

April 6, 1932.

Dr. Thomas Orton,  
18 Essex Street,  
Guelph, Ontario.

My dear Dr. Orton,

This morning I received a letter from President Fox of Western University telling me how well the function in honour of Doctor Waugh passed off. It was a disappointment to me that at the last minute Professor Campbell Howard, whom you probably knew very well and whose father you must have known, found it impossible to represent McGill. It was Doctor Birkett who suggested that I wire to you, and I am grateful to you for the trouble you took to find a substitute. Please accept my personal thanks and those of the Medical Faculty.

With all kind personal wishes,

I am,

Ever yours faithfully,

Principal.
