

DO YOU CARE WHO WINS?

Are you aware of any danger about you ? Do you pay daily into the coffers of the rich, money that could be used to provide clothing for the naked, bread for the hungry and medicine for the sick? Have you considered that when you subscribe to an evil thing, without resentment, you are doing the greatest harm a man can do to his country, state, city or town.

Readers, the Quebec & Levis Ferry Co, have heard for years past the cries of the innocent, the pleadings of the just and the sayings of the honest, and instead of loosening the yoke have sought to lay upon the workingman a crown of thorns, by charging, him such fares as no city or town should tolerate.

Should you allow this oppression to continue? No! to stop it all you have to do is to organize and work, and when you vote, whether it be for minister or councillor, see that the man who gets your support is willing to help to get a *cheap, obliging and good ferry*.

If you desire to have any more of these circulars for your friends, write to the address below, enclosing a collection to help the cause along, with firmness we will succeed, we don't ask much, only that they give justice and render to the people what truly belongs to the people.

All those that are in favor of this movement will please communicate, giving their reasons.

GUY H. SIMPSON,

Box 48, Levis, P. Q.
