RUSSIAN SURROUND AUSTRIAN ARMY AT SERETH GREECE'S SURRENDER TO ALLIES CLEARS SKY IN THE BALKANS European Influence May Avert U. S. War With Mexico

WILSON HOPES CARRANZA MAY YET SURRENDER

De Facto President of Mexico Reported Yielding to European Influences.

CARRIZAL "INCIDENT"

Clash Not Regarded as Indication That War is Inevitable.

WASHINGTON, June 22.—One fact stood out tonight at the close of a day of many developments in the Mexican crisis. Apparently both the U. S. Government and the de facto authorities of Mexico hope to treat the clash at Carrizal yesterday as an incident aggravating greatly strained relations, but not of itself likely to precipitate general hostilities.

So far as the Washington administration is concerned, no final decision can be reached until President Wilson has received a report on the fight from American army officers.

A despatch from Gen. Funston late today said Gen. Pershing had heard of the affair only thru reports from field headquarters. Cavalry started immediately to get in touch with the detachment, which is supposed to be returning toward the field base at Colonia Dublan, more than 60 miles from the scene of the fighting.

Still Hope For Peace.

Preparations for war department for possible war with the Mexican Government went forward here today without interruption. At the same time there came hints that Carranza had been almost persuaded by European influences not to persist in a course likely to bring on a conflict.

Many officials here have not abandoned hope of a peaceful outcome basing

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

THE most interesting news received from Russia yesterday concerned the rapid Russian advance in Bukovina. The town of Radautz, near the Rumanian frontier, and 25 miles south of Czernowitz, was occupied by the Russians, and further south, about 54 miles below Czernowitz and near the Carpathians, the Austrians reported the repulsing of Russian attacks at Gora Humera. It is unofficially reported that a big section of the army of General Pflanzer has been cut off, and that other parts of it are betaking themselves to the Carpathians. By seizing the passes of this range the Russians will control some of the exits into Hungary and they will clear their left flank for an advance.

In the centre and along the northern flank of General Brusilov's armies the Russian advance has been halted by a big offensive undertaken by the Teutons. The Germans appear to have taken entirely over the direction of the fighting in this region and they are making furious onsets against the Russians from three directions: Kovel, Vladimir-Volynski and Sokal. The attack from Kovel towards Kozki has been repulsed in a sharp combat near the Stokhod River. The attack from Vladimir-Volynski has just got well under way, while the attack from Sokal is just beginning. The aim of the enemy is to push back the northern wing of the Russian army. In some of the fighting the Germans employed explosive bullets, and in repulsing them the Russians gave no quarter. On the rest of the Russian front the operations are being delayed by the necessity of consolidating the positions captured.

The threat to Kovel, being perilous for the whole German army, forces the enemy to fight at a certain disadvantage. The Russians, gaining the full initiative by their advance in the northern sector of their line, compel the enemy to give battle when he has not made his usual careful preparations for fighting. In the case of the first German offensive against Verdun, the troops engaged in the assault were given four months' rest and special training. In the present instance the Germans had to drag their men from the trenches in France and to hurl them eastward without giving them breathing time. In conformity with German beliefs that the offensive is the true form of the defensive, these soldiers are being thrown into the fighting against the Russians with orders to advance at all costs. Needless to say, the German losses will be terrific. It is pretty cer-

BRITISH WIN FIGHT ABOUT GIVENCHY

Royal Welsh Fusiliers Drive Germans From Trenches.

E PLODES BIG MINE

Enemy Tries to Rush Position North of La Bassee Canal.

LONDON, June 22.—The feature on the British front today was a fight round a crater near Givenchy, in which the Royal Welsh Fusiliers won distinction. The official British report on the operations is as follows:

"Early this morning (Thursday) the enemy exploded an exceptionally large mine in the neighborhood of Givenchy, just north of La Bassee Canal. The explosion was followed by a hostile bombardment of our trenches, under cover of which the enemy entered our trenches on a narrow front. Troops of the Royal Welsh Fusiliers immediately delivered a very gallant and successful counter-attack, driving heavy losses on the enemy and inflicting him completely out of our possession. Considering the size of the mine and the intensity of the fire, our total casualties were comparatively light. Since then the situation in this neighborhood has been quiet.

"Towards noon, during the night (Wednesday) we exploded a mine in the neighborhood of the Hohenzollern Reservoir. (Thursday) passed quietly uneventfully. Considerable armaments of our artillery were successful in silencing enemy guns which were shelling behind our lines near the Ploegsteert wood. Yesterday (Wednesday) in the air there was a marked decrease in activity. Our planes, while our machines carried out a great deal of successful work in co-operation with the artillery."

GREEK DECISION TO YIELD GIVES BRITAIN RELIEF

British Government Issues Full Text of Entente Allies' Note.

DEMANDS FULLY MET

Situation of Grave Menace to Allies Has Now Been Removed.

LONDON, Friday, June 23.—The urgency of the Greek problem has greatly diminished since last October, when Premier Venizelos was driven from power by King Constantine and his court and the pro-German element in the Greek army, but the news that the Greek Government had accepted the demands of the allied governments for the demobilization of the army, dissolution of the Greek chamber and a general election was received in Great Britain with much relief and satisfaction.

Allies' Four Demands.

The British Government last night issued the full text of the entente allies' note to Greece. It contains four demands, as follows:

"First, total and complete demobilization of the Greek army, which must, with the least possible delay, be placed on a peace footing.

"Second, the immediate replacement of the present Greek cabinet by a business cabinet having no political color and offering no necessary guarantee for the application of benevolent neutrality toward the allied powers and sincere consultation of the national will.

"Third, the immediate dissolution of the chamber, followed by new elections after the period required by the constitution and after general demobilization has restored the electoral body to normal conditions.

"Fourth, replacement of certain police functionaries, whose attitude, inspired by foreign influences, has facilitated attempts against peaceable citizens, as well as attempts against the allied legations and those under their jurisdiction."

Dangers Recognized.

When the fall of Venizelos the allies landed a force at Saloniki the attitude of Greece was a burning question and apprehension was felt in all the allied countries, especially France, at the prospect of German military

HEAD OF DEPARTMENT AT ODDS WITH DUKE?

High Parliamentary Circles at Ottawa Discuss Latest Rumor.

By a Staff Reporter.
OTTAWA, June 22.—Discussing the report published in The Free Press yesterday, that the Duke of Connaught would leave Canada in September and be succeeded by Lord Curzon, The Ottawa Journal tonight says:

"There is a belief expressed in political circles that the story may have been inspired by a person unfriendly to the Duke of Connaught. The duke has been at the routine of national responsibilities may have had some minor reverses, but some head of some department which might have resulted in the invention of such a suggestion.

"Who that distinguished person may be, for it may be presumed that he is not in a position of minor importance, is the subject today of gossip in high parliamentary circles."

GIVING UP YPRES NOT HUGHES' IDEA

Ottawa Journal says His Statement and Letter Misconstrued.

BORDEN DID NOT SNUB Premier's Statement Prepared Before Hughes' Interview Was Published.

By a Staff Reporter.
OTTAWA, June 22.—Commenting upon the fact that "General Hughes has wisely refrained from answering the babel of unintelligent construction placed upon his interview with The Journal regarding Lord Kitchener and the Ypres salient," that newspaper tonight says:

"For some reason not quite clear, but which may be surmised, Sir Sam's critics have interpreted his statement to The Journal and his letter to Kitchener to mean that he wished to abandon the whole of the Ypres position, which is termed the 'Gateway to Calais.' Needless to say, General Hughes advocated nothing of the kind. What he did suggest was a re-establishment of the line near Ypres, which would render the holding of the 'Gateway to Calais' less difficult and costly."

"It has also been assumed that a statement issued from the prime minister's office to the effect that the position held by the Canadians was very important, and that they were snubbed to General Hughes. The facts are that this statement was really prepared before Sir Sam's interview with The Journal appeared in print. It referred to the general position around Ypres and not to the matter of the Ypres salient, which was snubbed by Kitchener at all."

USE HEAVY SHELL AGAINST VERDUN

German Start Bombardment of Unprecedented Fury.

FRENCH TAKE TRENCH

Regain Bulk of Positions Lost East of Meuse in Night Attack.

Special Cable to The Toronto World.
LONDON, June 22.—In the fighting before Verdun today the French beat off a violent German attack directed against their positions between Hill 204 and the Berthincourt Brook, west of the Meuse, and by a counter-attack they recaptured the greater part of the trenches between the Fumiv Wood and Chenois, right and left of Fort Vaux and east of the Meuse.

They report that the German bombardment of their positions on both sides of the Meuse with shells of large calibre took on a character of extreme violence. From 6 o'clock this shelling on the front to the north of the Thiabaumont fortified works, Vaux Wood, Chapitre and La Louve sector, became unprecedented. In the woods the artillery action became intense in the region at the foot of the Meuse Hills. Quite spirited commanding prevailed on the rest of the front, notably in Campagne, in the sector of Mont Tilly.

In the night the French repulsed an attack against Le Mort Homme, west of the river, and they fought a violent all-night combat west and south of the river, in which they lost some trenches in their front line, and night attacks. The Germans failed to take French positions north of Hill 321 in a hand grenade attack at 2 o'clock this morning.

Only Miracle Can Save the Army of Austrian General Pflanzer—Germans Strive Desperately to Defend Kovel Against Russian Advance.

Special Cable to The Toronto World.
LONDON, June 22.—The railway town of Radautz, 25 miles south of Czernowitz and below the Sereth River, has been occupied by the Russians in their pursuit of the Austrian army of Gen. Pflanzer. The statement of the Austrian War Office tells of repulsing Russian attacks near the town of Gora Humera. This point is 54 miles south of Czernowitz, and the approach of the Russians towards it has been extremely rapid. In capturing Radautz the Russians took 1022 prisoners and three machine guns.

The Russians also announce officially that the Austrian troops have evacuated southeastern Bukovina and are taking to the passes of the Carpathians.

To Cut Off Enemy.

The Russian war office of the capture of Radautz, a town of 13,000 inhabitants situated 25 miles south of Czernowitz, and ten miles from the Rumanian frontier, shows how actively Gen. Letichitzky is pursuing his broken Austrian force. It is a special despatch from Petrograd, noting but a miracle can avert the destruction of Gen. Pflanzer's army, as Gen. Letichitzky now holds a stretch of 20 miles on the Sereth River.

FRENCH BOMBARD GERMAN TOWNS

Treves, Karlsruhe and Mulheim Made Targets for Aeroplanes.

CARRY OUT REPRISAL

Teuton Habit of Bombing Open Places Provokes Retaliation.

Special Cable to The Toronto World.
LONDON, June 22.—Treves, Karlsruhe and Mulheim, German towns east of the Rhine, a distance of 100 miles from Nancy, were bombarded by French aeroplanes squadrons last night in retaliation for German air raids on the French open towns of Bar-le-Duc and Lunville. A great fire broke out in Treves and the military establishments of Mulheim were made the target for 50 shells. The French also brought down many German aeroplanes during the day.

The French official statement on their aviation work, issued at Paris last night, says:

"In reprisal for the successive bombardments carried out by the Germans the last few days on the open towns of Bar-le-Duc and Lunville, our aerial squadrons have executed several operations on enemy territory. On the night of June 21-22 eighteen shells were dropped on the Town of Treves, where a great fire broke out. Today a flotilla of nine aeroplanes dropped 40 shells on Karlsruhe (175 kilometres from Nancy).

"Another group of ten aeroplanes set out to bombard Mulheim (on the right bank of the Rhine). Fifty shells were dropped on the military establishments at that town.

"Pursued by a squadron of Fokkers on their return from Mulheim, our machines gave battle, in the course of which a Fokker was brought down. One of our machines was obliged to make a landing by reason of motor trouble.

"In the course of the day our pursuit of the aeroplanes likewise displayed our great superiority. Sub-Lieutenant Brusilov's front. Crossing the Sereth River in Bukovina, Gen. Letichitzky's forces have progressed steadily in their south in pursuit of the Austrian Gen. Pflanzer's army, but in the centre and along the northern flank the Russian drive has been halted by the fierce counter-offensive of the Teutonic allies.

The defence of the Kovel-Lutsk region has been taken over entirely by German reinforcements newly arrived from the French front, and which are making a determined attempt to regain the ground lost during the first ten days of the Russian advance.

A group of German forces is concentrated at Kovel, where it attempted to advance toward Kozki, but after a sharp conflict in the neighborhood of the Stokhod River was forced to retire by the Russians.

The second group of German forces defending Vladimir-Volynski, has started an advance along the main road leading from Vladimir-Volynski to Lutsk, while the third group, with headquarters at Sokal, is likewise joining in the movement to press back the extended northern flank of Gen. Brusilov's army.

On the other points of the front further Russian operations are being delayed by the necessity for consolidating positions already won.
