

A Good Citizen.

This Journal, in conjunction with the City Improvement League of Montreal, is preparing a series of special articles by local authorities, all bearing on the government and social activities of the commercial metropolis. These articles will be published in the columns of the journal and in our French Journal, "Le Quebec Municipal." The articles, together with a number of diagrams and illustrations, will also be published in book form (English or French) and distributed to the citizens of Montreal and district through the

agency of the industrial and public bodies. This is the first time that such an attempt has been made to bring home to the citizens of a large community their opportunities and responsibilities, and if we take the encouragement we have received from the railways, banks and business men as an indication of the real spirit of Montreal the propaganda will be a splendid success.

Any of our readers desiring to secure copies of the booklet can obtain same by sending in fifteen cents for each copy, which is actually the cost price.
