We again respectfully draw attention to our stock of suitable books for the Libraries of our Sunday Schools.

The assortment is not duplicated in any store in Canada, and we are pleased to state that our prices are as good as, and in most cases better than, can be had elsewhere. Every convenience for examining our stock is utilized. A visit to our

Library Department is solicited, that opportunity may be had to examine stock and prices. Our New Catalogue of 3,000 titles will be mailed to those who do not find it convenient to visit our warerooms.

Having had long experience in the library business, and, therefore, being conversant with the books suitable to the different grades of the school, we feel satisfied that it will be to your interest to examine our lists before purchasing. Our policy in regard to Libraries is liberal, and such that any school can arrange to have a fresh selection of books sent on approval. If the amount required is stated, we will send on for examination an extra quantity, we paying freight on the return shipment. We solicit a reply, in the way of an order, feeling confident that we can best serve your wants.
