

# Headache

Horsford's Acid Phosphate

This preparation by its action in promoting digestion, and as a nerve food, tends to prevent and alleviate the headache arising from a disordered stomach, or that of a nervous origin.

Dr. F. A. Roberts, Waterville, Me., says: "Have found it of great benefit in nervous headache, nervous dyspepsia and neuralgia; and think it is giving great satisfaction when it is thoroughly tried."

Descriptive pamphlet free on application to  
Horsford Chemical Works, Providence, R. I.

Beware of Substitutes and Imitations.

## THE BROWNIES.

To those just entering manhood's estate Palmer Cox's Brownies have been a memory ever since their earliest teens. When the pages of St. Nicholas were first adorned by pictures of these fantastic creatures, and the initial account of what has since proven to be a long series of extraordinary and enthralling adventures given in rhythmic blank verse, the subtle influence of these brain inspired personalities was at once felt by every reader. And now, after having for more than a decade matched on paper with increasing interest the innumerable vicissitudes of their careers, we are to see them, on the stage of the Grand next week, by some peculiar metamorphosis, living over once again some of their most striking experiences. The magnificent spectacle will be one of the most notable attractions of the present theatrical season in Toronto. The large organization of over a 100 people seen in the long run in New York, together with the 12 elaborate sets of scenery, the costumes, properties, electrical and mechanical devices complete, will be brought by special train to this city, and "The Brownies" will be witnessed here exactly as it was produced in the metropolis for 150 nights. All the novel features, including the remarkable ballet, the flight of the flying fairies, the dance of the Oriental slave girls, the marvelous troupe of demon acrobats, and German band will be seen in their entirety. Toronto and Montreal are the only cities in Canada played by this splendid attraction.

Mr. David A. Wells continues his account of "Taxation in Literature and History" in Appleton's Popular Science Monthly for March, giving methods employed for raising revenue in Ancient Greece and Rome. Under the title "The Failure of Scientific Materialism" this doctrine is sharply attacked by Prof. Wilhelm Ostwald, of Leipzig, who affirms that it should be replaced by a theory based on energy. Herbert Spencer contributes to this number a chapter on the "Painter" in his series on Professional Institutions. Prof. E. W. Hilgard shows that the salts in our alkali lands consist largely of plant food, and tells what means may be used to neutralize the harmful constituents. "Exercise as a Remedy" is discussed by Henry Ling Taylor, M.D.,

who shows how potent a curative agent exercise may be when carefully prescribed and how injurious it may be in some cases. Prof. William R. Newbold writes on "Normal and Heightened Suggestibility," giving some of his experience with hypnotic patients. James Rodway describes in a bright, chatty manner "The Coming of the Rains in Guiana." A scientific examination of the problems of "Acclimatization" and their bearing on the future of tropical regions is contributed by Prof. William Z. Ripley.

## NEW WORK

—BY—

Sir J. Wm. Dawson, LL.D.

## Eden Lost and Won.

Studies of the Early History and Final Destiny of Man, as taught in Nature and Revelation. By Sir J. Wm. Dawson, LL.D., F.R.S.C., etc., author of "The Meeting Place of Geology and History," "Modern Ideas of Evolution," etc. 12mo, cloth, \$1.50.

In this work President Dawson points out that the latest developments of archeology, geology and other branches of the Science of the Earth and Man show conclusively the substantial accuracy of the early books of the Hebrew Scriptures. The work is in two sections. Part I considers the physical and historical probabilities respecting the authorship and authority of the Mosiac books. Part II, treats of man and nature fallen and restored.

Fleming H. Revell Company.
