GOVERNMENT HOUSE,

OTTAWA, February 15, 1897.

Sin :- At a public meeting held in Ottawa on Wednesday, February 10th, at the instance of the National Council of Women of Canada, under the presidency of His Excellency the Governor-General, the following resolution was unanimously passed, having been moved by the Hon. Wilfrid Laurier, Premier of the Dominion, and seconded by the Hon. Clifford Sifton Minister of the Interior :-

"That this meeting heartily approves of the general character of the scheme described as the "Victorian Order of Home Helpers" as a mode of commemoration by the Dominion of the Queen's Diamona Jubilee, and that a fund be opened for the carrying out thereof.'

The need that exists in country and remote districts throughout the Dominion for the services of trained practical women as district nurses seems to be universally admitted, and there appears to be a very general consensus of opinion that ... o better national scheme could be devised for commemorating Her Majesty's Diamond Jubilco than the establishment on a permanent footing of a Victorian Order of public servants whose patriotic mission it would be to meet this want.

All candidates for this Order will have to undergo an examination and be practically tested as to their fitness for the work which they are to undertake.

The standard for this examination and the tests to be undergone will be proscribed by medical men and others who understand the need which has to be met. It is proposed that the co-operation of various hospitals and medical men in dif ferent parts of Canada be invited in carrying out this examination so that there may be convenient centres for all candidates.

Already such co-operation has been heartily promised in several centres.

The examination will especially bear on the three following points :-

- (1) A practical knowledge of midwifery, sufficient to attain a prescribed certificate.
- (2) A practical knowledge of first aid to the injured, and of simple nursing.
- (3) A general knowledge of homekeeping, simple home sanitation, with the ability of preparing suitable food for invalids.

It is proposed that no person under twenty-eight or thirty years of age should be admitted into the Order, and when admitted, an undertaking should be given to continue the work, providing health does not prevent it, for a period of at least three years. A uniform will be provided, and a badge which may take the form of the St. Andrew's Cross with the letters V. R.

Trained nurses who may desire to enter the Order will be made very welcome. They will have to pass the examination and be personally approved by the Committee.

Women who have already lived in these country districts, and who are respected and have the confidence of their neighbors, would be preferable to any others, in many instances, and it would be well to encourage parishes and townships to

choose some one whom they know and send her down to one of the centres where | Emacration, weakness, and that fatal disthe necessary training could be given. Arrangements will be made whereby candidates can be enabled to obtain the nec essary training.

Districts wanting to secure the services f a Home Helper will be required to raise a certain sum towards her maintenance, which they would undertake to give her residence, or to provide suitable board and lodging for her and means of conveyance. On application to the Central Committee, a suitable Helper will be selected for the district applying, and a grant would be given towards her expenses to meet the sum raised by the district and her salary would be paid by the Cen tral Committee.

It may be mentioned that the scheme has been most favorably received by the medical men to whom it has been men tioned, and their valuable co-operation in preparation. carrying on this work will be anxiously sought for in all districts affected by this

All arrangements should be made so that it should be considered an honor to belong to this Order, and that the members of it should be regarded as public servants.

Her Excellency the Countess of Aberdeen having thought it but right to acproject that was being planned by the and put on the wheel in times of need. National Council, has received the following telegram from Sir Arthur Biggo :-

any particular scheme for commemorating the Diamond Jubilee, though of course any project for the relief of the sufferings of the sick in Canada will be assured of Her Majesty's sincero sympathy."
(Signed) Bioor.

It is proposed therefore to open a fund for establishing such an Order of Home Helpers in Canada. Not less than a million dollars should be raised to make the scheme effective. This would mean but a

The Bank of Montreal has kindly undertaken to receive subscriptions for the Victorian Order of Home Helpers in Canada at any of its branches.

The Local Councils of Women will undertake the collection wherever they are formed, with the co-operation of others, and it is hoped that committees for the purpose will be organized in all districts, and Mrs. Edward Griffin, Fussell House, Ottawa, has kindly consented to not an secretary-treasurer.

Allow mo to express the hope that you will bring before your readers the institution of this fund as a means whereby a suitable national commemoration of Her Majesty's Diamond Jubilee may be carried on by the people of the whole Do-minion unitedly and in a manner which will both be in accordance with the known wishes of the Queen and be of permanent benefit to all parts of the country.

It will of course be observed that the carrying out of this scheme need in no way interfere with any local forms of commonoration which may be contemplated.

I remain, yours faithfully,

ISHBEL ABERDEEN.

WEAK LUNGS.

position to take cold easily, thus adding little b, little to the strain upon the already overburdened body. How many afflicted are trusting to cough mixtures mustard and poultices for safety! Fatal error. Not by these, but by adding to the nutritive power of the body and the increased strength and vitality which increased nutrition affords, can you hope to obtain relief. Maltine with Cod Liver yearly to the Central Committee during Oil and Hypophosphites combines the oxcellencies of a medicine, a food, and a digestive agency of unexampled power. The full remedial value of the cod liver oil, rendered palatable and of easy digestion, is combined with the nutritive values of wheat, oats and burley. This in itself would render Maltine at d. Cod. Liver Oil of greater value than any emulsion. But it possesses a further quality of inestimable value in its property of increas ing the solubility of fat-forming, heat-producing, starchy foods, just the elements required for the upbuilding of the emaciated. This you may easily domonstrate by a short trial of this unrivalled

A PUNCTURE - AND NOT A MAN IN SIGHT!

The e are all kinds of girls and all kinds of tires, but any kind of girl with the right kind of tire need not be distressed at discovering a puncture miles from home, even though there be neither a man nor a repair shop in sight. Dunlop tires are noted the world over for their magnificent simplicity of construction and quaint Her Majesty's Secretary with the the case with which they can be taken off

They are especially suited for ladies because the only tools needed for their successful manipulation are your hands. Fat hands, thin hands, number fives or "In reply to your telegram, the Queen number sevens, dainty or sunburnt, has refrained from expressing approval of young or old hands any pair of hands, any particular scheme for commemorating can quickly and easily do the deed. It is allso delightfully simple, the outer casing is removed from one side of the rim by a few deft touches of the fingers, and then you have the inner tube right before your eyes where no smallest imperfection can hide from you. A rubber patch and a dab of cement will do the rest in a twinkling and then the other casing is quickly slipped into position, the tire re-inflated, and you're off as good as new again.

The quickest of all quick repairs are

made in Dunlop tires, and the surest too, contribution of \$1 from every family in for in them there is no guess work, no the Dominion. making a hole larger before you mend it '

With a scrap of rubber and a bit of cement, which can be carried in even a woman's pocket without taking up noticeable space, you are ready for anything and can't possibly be "stuck" or forced to walk a few miles because of an unsuspected nail or pieco of glass which

has lurked in your way.

Then again, though punctures are always possible, their probability is reduced to a minimum with Dunleps, because these popular tires are made of the very finest material, carefully tested and will withstand an immense amount of ough usage. They are fully guaranteed and will provide you with the acme of "tire" satisfaction.
