The market was active throughout, with fairly large trade passing exporters taking November and investors purchasing May, while houses with United States connections were selling Winnipeg May and buying Chicago May at around 3½c difference. ## Local Market

Today's market was a creditable one as far as the quantity and quality of the produce was concerned, but the post-thanksgiving lull still grips local

business, and all the offerings moved slowly. Good grade hay only is in demand though poor quality still predominates. Prices are steady from \$11 to \$14 per

ton.

Oats are bringing \$1.40 per cwt, and wheat \$1.35 per bushel.

Apples are now being looked upon by many as undesirables, and the demand has ebbed to almost zero. The price was as low as 85c per bushel this morning. Apples are now being looked upon by many as undesirables, and the demand has ebbed to almost zero. The price was as low as \$5c per bushel this morning.

Totatoes are one of the main attractions, and the quality is good, considering the fact that this year's crop is below the average. In quantities they are now selling at \$0c and \$9c a bag are now selling at \$0c and \$9c a bag.

Dairy produce is nrm, with the offerings light and the demand fairty strong. Eggs are bringing \$0c to 55c a dozen wholesale, while the retail price ranges from 55c to \$6c.

Butter is selling at \$4c to \$4c per lb. Only one farmer offered cider today, but aithough the quality was said to be excellent, sales were few. The price asked was \$4c a gallon.

bers of the Mexican chamber of deputies were seriously wounded in a shooting affray which came as a climax to a stormy debate in the chamber last night.

Deputy Louis Morones, the most prominent labor leader in Mexico, was shot through the stomach, while Leopoldo Guerrero, aged deputy from Zacatecas, was wounded twice in the chest.

General Jose Maria Sanchez, former governor of Puebla, had demanded from the speaker's stand that Morones retract charges which he made against Sanchez in a speech last Sunday. He gave Morones the alternative of a meeting of honor, but the deputy declared the matter could be settled immediately.

Friends of the disputants went into the corridor and shots were heard. The chamber was immediately adjourned, the deputies flocked into

GRAIN MARKET GOSSIP

Wheat is responding to world's con-sumptive demand, not to anything of a speculative character. The world wil-be fed regardless of prices; therefore all setbacks in price will be only temporary.
The U. S. government's estimate of corn was received as a surprise, it being commonly surposed that a large amount of old corn was back in first hands. The report is bullish from all

The wheat trade of the world is beginning to realize the underlying conditions that have existed for several months, and which have been strengthened by reduction in Argentine crop prospects. One of the largest operators in grain One of the largest operators in grain believes that we are starting into a period of inflation, with increased buy-ing of stocks, grains, cotton and all commodities. This should result in grain prices going much higher,
