

***Most trips abroad  
go off without a hitch.  
Unfortunately, accidents or  
illnesses sometimes do occur.***

***They can turn your stay abroad into a nightmare.  
So don't forget one key ingredient  
to your success: your travel insurance.***

**8** Should you decide to extend a business trip to take a holiday, you may need additional coverage besides your employer's policy.

**9** Many people take advantage of being abroad to try new things. If you plan to participate in any hazardous activity — scuba diving, parachuting, rock climbing, hiking, alpine skiing, etc. — check the limitations of your insurance coverage first.

**10** Do not assume that your Canadian automobile insurance or the coverage purchased with your rental vehicle will provide adequate protection in the event of an accident or theft. Much of the coverage we take for granted in Canada is not

available abroad. Make sure you know what coverage is in place before you drive.

***Insurers can take the worry  
out of working abroad.  
Their protection will go a long  
way in ensuring a safe and  
pleasant foreign work experience.***
