COMMENT ON THE CONFERENCE

Considered by the Daily Telegraph B

Gigantic Step Forward-Can-

ada's Position.

London, Nov. 4.-Press opinions vary

widely as to the result of the colonial

conference. The Morning Post consid-

ers that the conference did little more

than mark time. The Daily Telegraph

speaks of it as "a gigantic step for-

ward in the direction of imperial con-

solidation." The London Daily Mail

says that the most important fact, and

one that indicates an imminence of

something approaching constitutional

revolution, is Mr. Chamberlain's offer

on the part of the Government to fa-

vorably consider the representation of

the colonies in one or other of the

houses of the Imperial Parliament.

# The Baby

Then probably it's a cold. Babies catch cold so easily and recover so slowly. Not slowly, however, when you use Vapo-Cresolene. Then

Vapo-Cresolene is sold by druggists everywhere.
A Vapo-Cresolene outfit, including the Vaporizer and
Lamp, which should last a life-time, and a bottle of
Cresolene, complete, 51.50; extra supplies of Cresolene, as cents and so cents. Illustrated booklet containing physicians' testimonials free upon request. VAPO-

ence is looked upon as an account of one of the most important imperial consultations ever held. It discloses the fact that a determined effort was made by Mr. Chamberlain to bring the colonies into a systematized scheme of imperial defense. The contributions of Australia, New Zealand, Cape Colony and Natal to naval defense were inpromising to make arrangements for the support of naval militia for local service, declined to draw Canada into what he described as "the maelstrom of European militarism," and reserved for the Dominion the principle of absolute independence in that respect.

ference in favor of preferential trade was purely academical in form. The between the mother state and the colency of the adoption of preferential treatment on Canadian lines by the other colonies was affirmed in general terms. The obligation of Great Britain to reciprocate by giving the colonies special advantages was not, however, formulated by Mr. Chamberlain, with definiteness and precision. As Canada had done far more in this respect than was in a position to await the issue of events, and hopes for a future recognition from the colonial office of the loyalty and fair play of Canada.
