

### MINERS ASK TWO YEAR CONTRACT

Demand As Well Wage Increase and Union Recognition

FACT EXPIRES AUGUST 31

Report of Scale Committee Adopted By Convention

SCRANTON, June 29.—(Associated Press Dispatch.)—The demands of the anthracite mine workers to be presented to the coal operators were adopted by the miners' convention late today as submitted by the scale committee, except that the increase of \$1 a day for men paid by the day was amended so as to make the increase \$2 a day. The convention then adjourned.

The demands follow generally those adopted at the convention in Slamokin, Pa., in January, 1922, and for which the miners fought for 2½ months, the men finally returning to work without an increase in wages, but maintaining the scale under which they had quit. The present agreement, which was entered into in September, expires August 31, and it was announced the new demands will be presented to the operators as soon after the Fourth of July holidays as possible.

The discussion of the demands from beginning to end proceeded in an orderly manner and there was no serious objection offered to any clause in the list presented.

The principal demands for an increase of 20 per cent. in the contract wage; \$2 a day increase for men paid by the day; a two-year contract, with full recognition of the union; uniformity and equalization of all day rates; the eight-hour day for all men employed in and about the mines; that where coal is paid for by the car, the system be changed and it be paid for by weight. There were a number of other demands of a technical nature.

### Facts About Camp For Boys On Lake Erie

The London fresh air camp to-day exists only in the hearts of potential-ly generous citizens.

See this opportunity for a great service as Rotary Club, Y. M. C. A. and Free Press see it, then the camp will be an assured fact. At present something like \$1,000 stands between dream and realization. But a site has been secured, not only for this year but for years to come. The Ontario ministry of agriculture set aside a large forest at Rondeau by Lake Erie for a bird sanctuary. Their plan fell through. They have given the site, a six-room cottage and a cookhouse to the London Fresh Air Camp Association if London will make use of it.

About 100 boys are to be provided for if the plan proves a success. And here's the point of the whole matter. In Toronto appeals are being made for a fresh air camp. Those that make deep appeals may dig deep into the sympathies of the citizens concerned because TORONTO HAS "SLEETS." London has no sleets. No child's life is endangered here more than usual. But no teenage boy lives that is not subject to being a victim of the character. London has an unusually large number of slum lads that are working for their living. They already have a fine fund of money. The fresh air camp hopes to build on those foundations a superstructure of civic appreciation and big brotherliness.

Or, putting it another way, these boys have by ancestry and good motives been built up a protective wall against that sea which overflows many young lives with evil in which ambition is lost, in hope submerged, decency rotten and hope drowned. Any boy-dicker son or cook's son—has a hard job keeping his character intact. Let us honor Toronto for seeking to save lives in this slum. BUT LET LONDON HELP SAVE ITS WORKING SONS' FINE, YOUTHFUL CHARACTERS!

The fresh air camp will help do it. It will not be a charity camp in the ordinary sense. There are necessary charity camps and those that support them deserve heaven's benediction, but the boys we want to help by helping them to help themselves, would be harmed by any such plan. In this camp right and left hands must not only be strangers, they must speak different languages!

And London's boy campers will have a great time. The park selected is alive with nature's untamed beauties. Tents will shelter the boys there from July 25 to August 8. The woods will be traversed by shouting youngsters studying the lore of the forest. The shallow off-shore lake will provide magnificent swimming, canoeing and other water sports. And fishing—that sport which takes the knots out of sported nerves—the finest in the world!

At night there will be campfires around which youth will give expression to singing hearts. Big men in more ways than one will give talks to the lads, tell them stories and, without cant or obtrusive intent, direct their young minds towards the great fundamentals of life and achievement. The camp will be worth while this year and the years to come. It takes friends of youth see the greatness of this plan and the glory of its objects and London will have given birth to one more great venture for the upbuilding of the Dominion.

Ladies' Auxiliary, of St. Thomas Firemen, Stage Fine Outing At the Lakeside.

FORT STANLEY, June 29.—Sixty Masons of the St. John's lodges of Ontario journeyed by special car to Port Stanley this afternoon and were delighted at the many attractions at the lakeside, especially on the L. & P. S. E. property and that of the Erie Amusement Company. A whitefish and chicken banquet was served the members in the L. & P. S. cafeteria.

Charity Lodge, No. 37, auxiliary to the railway firemen's brotherhood, of St. Thomas, held their annual picnic on Invererie Heights this afternoon, a large number arriving by auto and the remainder on the 2 o'clock train. The weather was splendid and on arrival the greatest event of the outing was staged, the "professionals" ball game between the ladies and gents, but, as usual, the men had to allow the weaker sex to win for the sake of peace.

The line-up of the professionals was: Ladies—Mrs. Jas. Clark, Mrs. H. Pettit, Mrs. T. Tyrrell, Mrs. S. Joffrey, Mrs. W. Williams, Miss A. Blackwell, Mrs. W. Winters, Miss Thelma Winters and Mrs. C. Taylor.

Gents—Coell Taylor, Austin Curtis, Sterling Richardson, Austin Pickell, Bill Saxon, Tom Dready, William Winters, C. Dunlop and Tom Tyrrell.

EXCHANGE TEACHER RECIPIENT OF RING STRATFORD, June 29.—Miss Lillian Phillips, the popular exchange teacher from England who has been teaching in Hamlet school, was given a ring of onyx and pearls last evening by the Board of Education. The ring, a beautiful one, is suitably inscribed, and was presented to Miss Phillips by Mrs. D. Deacon, member of the board. Alex. Fisher, chairman of the board, spoke several well-chosen words, as did Inspector J. H. Smith, regretting Miss Phillips' term was now at a close in the city and wishing all good things for the future.

Miss Phillips leaves on Saturday for Vancouver and the West. She will tour there until the end of August, when she expects to sail for her home in England.

### MAY NULLIFY THE S. WATERLOO VOTE

D.R.O. Placed Names On List At Polling Booth

VIOLATED ELECTION ACT

Chief Election Officer May Order Another Election

SPECIAL TO THE FREE PRESS. TORONTO, June 29.—The strong possibility of a nullifying of the South Waterloo election, which was carried by K. K. Homuth, the Labor candidate, to live up to past records before the election issue is decided in South Waterloo, and if all rumors are finally proven true it may eventually prove to be a very ugly or unpretty number for either Karl Homuth, Labor candidate, or A. W. Mercer, who carried the Conservative banner in the battle of the polls on Monday last. According to the figures as sent in from the deputy returning officers, Homuth has a majority over Mercer of 13, despite the fact that Homuth workers have been claiming 47, the discrepancy apparently being that one Homuth majority was reported twice from one of the precincts.

At all events the figures now stand at 13 and will thus remain until returning officer J. M. Jamieson, of Galt, goes over the poll records on Saturday night, at which recapitulation representatives of the candidates are entitled to be present.

Until the final declaration is made by Mr. Jamieson, neither of the candidates is really elected and much speculation is rife as to what his verdict will be.

MANY RUMORS. Sensational rumors are rampant throughout the riding that grave irregularities have crept into the local election in the handling of the ballots and the representatives of the Mercer scrutineers are anything but reassuring for the final election of Mr. Homuth, if what is reported is correct, and which will finally be investigated through a report of the whole cast of ballots in the entire riding, or further still by protesting the entire election. The grounds for the latter action being that one poll, Breslau, it is definitely known and even admitted by the parties in charge of that poll that they, through ignorance, allowed several more people to vote than were actually on the official voters' list, the practice there being to write the name of the party who desired to vote into the lists and hand out the ballot for the exercise of the franchise.

ATTEMPT MADE TO WRECK C. P. TRAIN THREE RIVERS, Que. June 29.—An attempt to wreck the Canadian Pacific train between here and Grand Mere was made yesterday afternoon when an iron bar was placed on the rails, causing the derailment of the locomotive. No one was injured and little damage resulted.

### Pikers' Tour Is Canceled

The Michigan Pikers' tour, which was scheduled for the middle of July has been called off owing to an insufficient number of entries, according to information which has been received by Eddie Bernard, secretary of the London Motor Club. The Pikers were to have had lunch here at noon on July 22. Coupled with the lack of entries is the problem of securing cars and trucks from the manufacturers, who are exceptionally busy just at this time and unable to meet the requests of the Pikers' Association.
