POULTRY SUGGESTIONS.

It is well, in cleaning out the poult ryhouses not only to take the droppings from under the roosts, but to rake up whatever feathers, etc., have accumulated on the ground. Turn up clean, fresh earth with the fork, and scatter over chaff and hay seed. The pleasure the fowls will take in scratching for seed, and in rolling in the fresh earth, will be ample satisfaction for the labor spent. The best way to kill and dress fowls is to hang them by the legs, pass a sharp-pointed knife, with edge from you, through the throat, just below the "deaf ear," cutting off the arteries running to the head; then turn the knife teward the neck-bone, and while turning back the head with the left hand, press the knife until the neck is broken. Take the wings in the left hand, and strip off the feathers with the right. They will pull off quite easily while the body is warm. If care is taken, the skin need not be broken. Never soald chickens in dressing, for, unless great care is used, the thin outside skin will be rubbed off, which injures their appearance very much, and reduces the value

In selecting seeds for spring planting, do not neglect to get seed of the mangel best, for these beets make the very best green food for towls in winter. If the water in the dishes is thrown out each night, trouble and time will be saved in the morning. Give warm water to fowls if possible.—H. C. B. in American Agriculturist for March.

The most reliable preparation yet introduced to the public, for the immediate reliei and cure of Coughs, Colds, Bronchitis, Hoarseness, Whooping Cough, Croup, Asthma, and all diseases of the Throat and Lungs, is SPRUCINE. In obstinate Coughs, Pulmonary Consumption, &c., &c., where Cod Liver Oil is recommended, a dose of SPRU-CINE taken with a dose of the former will make an agreeable and convenient vehicle for the adminstration of the Oil, and largely promote its efficiency. EMIGRATION TO CANADA.

London, March 20 .- At a meeting of the Charity Organization Society to promote emigration, a letter from Sir A. T. Galt, High Commissioner for Canada, was read stating that the Canadian Government would not sanction the emigration to Canada of habitual paupers. She was willing to absorb destitute boys and girls, in reasonable numbers, and provide a periodical inspection of them and a record of their disposal.

Jacob H. Bloomer, of Virgil, N. Y., writes "Dr. Thomas' Eclectric Oil cured a badly swelled neck and sore throat on my son in forty-eight hours; one application also removed the pain from a sore toe; my wife's foot was also much infismed—so much so that she could not walk about the house; she applied the Oll, and in twenty-four hours was ontirely cured.

A MILK FAMINE.

New York, March 20 .- There is a great scarcity of milk here in consequence of the action of the Orange County producers. The General Freight Superintendent of the Erie Railroad sent a despatch to the President of the Milk Producers' Association denouncing the work of the "spilling committee" and notifying him that parties spilling milk at any station on the road will be punished to the full extent of the law. A prominent dealer says the work of the "spilling committee" is nothing but larceny. He asserts that a number of farmers who desire to send milk to dealers have called on the sheriff to protect their property, but the sheriff sympathizes with the Association.

PORT JERVIS, N.Y., March 20.—The milk war is unabated. At Otisville, Howelts, Middletown, Hampton, Goshen, Chester, Oxford, Monroe and Turners, shipments to-day were practically stopped. Crowds of farmers and citizens surrounded the stations. The first few who came with milk had it spilled; the remainder took it home. The supply on the branches is also greatly reduced.

DIXIE'S HALLUCINATION.

A FABRICATION PURE AND SIMPLE-A BEWILDER-ED LADY-HER LETTER TO ME, PARKELL,

NEW YORK, March 21 .- The World's London special says: "Those likely to be the best informed regard the statement of Lady Dixle as to the attack upon her a pure fabrication, as not a trace of a struggle can be found on the damp mould. Two large men dressed in women's clothes could not possibly have reached her house without being seen, as a soldier, publican and gardener were all within a few yards of the scene of the alleged struggle at the time. It is alleged that they neither saw nor heard anything of it. Lady Florence herself is now bewildered about it. She has the reputation of being half mad. It is now known she wrote to Mr. Parnell on his release, avowing herself a strong Nationalist, and urging him to act with her.

Mr. W. A. Wing, Westport, writes: "1 wish to inform you of the wonderful results which followed the use of Northrop & Lyman's Emulsion of God Liver Oil and Hopo-phosphites of Lime and Sods. A cough of six months standing had reduced me to such an extent that I was unable to work. I tried many remedies without effect; at last I used this Emulsion, and before three pottles were used I am glad to say I was restored to perMedical.
