

Notes of the Month.

A public monument has been voted by the British House of Commons to the late earl of Beaconsfield. Mr. Gladstone moved a resolution to that effect.

Parliament is still engaged with the Land Bill for Ireland which meets with much opposition. The state of Ireland is not improving. Evictions are taking place daily. The object of the landlords in driving out so many of their tenants at the present time is to have as much of their land as possible in their own hands when the bill becomes law, in order that they may not be harrassed with claims for improvement as provided for in the bill now before Parliament.

On the Queen's birthday a lamentable accident occurred at London, Ont., by which 250 lives were lost. An excursion boat on the Thames river upset through overcrowding, and her living cargo of six or eight hundred passengers were immersed in the steamer with the above sad result.
