

3. To erect, into a School Municipality, the *Township of Mailloux*, in the County of Bellechasse, with the same limits as have been assigned to it for civil purposes;

4. To erect, into a School Municipality, to be known by the name of *Mille Vaches*, in the County of Signenay, the tract of land comprising the Seigniory of Mille Vaches and the Township of d'Herville, bounded on the North-East by the Rivière Portneuf; on the South-West, by the Township des Escoumains; on the South by the River St. Lawrence, and on the North by the Government wild lands;

5. To annex, to the School Municipality of *Ste Jeanne de Neuville*, in the County of Portneuf, that part of the Municipality of *Ste. Catherine de Fossambault*, in the same county, designated as number 1, at present annexed, for religious purposes, to the Parish of *Ste. Jeanne de Neuville*, comprising the 1, 2, and 3 Ranges from lot No. 1 as far as lot No. 52, in each Range, inclusive;

6. To annex to the School Municipality of *St. François d'Assises*, in the County of Beauce, the tract of land, known by the name of *Concession Ste. Catherine* North-West, in the same County, from lot No. 21 inclusive to the 1 Range of St. Victor de Tring, and the Concession *Ste. Catherine* South-East, from lot No 5 inclusive to the 1 Range of St. Victor de Tring, said tract being about 20 arpents frontage by about 36 deep.

REPORT OF THE MINISTER OF PUBLIC INSTRUCTION, RELATIVE TO APPLIED SCIENCE AND ART CLASSES IN LAVAL UNIVERSITY, QUEBEC.

The undersigned has the honor to state,

That in virtue of different Orders in Council, there is at present (as per statement A) standing to his credit in the Banque Nationale, the sum of seven thousand and eight dollars and eighty-two cents \$7,008.82, to be employed as a subsidy to applied Science and Art Schools in Quebec and Montreal for Catholics, said sum accruing, first, from the grant made for that object out of the annual Grant for Superior Education to Catholic Institutions of the Province, and secondly, from the amounts directed by Orders in Council to be set aside for the aforesaid purpose the latter being considered as an equivalent for the Government free Scholarships in the Montreal and Quebec High (Protestant) Schools;

That in his last Report, as Minister of Public Instruction, he was then in communication with the University authorities of Laval relative to the establishment of a school of Applied Science and Art in Quebec, and that now, after having conferred with the Rector of the University, he is happy to be able to state that this Institution has consented to take charge of such school on the following conditions:—

1. Students (on payment annually of \$30 each) will be admitted to a special course of Science as applied to the Arts and to Industry, which will constitute, for the present, the applied Science and Art School for Quebec;

2. All the expenses of the course and salaries of the Professors will be borne by the University, who will give the use of their laboratory and apparatus, and furnish all materials necessary;

3. The University will give Diplomas or Certificates of proficiency, to those Students who shall have followed this special course, after having undergone an examination in conformity with the programme of studies laid down by the Council of the University;

4. The length of the course for the present shall be three years, and the programme of studies for each year as per Schedule B, annexed;

5. In consideration of the several supplementary courses that the University will be obliged to give, in order to complete this special course, the Government will pay an annual subsidy of twelve hundred (\$1200) dollars to the University, in lieu of salaries to the Professors, besides a further sum of fifty (\$50) dollars towards defraying the expense of additional apparatus. The first instalment of this annual subsidy, —to be taken from the share of the Grant for Superior Education, apportioned to Catholic Institutions— shall be paid on or before the second day of May one thousand eight hundred and seventy-two, and so continued from year to year, until otherwise provided by the Legislature;

6. The Government shall pay the University a sum of two thousand (\$2,000) dollars, towards founding two Scholarships, which will give to the Students (of said special course) who may obtain them the right to a reduction of sixty (\$60) dollars on the hundred and twenty \$120, per annum, charged by the Boarding house attached to the establishment. These Scholarships will be assigned on the result of an examination, the conditions of which shall be laid down by the Council of the University, and no candidate will be admitted to said examination unless he shall have proved, by certificate or otherwise, to the satisfaction of the committee of examination which shall be composed of two members named by the Council of the University and one named by the Minister of Public Instruction,—his inability to defray the full cost of Board;

7. The sum of fifteen hundred and four dollars and forty-one cents (\$1504.41), the balance of the half of the sum now on hand, shall be paid to the University towards purchasing the proper apparatus for practical experiments, and defraying other incidental and necessary ex-

penses;—a statement of the disposition of this sum to be furnished to the Minister of Public Instruction by the University;

8. A report of the number of students who have followed this Special Course, as well as any other information required, shall be furnished annually to the Minister of Public Instruction, by the University.

The undersigned has the honor to recommend that the foregoing conditions be accepted and sanctioned, and that he be authorized to pay the above mentioned sums now in hand.

P. J. O. CHAUVEAU,
Minister of Public Instruction.

(Approved by His Excellency the Lieutenant-Governor
in Council, September 5, 1871.)

THE JOURNAL OF EDUCATION.

QUEBEC. (PROVINCE OF QUEBEC,) OCTOBER, 1871.

Applied Science and Art Schools.

Amongst the Official News, will be found a report of the Minister of Public Instruction, approved by the Lieutenant-Governor in Council, relative to the establishment of a School of Science as applied to the Arts and to Industry, in connection with Laval University, Quebec.

It is to be hoped some Catholic Institution, in Montreal, will enter into an arrangement with the Government, similar to that just concluded with the Laval University. It is needless, at this hour, to dilate on the importance of Technical instruction, the question being conceded by all the leading Educationists of
