In the case of any other civilized nation of acknowledged commercial aptitudes, you would at once acknowledged commercial aptitudes, you would at once acknowledged that forty years of movement forward had left it very much abler to do for itself than it was before. But your view of Canada's destiny not only fails to take into account her progress of the last forty years; but it leaves out of sight the new era of advancement upon which the Dominion has entered, consequent upon the development—only just fairly started —of the new country beyond Lake Superior. Surely a mathematician would not pronounce us very far wrong were we to say that in this case the probabilities are infinitely against you.

You are never weary of holding up before us the astonishing progress of the Great Republic, especially during the lifetime of the present generation. One or two letters have lately appeared asking for a financial statement of the affairs of the Diocese of Algoma. In reply to these gentlemen we would say that the Treasurer of the Diocese finds it impossible to make a full financial statement in the middle of a fiscal year. The request is an unreasonable one. The year ends on June 31. A full statement will be prepared in plenty of time, and will appear shortly after the closing of the books. It is hoped that nothing more will be said in the meantline. The Diocese of Algoma is like a banking institution; two or three people can start a run. Even an apparent lack of confidence does a great deal of harm, and results in the withdrawal of support. Those who are anxious for the financial statement inust-even close a little patience. It will be forthcoming at the regular times.

Which Saint Augustine?

From The Diminton Churchman.
The dedication of a new church at Toronto to St. Augustine has caused some little confusion as to whom this church is really dedicated. One would suppose from the Bishop's highly in cresting discourse at the opening that he suppose a the one to be St. Augustine of Cantersupposed the one to be St. Augustine of Canterbury, while Prof. Clark's discourse showed that he took the name to refer to St. Augustine, lishop of Hippo. We believe the great theologian was intended to be honored by the founders of this church, not the archbishop. L. Augustine of Hippo died in 430, leaving works that have been one of the mightlest literary influences that ever moulded religious bought and life.
