For which there is a brisk demand. There was no real change in the market for other beef and good quality steers offering, but a goodly number of good fair cattle was on the market, and all offerings were well received.

The trade in other lines remains steady under a good demand for all classes of stock, and prices are the same as those recorded last week. There was some exporting of bulls and lambs to the Boston market this week, but otherwise no business of that kind was transacted.

Beauty and Backbone

The Cole Eight is one of the most beautiful cars in the country—bar none.

The body is set stylishly low; the design is the work of one of the world's master body creators; it is fashionably finished right down to its finger tips.

It is the largest Eight built—and the roomiest—but relatively the lightest.

There is enough room to permit divided front seats with a wide aisleway between.

One does not have to weigh under 100 pounds to squeeze through the aisleway.

As to performing ability nothing can touch or equal it.

This powerful giant seventy horsepower eight cylinder motor has shattered all old, and established an entirely new set of economy and efficiency records.

It has silence and strength and will outlive any other motor built.

So here is both beauty for those who desire smartness, and backbone for those who desire stamina and life.

You'll miss something if you fail to examine the Cole—the country's dominant Eight.
