Germans and Austrians Suffer Severe Reverses in Central Poland.

ADVANCES HELD UP

Muscovite Flank Attacks

Make Headway East of Krasnik.

Special Cable to The Toronto World.

LONDON, July 7.—The Russians are holding the Austro-German armies between the Vistula and the Viegri rivers, breaking down their offensive at critical points, while their flank attacks in the region of Krasnik have not only compelled the enemy to remain on the defensive, but resulted in some progress for the Muscovite.

The German offensive on the roads from Lublin towards Kamionka and Gliniany was also defeated with great losses.

This is the latest news of the great battle for the possession of south Poland, in which millions of men are engaged.

Petrograd reports the continuance of stubborn fighting on the road to Lublin, with the failure of attempts of the enemy to capture the heights on the right bank of the Podlissie River.

The enemy was also compelled to complete disorder in his attack against the Skochitz-Dvornik sector.

The dispositions of the Austro-Germans now form a salient on the roads leading from Krasnik and the Bystrzyca and Kossajevka rivers.

Here the Russians continued today to press their offensive on the flank of the enemy and added 2000 prisoners and several machine guns to their collection.

An attempted attack on Masloventice Village, in the Kossajevka sector near the western Bug river, was easily stopped by the Russian fire.

The offensive of the enemy on the road from Lemberg was so severely checked that he was compelled to suspend his movements.

SPRIT OF DOMINIONS

EULOGIZED BY BALFOUR

British Empire Has Shown Wonderful Solidarity Under German Attacks.

Canadian Associated Press Cable.

LONDON, July 8.—Arthur Balfour, unveiling today his memorial to Joseph Chamberlain at Guildhall, said the common feeling of the empire and among all our free self-governing dominions, was absolutely novel in history. It had no parallel. It was a creation scarcely dreamed of by our grandfathers, and yet was now in actual operation before our eyes.

When they welcome the contingents of gallant men from Canada, Australia, New Zealand and the Cape, they could not forget the spirit which had produced this marvelous result. That the British Empire stood for peace had been admitted, sometimes with admiration, sometimes with scorn, but that the British Empire when attacked might stand for war, was a feature which they saw now before their eyes.

SAYVILLE WIRELESS

TAKEN OVER BY U.S.A.

Sending of Unneutral Messages Compels Navy Department to Step In.

WASHINGTON, July 8.—In explaining the government's action in taking over the Sayville wireless station, Secretary of the Navy Daniels issued this statement:

"It is understood that the Sayville radio station had made application to the secretary of commerce for a license. The secretary of commerce declined to grant the license and so informed the secretary of the navy, who after conference, directed Capt. Bullard, as the expert of the department, to take over and operate the station. Practically the same rules and regulations as are now applicable to Tuckerton will be put in operation at Sayville.

"There will be no change so far as the public is concerned. The only difference will be that naval operations instead of commercial employees will man the keys. The charges collected by the navy will be paid to the owning company."

Today's action was deemed necessary because of alleged violations of neutrality by the company's operators. It has been charged that when the navy censors had left the wireless room for a minute or two, unneutral messages had been sent.

Capt. Bullard reported to Secretary Daniels that he had completed his arrangements and had taken over the plant today.

EUROPEAN WAR

ABOUT TO BEGIN

May Month Marks the Actual Beginning of European War, According to High Authority.

"I don't know when the war will end," replied Kitchener, "but I know that it will begin in May."

David Lloyd George, chancellor of English exchequer, admitting in reply to the questioning before parliament that the British have three quarters of a million seasoned fighters now in France, the import of Kitchener's reply was emphatic.

England has landed without a single mishap on the continent the greatest expeditionary force and equipment in all her history, in spite of the submarine menace in the North Sea and even in the Irish Sea.

Imagine, if you will, more than 750,000 veterans under the Union Jack alone, ready at the word "go" to really open the war upon Germany. Given a flag to every company, more than two thousand of Union Jacks now float proudly over the battle camps in northern France alone.

By the same token, more than a million Union Jacks should now be floating over the homes of the patriots of Canada.

Loud praise from every side is enjoyed by The World for its meritorious achievements in providing flags for every home as set forth in the announcement appearing on another page of this issue, whereby loyal citizens can secure one or more complete flag outfits all ready for hanging from the housefront at practically no cost worth mentioning.

Canadian patriots should lose no time in availing themselves of this opportunity and advantageous offer.
