Oats 1-8c to 1-4c off to shade up, and hog products vary-mg from 2, 1-2 decline to a mickel dvance. today in the last hear. The close to day in the base hear at the highest point of the session 3.8c to 1-2c to 5-8c over last night. Corn finished a sixteenth to 1-8c to 1-4c down. Oats 1-8c to 1-4c off to a shade up, and hog products varying from 2, 1-2 decline to a mickel advance. Supprisingly good support was in evidence in the wheat trade, considering that there is a break in coarse grain. Three times during the day which had been previously sold out, forced an upturn in the market after successive declines. The bulls were twitch had been previously sold out, forced an upturn in the market after successive declines. The bulls were tasgues from Argentina as to labor troubles. Canadian news, too, was pessimistic about the quality of supplies. Carn Heavy

plies. Corn Heavy. Most of the time corn had a heavy tone, tho lirmness was evinced as the day neared the close. The rally in wheat, and reported liberal cash sales led to the late upturn. Continu-ance of favorable weather was res-ponsible for the previous lack of strength. May fluctuated between 67 1-2c to 5-8c and 68 1-8c to 1-4c, with hast sales 1-8c to 1-4c off, at 68 1-8c. Cash grain was weaker. Oats suffered a sharp setback early, in sympathy with corn and on ac-count of free profit taking, but shorts covering afterward made a strong finish:

OTTAWA. Feb. 6.--(Can. Press.) ---The Canadian Lumbermen's Associa-tion this afternoon discussed tariffs on certain lumber imported from the United States, but behind closed doors. It was decided to memorialize the federal government to place all lumber which is further manufactured than rough sawn on the duriable list and to ugh sawn on the dutiable list and to instruct all customs officials to exercise increased vigilance in the inspecting of lumber imported into Canada to see that the law is fully complied with.
