

Sagacity

ALL WORKS OF EXCELLENCE must bear a price in proportion to the skill, taste, time, expense and risk attending their invention and manufacture. Those things called dear are, when justly estimated, the cheapest. They are attended with less profit to the manufacturer than those which everybody calls cheap. Beautiful forms and compositions are not made by chance, nor at small expense. SOUVENIRS are the most modern, complete, and economical Ranges made. They are the product of one of the oldest and greatest concerns in Canada. Their great advantages over ordinary stoves make them the cheapest, best and most desirable stoves in the world. Aerated Ovens make the difference. They are sold everywhere, and will last a lifetime.
