FIREMEN'S BENEFIT **FUND IS ADJUSTED**

Board of Control Sends Recommendations to Council Which Look Promising.

CITY ASSUMES SHARE

Firemen Will Increase Contributions to Seven-and-a-

force to increase their contributions to seven per cent, of their annual sal-

aries.
4. A regulation requiring all new men on joining the force to become members of the fund and pay nine and one-half per cent of their salaries to the fund

5. The city to assume control of the fund by a majority on the benefit fund committee, which would consist of the city treasurer, the city solicitor, a member of the board of control, the fire chief and a representative elected by the firemen. 6 A revision of the benefits. No

officer of the fund could, on retiring, draw more than \$1500 a year pension. Board is Unanimous. The members of the board of control were unanimous in their decision, and the members of the fire department expressed themselves as entirely sat-isfied with the arrangement. "I am glad the city is going to take over the fund. It has caused more friction in

the department than any other one thing," said Chief Smith. me revision of the amount to be paid by the city will be necessary, as the investigation of the city treasurer was made in 1916. The amount of the deficit has increased slightly since then, but Mr. Bradshaw promises to have the figures revised before the next meeting of the city council. Under the present estimate the city's annual contribution during the next 31 years will be increased from \$8750 to \$19,-543, in addition to the salary centage, which would amount to \$9025

A long discussion preceded the adoption of the finance commissioner's report. Mr. Bradshaw opened it with resume of the attempts to reform "The city is not legally responsible to the men for anything," he stated in conclusion. They organized the fund thomselves many years ago without consulting the city."

are legally responsible or not we must keep the fund going, especially in war-Forced Into Fund-

Controller Maguire: "In 1902 Mayor Clarke told the firemen that they must either come into the fund or stay out of the department. That makes us orally if not legally responsible. Mayor Church: "If we disbanded the fund we might be liable for damages from the men.".

W. D. Slaght, secretary of the present committee, stated that about forty members of the fire department were not members of the fund. They had been taken on during the regime of the late Chief Graham, but had not been taken into the fund because the were over the age limit of 26. At present, however, no one was being placed on the permanent force who was over the age limit for the benefit fund.

Controller McBnide suggested that no man be attached to the force unless he would agree to pay nine and onehalf per cent of his salary to the benefit fund. "Could you get enough men to fill your needs with that provision attached?" he asked the chief. "I could get all the men I wanted despite that provision," answered Ohief Smith.

Capt. Fox stated that the majority of the men were in favor of paying the extra two and one-half per cent providing the city assumed a portion of the expenses.

SERGEANTS' MESS MEETS Queen's Own Rifles of Canada Non-coms Elect Officers.

There was an unusually large attendance at the annual meeting of the Sergeants' Mess, Queen's Own Rifles of Canada, held last evening in their mess rooms, 48 University avenue. The 1917 financial statement met with the approval of all present. Officers for the ensuing year were elected as follows: President, Q.M.-J. Graham; vice-president, Q.M.-Sergt. A. H. Brooker; trear, Sergt. R. J. B. Taylor; secre-Sergt. W. S. Montgomery; execommittee: Sergts. Martin, Kent, Jackson, Harrison and Elliott; Sergts. McLelland and Francis

RETURNED MEN MAY ENLARGE EARNINGS

Administrator of Vocational Training Tells About Work Among Soldiers.

W. E. Segsworth, administrator of vocational training for returned soldiers, military hospitals commission, Ottawa, in addressing the members of the Canadian Credit Men's Association at the board of trade clubrooms last Toronto officials of the C.N.R. and night, told of the system now in operation which enables the war veterans instances earn more than before they

enlisted. An important point brought out was right in the factories of the country, with very successful results. this was done, however, an industrial

survey was made.

8 How Work Has Increased. When the work of the hospitals commission started in 1916 it operated 13 hospitals, containing 2000 reed 13 hospitals, containing 2000 returned soldiers. Now it directs 75 hospitals with a population of 12,500 patients. The great mass of returned soldiers, said the speaker, showed a magnificent spirit, being very anxious to get back into civil life and make a living.

Negotiations respecting an extension of power development by the Ontario Hydro Power Commission at Contario Hydro Power C percentage of cases, the returned men after concluding their courses earned larger wages than before going to the war. Some of the "bed war. Some of the "red patients" were taught such things as the operating of special hand looms. Textiles they had woven had been sold in Montreal for as high as \$8 a yard. The goods were sold without being marked in any way to indicate their being the output

Not to Affect Pensions. It was stated definitely by W. E. Segsworth that learning a new trade would have no effect on a soldier's pension, and that whether pensioners or not returned soldiers were eligible for the re-educational courses. The idea kept to the fore in the vocational training was to follow the lines of the man's old occupation so he would go back to his old environment, for example a bricklayer, prevented thru inpower, and this is considered prohibitive by the corporation. architect or draftsman, a carpenter may become a cabinet maker, a lineman become an armature winder, or

a moulder a pattern maker. As many occupations are taught as That Cadet D. E. McMillan came to otherwise there would arise competipossible among the returned men,
