determined at once to go down

I reached Marnay Court late on a Satur-day evening—so late that I did not get up in time for church the next morning, but slept off my fatigue, and spent a lazy, quiet day among the roses in the garden. My host and hostess were old people, and unused to church-going twice a day; so I started off to evening service by myself, and chose a distant church I remembered from a former visit—a quaint place of great age, far in the heart of the country. I was early when I arrived, having started betimes, so I skirted the low churchyard wall, and made for a bench overlooking the distant country, with the long, faint sea-line on the horizon. As I approached the bench, a man rose hastily from it, and stood before me-and in an in-

Stant I knew that it was Harry. Harry!—but oh, how changed! From the habby dress, to the look of wild despair on his still handsome face, there was not one

Harry of the happy rectory days.

"Kitty on, Kitty!"—and the next minute he was on the ground at my feet, passionately kissing the hem of my dress.

My heart was sick within me as I raised

him from that attitude of profound humilation, and made him sit beside me on the little wooden bench. The change in him was still more apparent close at hand. The old light in his eve was quenched, and instead of the bright, confident bearing of past days, there was the hopeless, dogged look of him who had ceased to struggle with fate, and has owned it master.

"Oh, Kitty, Kitty!"—his very voice was altered, so deep, and wild, and hoarse—"why did you ever leave me? If you had not cast me off I should never have come to this. As long as you were with me I had the strength to fight against myself. I could hold out while you were by. Lay your little fingers on mine, as you used to do don't shrink from me, for Heaven's sake, or it will kill me. I swear to you, Kath-leen, that I've injured no living soul but myself: though Heaven knows how near to it I've been sometimes. Yes, it's true," as I looked at him. "Since the day you kissed me last, Kitty, I've done no single thing to make me unworthy-degraded though I am

"Harry, can this be true?" I asked, as I yielded my hand to his poor, feeble, trembling clasp. "Don't you call intemperance an unworthy thing?"

'Kitty, believe me-even my worst enemy has never put lying among the list of my sins-I say to you solemnly that I have never once been drunk in all my life. Yes, vou look shocked, but I tell you the truth. People say I am seldom sober. I know; and there isn't a doubt I've done things, time after time, that I haven't had the least consciousness of-but it's never been under the influence of liquor. Why, look at me! Are my eyes bloodshot?—do I look like a man who has been drinking hard for a year? You could tell from my breath in a minute -why, I haven't had even a glass of beer in It was perfectly true, I could see. "But

why, then—why—" I stammered.
"No. I'm not insane—I though that, too—but I have been to the best men on the brain and nerves, and they all insist I'm as sound as a bell, in my mind. Heaven knows what strange and awful disease it is. I've never been free, this whole year, from this dull pain and weight in my head-this black depression and these awful fits of reckless des-pair. Sometimes I find myself, to my horror, on the verge of some act that appals me with dismay; and heartily as I dislike cards, I can't see one without a mad desire to play. I've found out I had a gambling ancestor, somewhere about Charles the Second's time—I sometimes fancy I've inherited his passion, and that it broke out all of a sudden last summer at Dewsbery. Whatever wrongs he ever did have been revenged in his descendant. I'm broken in health, and ruined in pocket; the last few hundreds I owned went at the races last week. The last ten-pound note I have in the world is in my pocket at this moment; and just before you came up I was wonder-ing whether I had strength to get over the yonder line of sea, and end it all there. It's not a bad end that-soon over; and there must be peace somewhere down below those

restless, ever-tossing waves."
The tears were dropping on my lap.
"Oh, Harry, Harry, don't talk like that!" I cried. "It is never too late to try—to battle back to life. Resolve to begin anew—to shake off this dull despair, and overcome yourse f. Hope, and happiness, and honor may yet lie before you in the future."
"I can't," he said, shaking his head despairingly. "I haven't the heart nor the strength. Even your father will tell you the time is too late."

"My father has gone where thore's no such word," I said simply. "He asked for your forgiveness, Harry, before he died, and be far advanced in consumption. sent his love to you. Harry's face softened.

'He was the best man I ever knew," he "I'm very sorry he's gone, Kitty; only I can't feel things as much as I used."
The little cracked bell in the tower ceased its melancholy note, and the sound of a har-

monium stole out upon the evening air. I stood up.
"What, must you go, Kitty?—must you leave me so soon? Good-bye, then. I'm glad I saw you once again, before—before

"I'm not going to leave you at all, Harry. Come into church with me now, and afterwards I am going to take you home with me

to the Harcourts."
"Church? I couldn't!" He shrank back.

"What should I do in church? I haven't been inside one since that time at Dewsbury."

"That's all the more reason you should come now," I said, slipping my hand through his arm to keep him; and, somewhat to my

surprise, he yielded.

It was a quaint little building, with a low gallery at one end, and rows of rough heavy oak benches. The Norman chancel had long ago disappeared, and the little square Norman tower in the center of the church did duty in its stead. There was a very small congregation—a handful of villagers in their best black bonnets. with a

prinkling of hobnails and smock frocks:

The school misting played the harmonium; and the service was conducted by a short-sighted young clergyman in spectacles. I was glad, for Harry's sake, that there was no more distinguished gathering.

He had selected a seat in a dark corner, nearly hidden from sight by a projecting pillar, and I got as near to him as possible.

Once or twice during the simple service I felt him start violently, and half rise from felt him start violently, and half rise from his seat; but I laid my hand on his knee, and he instantly grew quiet again. After that I kept it there. It gave me great hope and encouragement to find how strong my influence upon him seemed to be.

The sermon was like the service-simple and homely; but the short-sighted rector had a kind and gentle manner, and it com-forted me, somehow. Harry was wonder-fully quiet while it lasted, and the few last words were so earnest and trusting that they brought the lately dried tears to my eyes once more.

Untold Misery-What a Well-Known Commercial Traveler Suffered, and How He Was Cured,-Gentlemen,-About five years ago I began to be troubled with dyspepsia, and for three years suffered untold misery, from this terrible complaint. I was at that time traveling for Messrs. Walter Woods & Co., Hamilton, and was treated by some of the best physicians in the country, but all to no purpose. I continued to grow worse, one day I was induced to try a bottle of Northrop & Lyman's VEGETABLE DISCOVERY, and to my great surprise and joy, I soon began to improve. I continued using this medicine, and when the third bottle was finished I found I was entirely cured; and as a year has elapsed since then, I feel confident that the cure is complete and permanent. Toall afflicted with this distressing complaint I heartily recommend Northrop & Lyman's VEGETABLE DISCOVERY, believing that the persistent use of it will cure any case of dyspepsia. (Signed.) T. S. You Are Tired and Worn-out, Use Paine's Celery Compound.

Paine's Celery Compound has been more talked of, discussed, prescribed, inquired into, than any other remedy of this century.

No medicine ever had such testimonials. It has made thousands of tired and worn-out men and women well.

Paine's Celery Compound builds up the shaken nerves. The nerves regulate the blood supply through the body. Upon their action depends health and happiness.

It is the nerves, then, that are to be attended to.

Nerves out of repair result in loss of sleep, irritability, lassitude-which are the beginning of a host of ills.

Paine's Celery Compound robs the nerve centers of irritability, and by supplying abundant nutrition to the nerve tissue secures healthy action. Paine's Celery Compound makes life easier all the year round. When men and women overwork in the home, workshop, store or office, and find sleep hard to get at night, when the used up brain gets no time for repair, nothing refreshes, strengthens and reanimates like Paine's Celery Compound. It is food for the brain and nerves.

For all diseases arising from a debilitated nervous system it is a true specific. and is generally prescribed by physicians. It is not a patent medicine.

It is the most remarkable remedy that the scientific research of this country has produced. Prof. Edward E. Pheips, M. D., LL.D., of Dartmouth College, first prescribed what is now known the world over as Paine's Celery Compound, a positive cure for dyspepsia, biliousness, liver complaint, neuralgia, rheumatism, all nervous diseases and kidney troubles. For the latter, Paine's Celery Compound has succeeded again and again where everything else has failed.
