Mr. Charles Wheeler will contribute some choice selections and the full choir and soloists of the church will take part. Rev. Dr. Johnston will preside. A collection will be taken at the doors.

ASKS HEAVY DAMAGES.

An echo of the Wainstead disaster will be heard next week at the Sarnia assizes, when an action between William F. Lawrence and others and the G. T. R., for \$30,000 damages for the death of H. P. Lawrence will be tried.

A PROMOTION.

The vacancy in the G. T. R. car works office staff, caused by the transfer of Mr. James Herriott, to Stratford, has been filled by the promotion of Mr. Ernest Graham to the position. Mr. Graham's place is taken by Mr. Roy Shannon.

DEFEATED COINS.

The Hamilton Spectator says: The problem of how to get rid of the mutilated coins placed on the collection plates is one which has for a long time puzzled the trustees and other officials of local churches. The churches, it is claimed, have to take a lot of defaced and bad money, the amount of unpassable money placed on the collection plates every Sunday very often running into the dollars.

Frequently the coins are so badly battered and defaced that the church treasurers cannot get rid of them, and either the church or treasurer is consequently a loser. To overcome the difficulty in this respect the treasurers of the local Presbyterian churches have decided to unite in an appeal to the proper authorities at Ottawa, to have the coins taken out of circulation and mutilated money found on the collection plates. If they are successful the other churches will likely follow suit.

MEMBERS INCREASED.

The reports presented at the meeting of the Woman's Foreign Missionary Society of St. Andrew's Church, yesterday afternoon, showed a successful year. The membership had increased to 136. It was regretted that Mrs. (Dr.) Johnston had to resign, owing to her removal to Montreal. Vacancies were elected as follows: Honorary presidents, Mrs. Manning and Mrs. Purdom, sen.; president, Mrs. William Ross; first vice-president, Mrs. McMahen; second vice-president, Mrs. L. M. Fraser; third vice-president, Mrs. C. R. Somerville; secretary, Mrs. Gillespie; treasurer, Miss Fraser; library secretaries, Mrs. J. McInnes and Miss Macbeth; organist, Miss Gunn.

THE OPENING HOP.

Messrs. Dayner & McCormick held their opening dance of the season at the Palace Dancing Academy last night. It was attended by a crowd that was probably the largest that has ever attended a hop there, and all thoroughly enjoyed the excellent music played by the academy orchestra.

A new message daily—watch for it.

During the summer a new floor was put in at the academy and other improvements made that will tend to greatly increase its popularity. The membership in the primary classes that have just started taking lessons is so large that several nights are required to give instruction instead of the one that has been customary in past years.

A DESPICABLE TRICK.

The handsome new plate glass window in H. & C. Colerick's new art store on Dundas street has been disfigured by some miscreant, who took a glass-cutter and ran it the whole length of the window. The windows of the other stores in the Higgins block are so large that the matter has been reported to the police.

## NEW BARRACKS FOR TORONTO.

The old Stanley Barracks property at Toronto will be sold by the Dominion Government, being altogether unsuitable for the purposes for which it has been used for many years. A site of 200 acres in a better locality has been secured, and it is said that work on a new headquarters for the permanent infantry force and the Royal Canadian Dragoons will soon be under way.

## RETURNED FROM ROCKLIFFE.

Three members of No. 1 Company, R. C. R., have returned from Ottawa, where they took a six weeks' course of instruction at the Rockcliffe ranges. They are Quartermaster-Sergeant Price, Color-Sergeant Cranston and Sergeant Beales. Several other members of the company are still at Ottawa, but are expected back in a few days. The instruction was given by a number of imperial army non-commissioned officers, who were sent to Canada for the purpose.

## A DANGEROUS WALK

South Londoner Has a Mishap On the Wortley Road.

A resident of South London said today that the walk under the railway bridge on the Wortley road was one of the most dangerous in the city. Two of his friends, who were in the local, were proceeding to his home the other evening, and when passing under the bridge one of them slipped and injured his ankle very severely. The sidewalk is about five feet from the roadway at that point, and it being without a railing it is an easy matter for a stranger to walk over the edge, a distance sufficient to give any man a severe shaking-up and possibly result in serious injury. What makes the locality the more dangerous is the fact that there is a bend in the walk under the bridge.

This is the second time that persons have fallen from the walk. The injured man is thinking seriously of putting in a claim for damages.

## JACKSON HAS NO CLAIM

City Solicitor Meredith Reports Against the Fanshawe Man.

Probable Mistake in Rendering of Adelaide Street Hill Accounts.

The board of works, at a short session, last night, dealt with a couple of claims against the city for damages, the bill of Thomas Henry, London, township, for graveling Adelaide street hill, and several other matters of importance.

Regarding the claim of Thos. Jackson, of Fanshawe, who asks for \$10,000 damages for injuries alleged to have been sustained through a defective walk, the committee that whatever claims Mr. Jackson might have against the city, he has none against the city.

The advice of the solicitor appeared to be in accord with the opinions of the committee, and it was decided to file the letter and report to the council that Jackson's claim be dismissed.

The claim of John Wilson, of 89 Sackville street, for damages alleged to have been sustained through a defective walk, was referred to the engineer to report.

It was decided to have the engineer visit Thames street and see what can be done to prevent the water from running off the street onto the property of the London Foundry Company. The company had, through their solicitor, Mr. R. K. Cowan, stated that if something was not done in the way of putting in a sewer, action would be brought against the
