Write for Catalogue.

It Saves Steel,

It Saves Labor,

It Saves Money.

H. D. CRIPPEN SOLE MANUFACTURER **52 Broadway, New York**

The Colorado Iron Works Co.

THE above Company take pleasure in announcing to the mining world that they have purchased the controlling interest in

THE PNEUMATIC CYANIDE PROCESS CO.

and the patents protecting said PROCESS all over the world.

The results attained by this PROCESS during the past three years both in rapidity of treatment and the high percentage of extraction obtained, have been so remarkable that it is now recognized as the

Standard Cyanide Process of the World.

No up-to-date mine owner or manager can afford to use the old, slow and wasteful methods when he can get the use of the PNEUMATIC PROCESS at a merely nominal cost.

The record of 40 years of successful mill and smelter work made by

The Colorado Iron Works Company

is a sufficient guarantee that they would not handle or recommend anything but the BEST in any branch of metallurgy. They are now prepared to build the best cyanide plants ever erected, and, if desired, run them for 30 days before delivery to the purchasers.
