

*Proceedings on Adjournment Motion*

So that it was very easy for me to decide to go to the Ontario Agricultural College and to follow in the footsteps of my learned and distinguished colleague from Kootenay West.

The hon. member asked a very important question, important not only to him and me but also to the farmers and other residents across this land. I may say that the short answer to his question is that I do not know whether this matter is going to be referred to the federal-provincial conference or not.

I am able to tell him, however, that this matter of expropriation is of very deep con-

cern to the government of Canada, as well as to hon. members of this house. The government and the Minister of Agriculture know of the great concern that the Canadian Federation of Agriculture has in this matter.

I am also permitted to say that this subject is being given careful consideration in the hope that a reasonable approach and a logical conclusion may be brought about.

It being 10.30 p.m. the house adjourned, without question put, pursuant to standing order.
