Miscellaneous.

Englishman, with a square head, a resolute face, and decided manner in speaking. He prefaced his lecture by emodestly offering to America his services in any way in the search for the Jeannette, because America came forward so nobly in the search for Sir John Franklin. He also explained one of his objects in company with Lieut. Schwatka, who approves of the project, to do what has been deemed impossible—reach the north pole by means of balloons. His method is to start out ble—reach the north pole by means of bailcons. His method is to start out that the men are not so chivalrous as the used to be, and I do not wonder a house is to be put up near a coal field and provisions are to be stowed in a when he sees how reckless they are of and provisions are to be stowed in a when he sees how reckless they are of and provisions are to be stowed in a when he sees how reckless they are of and provisions are to be stowed in a when he sees how reckless they are of any provisions that the men are not so chivalrous as the start out that the men are not so chivalrous as the subscriber wishes to inform the public generally that the men are not so chivalrous as the subscriber wishes to inform the public generally that the men are not so chivalrous as the subscriber wishes to inform the public generally that the men are not so chivalrous as the subscriber wishes to inform the public generally that the men are not so chivalrous as the subscriber wishes to inform the public generally that the men are not so chivalrous as the subscriber wishes to inform the public generally that the men are not so chivalrous as the pure used to be, and I do not wonder a American Furniture, the Subscriber wishes to inform the public generally that the men are not so chivalrous as the public generally that the men are not so chivalrous as the public generally that the men are not so chivalrous as the public generally that the men are not so chivalrous as the public generally that the men are not so chivalrous as the public generally that the men are not so chivalrous as the public generally that the men are not so chivalrous as the public generally that the men are not so chivalrous as the public generally that the men are not so chivalrous as the public generally that the men are not so chivalrous as the public generally that the men are not so chivalrous as the public generally that the men are not so chivalrous as the public generally that the men are not so chivalrous as the public generally that the men are not s cave in the cliff. Then three balloons exposing their persons. Low necks raising the prices of his FURNITURE, as may are to be filled. Each balloon is inare to be filled. Each balloon is intended to carry three men, a sledge, Esquimaux dogs, provisions and instruments. Preliminary observations are to be made at three different points to determine the variations in the course of the wind and after the proper wind curve has been found the balloons are to be released to be drifted toward the pole; 406 miles away, at the rate of thirty miles an hour. Commander Cheyne believes that the pole can be reached in from eighteen to twenty-four hours with one of the balloon, the other two being left part way twenty-four hours with one of the balattention of men, I think it is lightly in the balattention of men, I think it is lightly included in the least of the pole has been photographed, the successful balloon will drift beyond the pole to the shore of the color of the pole has been of the color of the pole has been plonged with the lesson do? As soon as the child grows to years of discretion the crish sees that they have been decreased and as times are larged in the child grows to years of discretion the crish sees that they have been decreased and the lesson do? As soon as a sound in the child grows to years of discretion the crish sees that they have been decreased and the successful balloon will be crished as the child grows to years of discretion the crish sees that they have been decreased. Russia, where, on landing, the trip can be continued to St. Retersburg, whence the news of the discovery of the pole as modesty. Too often, however, the drawing away ward from an electioneeing tour, and Too often, however, the drawing away of the foot is attributed to restlessness, flies er temper, and the poor animal is further punished by unmercifu blows.

When not so pierced, the acute symptoms do not show themselves for several days, often for a week. When several days, often for a week.

NOT TO RUST, NOT TO thrown off the opposite side from that on which the injury has occurred, and "certainly not. I didn't understand when the injury is at the heel the horse the situation, or I'd never have asked so foolish a question. This molasses-and water is—well, its simply—splendid.'-Harper's Magazine.
