match it. Sew both holes together thus emptying out the tick without spreading the feathers.

Women Bathers.—A physician at Long Branch writes to a New York paper thus:

Indeed women appear to have more the way I've got it down in my diary. She gave me two scalp-cuts, a black eye and six bites, and I loosened three of her teeth, cut her lip and choked her senseless. If she goes bragging round that it was a draw I'll be ready to try tt again, for I'll allow no living woman in Detroit to walk on me. I'll fight 'em till I die I'—Detroit Free Press.

endurance in sustaining the shocks of bathing in salt water than the men. The average male bather appears to be much thinner blooded and to become much more easily exhausted. A lady friend explains this by saying it is because the men drink more and are more irregular in their habits, and do not keep their systems in as good shape. It is a very good test of one's condition

HB WANTED EXERCISE.—A funeral was passing through the the streets of a Scotch town when the door of the last mourning coach was opened, and an elderly man, dressed in black entered unbidden. The other occupants star ed at the new comer and at each other.
