THE BOSS LAND SWINDLE.

The Edmonton Bulletin, a courageous and breezy little journal, comes out strong on the great land swap between the syndicate and the English land corporation of which the Duke of Manchester is president. Coming from the far west, almost under the shade of the Rockies, it gives an opinion which is in all respects worthy of quota-

The buying up of eleven million acres in payment for which the corporation give bonds which are given them by the syndicate is the same thing as the syndicate selltwo companies are pretty much one and the same affair; so that the transaction is simply a hand over of syndicate lands to the syndicate itself under a different name. in order that the Iands may be sold at an extortionate figure, for which the syndicate would not assume any responsibility. The Bulletin assigns two reasons why such a sale as this would be made and why it would be made in this way. One is that the syndicate is financially too weak to subscribed capital of \$6,000,000 for the good to let off their superfluous bile now building of a road estimated to cost at least \$100,000,000; it was therefore good policy to ally themselves with wealthy Eng-lish capitalists who would aid in building the road as well as selling lands at a large

The other is that the regulation price of the lands to actual settlers was too low to suit the syndicate, so that by ostensibly placing them in other hands they would not be responsible for overrates in selling.

"What." it adds, "will be done with these lands, may be judged from what the Duke of Manchester announced as his reason for coming to Canada. He said he did not come to plant colonies but to purchase land in large quantities and sell it out at an advance in smaller quantities. His grace, or his lordship, or his honor, or his majesty, or whatever his handle is, must at least be allowed credit for honestly avowing his purpose. It is speculation pure and simple and on an immense scale."

"There is no swindle in the syndicate acquiring an encimous land-grant nor in their selling a portion of it to the Duke of Manchester or any one else, who has a perfect right to do as he likes with his own, but the Canadian people in parting with their lands as they are doing, giving them away, throwing them right and left, calling on speculators from the four corners of the earth to come and take them, are swindling themselves.

This sensible platform is all the more interesting as coming from a district where operations similar to the above are being already carried on, on a smaller scale. It looks as if the bulk of our Northwest lands were going to be one vast uninhabited stretch to be withheld from struggling humanity by rates which no sane man would and no poor man could pay.

CRUELTY TO WORKING GIRLS.

Making all allowance for exaggerated statements on the part of working girls whose insubordination and "lip" gave the utmost possible provocation to the forewoman who had the misfortune to be put in charge of them, we have sufficient evipractised against young girls. There is no doubt that severe corporal punishment is inflicted at the captice of forewomen who have it in their power to threaten the more terrible alternative of dismissal. It is different to go that the captice of the captice of forewomen who have it in their power to threaten the more terrible alternative of dismissal. ther. Under the system of contract, the employed may suffer much injury and injustice from the employer, bad words, unjust fines, dismissal. But when the person is violated the relation becomes no longer a contract but slavery.

THE COUP DE GRACE TO GRACE CHURCH.

Grace church was established specially as a resort for that large portion of the members of the Episcopalian church which is attached to the traditional methods of worship of Anglican Episcopalianism, without having any sympathy with the narrow dog matism which finds favor with the clergy as distinguished from the laity. The doctrine of the clergy is that only those who have undergone an invisible miracle of gift of the Holy Ghost conveyed by the fingers and palm of the hand of a bishop being laid on their heads, have the right to preach, the authority to administer sacraments, the power to put themselves in the place of God the forgiver, by saying, "I absolve thee from all thy sins."

The laity on the other hand look to the Episcopalian clergy much as other protestants do to their preachers. It was so at

tants do to their preachers. It was so at Grace church for the last several years. Mr. Lewis having been trained in Method. ism was considered a more able reacher than many of the "high and dry" occupants of Episcopalian Toronto pulpits; he had gathered round him a circle of devoted workers, not the least sucessful of whom was Mr. Howland in his Sunday afternoon Bible-class amid the slums of Centre street. But in consequence of the tendency in the Episcopalian church to make everything depend on the ism has been by Mr. Lewis, to the best of of any associated good in the mind his power as rector, snubbed out of existence. Mr. Howland and his bible-class are to be left out of all festivities in which Grace church is supposed to be represented. The "eastward position" during "holy communion" is to be maintained at all in that character.

But why does not P.T. come out frankly

nearer to the priest. He may yet be a ritualistic bishop."

A FISHY EDITORIAL.

It is amusing to notice upon what slim pretexts the two great party organs undertake, sometimes, to belabor each other and each the party of the other. The most frivolong excuse is often seized upon to indite a column or two of spleen for no other reason apparently than that it seems to do them Globe we notice a diatribe—a short one for a wonder-headed "Danger to the Fisheries," wherein by a line of logic, wonderful in its contortion, it saddles the whole blame of the depletion of fish in Lake Ontario fair and square upon the conservative government. "Where," it asks, "are the inspectors ?- they who are appointed by government to enforce the laws and protect the fisheries in this very particular ?" In

order to be able to spin a respectable yarn it rakes in the supposition, first, that the inspectors are not doing their duty, and second that they are so totally depraved and corrupted by their official superiors as to lose all sense of duty, and also it makes the astonishing and stupid assertion that the authorities at Ottawa have specially instructed said inspectors to close their eyes, or also keep quiet about any transgression of the law in order that the vote of the fishermen should be gained. Surely Sir John and his underlings would not be so blind to their interests as to court the favor of a handful of fishermen at the sacrifice of thousands of intelligent voters who are closely interested in the preservation of Lake Ontario fish. They have
never yet displayed such infatuation and
never will, at least under their present
leader. For a paper of the Globe's standing to lay such an imputation has a bad

medicine, with no relief. I saw the advertisement of Northrop & Lyman's Enul.
sion of Cod Liver Oil with Lime and Soda,
and determined to try it. I have taken one
bottle, and it has given me more relief
than anything I have ever tried before,
and I have great pleasure in recommending
it to those similarly afflicted.

DISHONEST TRUSTEES, LAY AND CLERICAL It has been justly said that Mr. Hunter's clients ought to be held responsible in part for the embezzlement which their culpable carelessness rendered possible. But one thing is certain, the culprit will in this case receive the full measure of his punishment. A very different case was that of the Venerable Thomas Parnell who latelymade away with church funds to the extent of \$30,000 tat Kingston. His sins

VICE-REGAL PATRONAGE.

(To the Editor of The World.) Is there not an unnecessa tremor about the letter of your correct pondent P.T. in Thursday's issue, on the Perhaps P.T. is nervous because, in his mind, the word patronage still retains an old flavor of subserviency, while its de facto meaning at the present time is simply approval. And why should the approval bishop, the lay element at Grace church of a competent person be considered detribeing suspected of over much protestant- mental to the independence and prosperity But why does not P.T. come out frankly

who happen to favor historical protestantism.

What an old Methodist preacher remarks ed yesterday has much force in it: "I was sure that when Brother Lewis left our church he would not stop at low church lideas; that he would soon want to get still long as he is associated with them. There is an inherent aristocracy in pure literature that ought to lift each literary man out of the rate of prejudice and cant that hold less jenlightened minds, and make him superior to the fulse tinsel wherewith democracy bedecks itself. A wiss man ought to cracy bedecks itself. A wise man ought to know that there is no true democracy since there is no dead level of mind or matter, and surely Canadians know themselve well enough, however they may judge their neighbors, to be sure that the man who neighbors, to be sure that the man who has no claim to respect, save that of social position, stands but a very poor chance of being asked to become patron of either the shorthand or any other society here. It smacks very much of mock humility and class wide at her wall to be a small to be a supplied to be a small to be a false pride to be unwilling to acknowledge the value of a position simply because he did not plant the flag on it.

READABLE PARAGRAPHS

-Young man do not give up the ship There is still hope. Dr. E. C. West's Nerve and Brain Treatment will cure you. Mr. John Bright, who had been invited to attend the New England fair during his rumored visit to this country, writes that though it would give him great pleasure to do so, he has no intention at present of coming over here.

Jacob H. Bloomer of Virgil, N. Y., writes: "Dr. Thomas' Eclectric Oil cured a badly swelled neck and sore throat on my son in forty-eight hours; one application also removed the pain from a sore toe my wife's foot was also much inflamed—se nuch so that she could not walk about the house; she applied the Oil, and in twenty-four hours was entirely cured."

Every English war raises a general to the peerage. Admiral Beaumont Seymour is to have a baronetcy for his well directed rdment of Alexandria.
