Hamilton, April 20.-(Special.)-"The Cataract Power Company is coming on its hands and knees to beg concessions from the city," is the way J. W. Nesbitt, K.C., described the action of that corporation this evening at a meeting of the special conference committee The company is willing to improve its street railway system, and give a reduction in the street lighting contract if the city will grant it relief from the

If the city will grant it relief from the street railway bargain, under which the city gets 5 per cent. or some \$25,000 a year of the company's earnings. The Beach residents had another meeting this evening on the proposed annexation to the city, and decided they would ask that the rate of taxation should not be higher than 10 mills for ten years, that three commissioners should be elected in January, and that all revenue derived from the Beach should be spent there. The fire and water committee agreed this evening to do everything in its power to keep the Toronto & Niagana Power Co, from using the nitering basin lands for its power or railway lines, and the council will be asked to meet specially to prepare an appeal against the order locating the line in the filtering basin lands in time to be considered by the railway commission when it meets here on May 8. The company will try and expropriate the lands.

The growth of this section of our business has been phenomenal. From small beginnings it has advanced year after year until now three large flats and two mezzanine floors or galleries hardly suffice for the display of our assortments in this line.

Success like this is not accidental. We attribute it to our policy of dealing only in furniture of high excellence and of quoting uniformly reasonable prices.

In Furniture, as in Carpets, Draperies and Wall Papers, we show much that is private to us-made to our especial order or imported from houses who sell only to us in Toronto.

Below we catalogue a few representative items which may serve to indicate the wide range included in our offerings :---
