

# Incredibly Swiss.

# Truly Canadian.

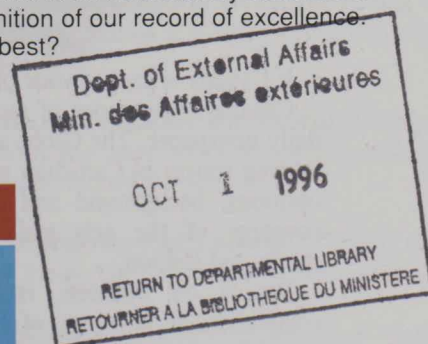

There's no mistaking Credit Suisse's solid Swiss background. We've been in the banking business since 1856, providing our clients with the reliable, committed service that is the hallmark of Switzerland's banking heritage. But our activities and expertise extend beyond Switzerland. Credit Suisse Canada has had a strong presence in the Canadian financial markets for almost 40 years. We provide our Canadian corporate,

government and private clients with the most suitable and sophisticated products. They benefit from our experience in corporate lending, syndicated loans, foreign exchange and private banking, as well as global investment banking through CS First Boston, Inc. We are one of very few banks to be consistently awarded a triple A rating in recognition of our record of excellence. Why settle for second best?

We do more to keep you  at the top.
