Every railway should have its surgeon. He is a necessity as much as its lawyer, its president, or even its superintendent. Both professions of law and medicine are now a necessity for the proper management and conduct of a railway. The railway surgeon came, perhaps last, but he has come to stay, and no railway of importance can now dispense with this officer.—*Medico-Legal Journal.*

RHEUMATISM IN THE KNEES.

Sirs,—About two years ago I took rheumatism in the knees, which became so bad that I could hardly go up or down stairs without help. All medicines failed until I was induced to try B. B. B. By the time I had taken the second bottle I was greatly relieved, and the third bottle completely removed the pain and stiffness.

A Bright Lad,

Ten years of age, but who declines to give his name to the public, makes this authorized, confidential statement to us:

"When I was one year old, my mamma died of consumption. The doctor said that I, too, would soon die, and all our neighbors thought that even if I did not die, I would never be able to walk, because I was so weak and puny. A gathering formed and broke under my arm. I hurt my finger and it gathered and threw out pieces of bone. If I hurt myself so as to break the skin, it was sure to become a running sore. I had to take lots of medicine, but nothing has done me so much good as Ayer's Sarsaparilla. It has made me well and strong."—T. D. M., Norcatur, Kans.
