WATERWORKS COMMITTEE.

The Scaton Case Crops up Once More—
Ald. Macdonald's Suggestion.

There were present at yesterday's meeting of the Waterworks Committee, Chairman Boustead, Ald. Carlyle (St. And.'s), Hill, Graham, Maughan, Gibbs, McMullen, E. A. Macdonald, Small and Superintendent Hamilton. Mrs. S. G. Wood, Mrs. Chas. Grasett and Miss Dupont formed a deputation from the Humane Society to press upon the committee the necessity of providing additional horse troughs during the coming summer. They departed highly pleased on learning from the gallant chairman that a sum for this object had already been included in the estimates. The Thomas Seaton question was revived again in the shape of a recommendation from Council that his troubles be considered once more. The cause of this sudden interest in the case manifested by some of the aldermen results from the fact that the Trades and Labby Council is taking the matter up, or rather Seaton has succeeded in getting, them interested. Ald. Carlyle, Mc. Mullen and E. A. Macdonald stood out for Seaton, but the Chairman was not to be influenced one way or the other, and managed matters so that the recommendation was laid on the table. It is among the records of the committee that Seaton was addicted to overindulgence in intoxicating liquors.

The Superintendent's report showed that the support and matters and honorable of the superintendent's report showed that the proportion our rivais is unfeit. Yes, everyone about the coloning at the Army & Navy stores. One price to all, and that price so low that the recommendation was laid on the table. It also contained a force weeks ending March 2. There had been 160 services up to date. It also contained a fierce letter from Engineer Ferguson complaining of the bad condition of the approaches to the pumping station. He thought it a disgrace that employes should be compelled tos wade three deep in mud in going to and from their work. The revised estimates for the year 1889 were placed at \$153,902, as against \$133,000 for the preceding year. Among the items was \$2200 for Superincendent Hamilton's salary, as against \$1700 for the year 1888.

certain water arrearages, of the existence of which he was in entire ignorance. Ald, Macdonald was instruct and when he does so it will be inserted in the report of the committee before going before council.

The Question of the Bylaw.

The chairman announced that the Superintendent and himself were hard at work getting ready the Waterworks bylaw for submission to the people. He asked the sense of the committee on the matter of the new engines which were to be procured. Ald. Hill remarked that he thought there was a fine one in Hamilton, but the best he saw was the new Worthington with oscillating cylinders. It was giving satisfaction in the States. Then the discussion drifted into a Lake Simcoe controversy, in which Ald. McMillan and Macdonald championed the lake on the hills, while the chairman himself was forced to acknowledge that the present scheme was only temporary in its character.
