

and shunned the example of a wicked woman, either named Jezebel, or resembling that vile person in character. How that denunciation was accomplished may be inferred from the fact that the very site of Thyatira was unknown until about 130 years ago, when its name was discovered by an inscription on some ruins. The approach to modern Thyatira from the west passes through a low and marshy country occupied only by wild fowl. For some miles the road is paved with stones rounded by the rivers, but occasionally lined at the edges with marble cornices and beautifully cut stones; and in the burial-ground at the entrance of the town are numerous pieces of granite columns stuck in the ground as Turkish gravestones. The appearance of the city itself is that of a very long line of cypresses, poplars, and other trees, among which appear the minarets of several mosques, and the roofs of a few houses. It abounds with relics of a former splendid city, although there is not a trace of the actual site of any ruin or early building; the streets are in places paved with fragments of carved stone, capitals of columns may every where be seen converted into troughs, and for two miles out of the town the mouths of the wells are formed of the capitals of extremely fine Corinthian pillars, the bucket being drawn through holes cut in the centre. These remains evidently belonged to a variety of buildings, and some appear to have formed a part of the interior ornament of the Church. Thyatira is a large place, and abounds with shops of every description. It contains about three hundred Greek houses, thirty Armenian, and one thousand Turkish; nine mosques, one Armenian church and one Greek. The latter is a wretchedly poor place; and so much under the level of the churchyard, as to require five steps to descend into it. The site of the ancient church is unknown; but the Turks speak of several great buildings of stone, under ground, which are occasionally met with when excavations are made. The city is well supplied with water, which flows from a neighbouring hill through every street. The inhabitants are principally supported by manufacturing cotton wool, which is sent to Smyrna. This flourishing trade, the abundance of excellent water, the salubrity of the air, and the rich and delightful country, make the city a much more agreeable residence than any of her desolate and comfortless sisters.

Office—25, Albert Buildings King-street East, Toronto.

The distinguished success which has attended the establishment of the Church of England Assurance Institution in the United Kingdom, India, &c., has induced the Directors to open a Branch Office of the Company in Canada, with a view of extending the peculiar advantages of this Institution to the inhabitants of that Colony. They feel satisfied that such advantages will be duly appreciated by the Public, and that the same distinguished success will attend the Company's establishments in Canada, and the same powerful support be given to it by the Clergy and Laity residing in the Colony, as have already marked its progress in India and in Europe. In order to insure such success, and to merit such support, the Directors have, for a long time past, been engaged in repeated deliberations and consultations with men well conversant with, and experienced in, the principles and practice of Life Assurance, with a view to the formation of Branch Establishments in the British Colonies, which will best ensure the three main objects of Policy-holders, viz., SECURITY, ECONOMY, and CONVENIENCE. And they trust that the result of their deliberations has been such as to present to British subjects, resident in these Colonies, as perfect a system of Assurance, in all these respects, as is practicable, or can be desired. The SECURITY of Policy-holders in Canada is made complete by the large subscribed capital of the Company, guaranteed by a numerous and influential body of Proprietors; whilst for their immediate benefit and protection, AN ADEQUATE FUND WILL BE INVESTED IN CANADIAN SECURITIES, so as always to be immediately available to provide for whatever casualties may arise. The ECONOMY of Policy-holders has been consulted by the adoption of Tables, deduced from the most complete and extensive observations of the rate of mortality among Assured Lives. They have been constructed expressly for the use of the Church of England Assurance Company; and are framed on the lowest possible scale consistent with the security of the Assured. By the constitution of the Company, one clear tenth of the entire profits of the Institution is applied to the formation of a fund, called "THE CLERGY FUND," for the Relief of Distressed and Deserving Clergymen, and the Widow and Orphans of Clergymen, and also for granting aid to enable Clergymen with limited Incomes to provide for their Families by Assuring their Lives at Reduced Premiums. Premiums on Assurances by Table II, may be paid either yearly, half-yearly, or quarterly, as may best suit the convenience of the Assured. Death by suicide, duelling, or the hands of justice, will not render the Assurance null and void, if the Policy be duly assigned to another party for a bona-fide consideration. Claims will be paid within three months after proof of death. Policies forfeited by non-payment of Premium, may be revived within twelve months, upon proof of the same state of health, and the payment of the Premium in arrear, with interest thereon. The Assured, not being engaged in any Military, Maritime, or Naval Service, will be permitted, without extra Premium, to proceed from one part of British North America to another. Also, to proceed to or from any part of the United States not further south than the latitude of the city of Washington, or further West than the River Mississippi: they will also be permitted, in time of peace, to proceed in first-class steamers to or from any port in Great Britain or Ireland. Parties engaged in or entering into the Military, Maritime, or Naval Service, or parties proceeding beyond the limits above mentioned, will be charged such additional rate (to be ascertained by application to the Agent), as the circumstances of the case may require. Upon payment of the Premium, in cases where the Assurance has been accepted definitely, a Certificate will issue at once, to be held by the Assured until it can be exchanged for a Stamped Policy, under the Hands and Seals of three of the London Directors. In cases where the Assurances shall be entertained, only pending the decision of the London Board, a memorandum of conditional acceptance will be issued, until the receipt out of the Company's office, conveying the Stamped Policy, or the rejection of the Assurance,—the Company holding the life assured in the interim.

VAYER'S CHERRY PECTORAL For the Cure of COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA and CONSUMPTION. This truly valuable Remedy for all diseases of the Lungs and Throat, has become the chief reliance of the afflicted as it is the most certain cure known for the above complaints. While it is a powerful remedial agent in the most desperate and almost hopeless cases of Consumption, it is also, in diminished doses, one of the mildest and most agreeable family medicines for common coughs and colds. Read below the opinion of men who are known to the world, and who would respect their opinions. FROM PROFESSOR HITCHCOCK. "James C. Ayer—Sir: I have used your 'CHERRY PECTORAL' in my own case of deep-seated Bronchitis, and am satisfied from its chemical constitution that it is an admirable compound for the relief of laryngeal and bronchial difficulties.—If my opinion as to its superior character can be of any service you are at liberty to use it as you think proper. EDWARD HITCHCOCK, LL.D., President of Amherst College. (From the London Lancet.)

"AYER'S CHERRY PECTORAL is one of the most valuable preparations that has fallen under our notice. After a careful examination, we do not hesitate to say we have a large appreciation of its merits and the fullest confidence in its usefulness for cough and lung complaints."

DIRECT EVIDENCE. Dr. J. C. Ayer, Lowell—Dear Sir:—Feeling under obligations to you for the restoration of my health, I send you a report of my case, which you are at liberty to publish for the benefit of others. Last autumn I took a bad cold, accompanied by a severe cough, and made us of many medicines without obtaining relief. I was obliged to give up business, frequently raised blood, and could get no sleep at night. A friend gave me a bottle of your CHERRY PECTORAL, the use of which I immediately commenced according to directions. I have just purchased the fifth bottle, am nearly recovered. I now sleep well, my cough has ceased, and all by the use of your valuable medicine. E. S. STONE, A. M., Principal Mt. Hope Seminary. From Dr. Bryant, Druggist and Postmaster, Chicopee Falls, Mass.—Dr. J. C. Ayer—Dear Sir:—Enclosed please find remittance for all the CHERRY PECTORAL last sent me. I can unhesitatingly say, that no medicine we sell gives such satisfaction as your's does; nor have I ever seen a medicine which cured so many cases of Cough and Lung complaints. Our Physicians are using it extensively in their practice, and with the happiest effects. Truly yours, D. M. BRYANT. PREPARED BY J. C. AYER, CHEMIST, LOWELL, MASS. Sold by Lyman & Kneeshaw, Toronto; Hamilton and Kneeshaw, Hamilton; Wm. Lyman & Co., Montreal, Agents for the Canadas. July 23rd, 1851. 52-3m
