

## Those Feelings of Faintness Those Dizzy Spells and "All Gone," Sinking Sensations

which come over some people from time to time are warnings that must not go unheeded. They indicate an extremely weakened condition of the heart and a disordered state of the nervous system, and call for prompt relief.

This is no time for delay. One fainting spell may be recovered from—will the next? One dizzy spell may pass off, but the next may be more serious.

Those who are wise will start taking

## Milburn's Heart and Nerve Pills

at once before their case gets hopeless.

This remedy will act directly on the disordered heart and nerves. They strengthen and invigorate the heart, so that it beats strong and regular, tone up the nervous system, and soon the trouble which is the cause of so much worry and anxiety becomes a thing of the past.

Milburn's Heart and Nerve Pills are 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Company, Limited, Toronto, Ont.

## MUNRO CHILDREN MAKE REPUTATION IN OTTAWA

Sam is "Versatile Genius at Nine Years of Age."

The Ottawa Citizen has many kind things to say regarding the performance of Dorothy and Sam Munro, the two London children who have gained fame through Canada and the United States, at the St. Andrew's Night program held in the Russell Theatre, Ottawa, November 28. There was an excellent program but the Munros were outstanding and were mentioned as follows:

"Dorothy and Sam Munro, artists in every sense of the word, although young in years, are past masters in everything from a sword dance to a rumba. Sam has also a happy Harry Lander air about him that appeals. He plays the pipes like a veteran, and can only be called a versatile genius at 9 years of age. Mrs. Munro played the accompaniment for the 'bairns'."

## PLUMBERS MUST PASS EXAMINATION ON TRADE

The examining board appointed under the new plumbing by-law will hold a meeting tonight to determine procedure in regard to examining applicants for licenses. It is expected that the board will hold its first sitting for this purpose Saturday afternoon.

Master and journeyman plumbers who wish to obtain licenses will make application at that time. It is expected that there will be about 40 master plumbers and 20 journeymen. The by-law is being printed and copies of it will be available in a short time.

Plumbing Inspector James Young is introducing a novel feature in explaining city legislation. It is his intention to secure a room at the technical school and there the by-law will be explained in detail to the persons who are applying for licenses. These include plumbers, tile drain layers and tinsmiths. The clauses will be explained verbally by the inspector, and the by-law will be used to explain the more intricate points.

## SONS OF SCOTLAND CELEBRATE BIRTHDAY OF SOCIETY HERE

Members of St. Andrew's Society Banquet At Tecumseh.

TOAST TO SCOTLAND  
Scotsmen Love the Land of  
Their Adoption Perhaps As  
Well As Birthplace.

This night we wear a wreath of fame,  
With strands of song and glory;  
With reverent hands and hearts aflame,  
To crown and Scotia's glory.

One hundred and fifty Scots gathered at the Tecumseh House last night to celebrate at the banquet table the 60th anniversary of St. Andrew's Society in this city, and incidentally by meeting together to keep alive that spirit of Old Scotland that has been handed down to them by their forefathers.

William Forbes, president of the society, acting as chairman and toastmaster, said that before the war the land had been the custom of the society to hold annual banquets, but these had been discontinued during the war.

Last year plans had been made to hold a Victory banquet, but that also had to go by the boards owing to the "flu" epidemic. Now that a clear road lay before the society was about to forego ahead, and he pleaded that all Scotsmen in the city should give their support.

The spirit of the occasion was put into words by Rev. T. A. Symington, in his response to the toast "Scotland," and by a speech by Peter MacArthur on "Canada."

True to Adopted Country.  
The great thing about the Scotsmen, said Rev. Mr. Symington, "is that while he always loves and is true to his native land, he also is true to the land of his adoption, and perhaps loves it with as great a fervor as the land which gave him birth. The names of Scotsmen have been written in the hearts of the darkest countries of the world, in Africa, India and China."

He said that a home is always judged by the men that come out of it, and that the same is true of the country. The names of sons of Scotland had been written on the pages of the literature, music and science of the world.

In politics too many of the leaders were born in old Scotland; Canada had her McDonalds, Coles and the Talbotts. They are men who have been taught in a hard school and are ready for the hardest of tasks.

Land Makes the Men.  
The hard soil, the rocky, stony coast, the country battle-scarred in fights for freedom and ideals have tempered the school that has turned out the Scotsmen with his true hardy nature.

The spirit of the occasion was put into words by Rev. T. A. Symington, in his response to the toast "Scotland," and by a speech by Peter MacArthur on "Canada."

without leaders. Our forefathers who embarked from the old lands knew they were leaving a good country, and they bravely bid farewell to their native lands as they knew, for the last time. Without leaders they began work in the new land.

It is not the authority over the wilderness that makes a land great, but the city and towns and the settled districts, and so Canada had to be added to the Empire acre by acre. She was built brick by brick by the pioneers—the great emigrants who came to the new land.

The one idea of the pioneer was to establish a home where they and their children might be free. Nobody knew before the war how completely that ideal had been realized. It was not until the reign of government was felt for the first time that the feeling of unrest was stirred up. The only political platform that appeals to me is that the freedom established by our fathers must be handed down to our sons.

Canada Like Promised Land.  
I feel some great power has worked out the history of the country. That God realized what was to be the fate of the lands and so opened up a new country for the people of the world. The promised land was opened up to the children of Israel, and the fire guided the children of Israel, and so has the pillars of fire and smoke guided the children of the world.

Hume Cronyn, M.P., spoke on the subject of the war. He did not speak along party lines, but he spoke in a way that was not only a Canadian but a world citizen. He said that the machinery of government, which had always created considerable trouble in many places under the strain of the war.

He pointed out a number of faults in the Canadian constitution which he said was much too large, being the largest in the world outside of Great Britain. The salaries were too small. A minister could not support himself in Ottawa on the money paid him. He advocated consolidation of cabinet positions, reducing of size, higher salaries and old age pensions.

Too much of the country was given to non-essentials in the selection of cabinet ministers, such as their place of residence, and their family connections.

M. P.'s Are Overworked.  
The ministers were overworked by administrative duties which their attention should be devoted entirely to the training of policies. He said that under the present system such an attempt to relieve them of much of the duties was a lack of co-operation among the members of the government. He said that the government was not doing enough to relieve them of much of the duties.
