STRIKE OVER WAGES THROWS 1,200 IDLE IN GLACE BAY MINE

50 Landing Tenders Refuse
to Work as Negotiations
For Raise Fail

CONTRACT RATES, NOT DAY PAY, ASKED

Men Who Walked Out Are
Receiving \$3.60 Per Diem
at No. 2 Colliery

GLACE BAY, N.S., June 18.—

A complete tie-up of No. 2 Colliery, the largest producer in District 26, occurred this afternoon, when the landing tenders refused to go down until they were granted local contract rates instead of daily pay, which they are at present receiving. Over 1,200 miners are affected. The trouble started when the miners employed at the colliery which is on double shift, arrived to begin their night duties at 9 o'clock this afternoon. The landing tenders, about 50 in number, claimed that as No. 2 colliery has been increasing its output steadily for the past few weeks, they have been consequently worked harder with no corresponding increase in wages. Their present wage is \$3.60 per day, while if they were granted local contract rates, their pay would be increased over a dollar more daily. Negotiations have been proceeding for some time past between the landing tenders, demanding contract rates, and the company officials, but their differences had not been satisfactorily adjusted, culminating in today's developments, bringing a complete stoppage of operations at No. 2.

It is expected that a settlement will be effected shortly but the mine will likely remain idle tomorrow.

(The landing tenders' work consists in handling and distributing all coal mined before it goes to the surface).

SCHOOL CLOSING AT CAMPBELLTON

CAMPBELLTON, June 18.—According to an announcement made by the secretary of the School Board here this morning, the annual closing of the Campbellton High School will be held in the Grammar School assembly hall on Thursday evening next. The formal closing exercises of the other local schools will take place in their respective departments on the following day, beginning at 10 o'clock in the morning.

The steamer Transylvania is expected to arrive at New York on Monday from Glasgow.

Trade Commissioner To The Argentine Claims Producers Should Show More Interest

Hints That Dominion Exports to Southern Country Could
Be Doubled—Major McColl to Address Rotary
Club Here on Monday

"IF CANADIAN manufacturers and other producers would evince greater interest in the market of South America and thoroughly embrace the marvelous opportunities awaiting them there, the \$27,500,000 last year, received by this Dominion from South America for Canadian exports, to that country, would be doubled within one year," declared Major E. L. McColl, Canadian Trade Commissioner to the Argentine, who arrived in the city last night from Halifax, where he began a four months' tour of the Dominion for the purpose of arousing greater interest in Canadian trade with South America.

Arrangements were made last night by the Rotary Club to have Major McColl address them at a luncheon to be held at the Admiral Beatty Hotel Monday, at 1 o'clock. The Rotarians have extended a general invitation to the Saint John Export Club and the Board of Trade to be present at Monday's luncheon. Members of the latter body are advised to notify the secretary before 11 o'clock Monday morning in order that they may be accommodated. Major McColl will illustrate his remarks with lantern slides of South American countries.

DOUBLED IN YEAR, HE SAYS.

"Of the \$1,700,000,000 spent annually by South America, for foreign products, but \$27,500,000 comes to Canada. With enterprise this amount could be doubled in a year. South American countries are all young and are yet to be developed. Generally speaking they are still in the pastoral or agricultural stage, although Brazil and Argentina are manufacturing countries. "Canadian producers have devoted their attention to European countries where intensive manufacturing has been in force for centuries. It is not desired that they should pay less attention to Europe, but they should make strong endeavors for greater trade with South America," said Major McColl.

"The greater part of South America is south of the equator, and the seasons there are the reverse of those here. When it is winter here and building trades are at a standstill, it is summer in South America and building activity is at its height. These Latin-American countries have stable governments and are making great strides in the development of their agricultural and mineral resources. They are daily adding to their railway mileage. Their foreign trade is continually increasing and is creating a buying power which is fully appreciated by Great Britain, the United States and other countries, but which our producers appear, unfortunately, to neglect.

THOROUGHLY MODERN.

"The faith foreign countries have in South America is evidenced in the amount of foreign capital invested there. All South American countries are thoroughly modern and abreast of the times in music, art, education, science and architecture. The agricultural departments are fully alive to the value of seed selection and the raising of pedigreed stock. Experts are being engaged to take charge of the different

departments along these lines. A Canadian tobacco growing expert has been engaged by the Argentine department of agriculture to supervise the tobacco industry of that country. This serves as an example of what is being done in all branches of agricultural work.

"South America buys all commodities that are produced or could be produced in Canada. It remains for our producers to make determined and persistent efforts to obtain a much greater share of South American trade than they have now.

Canada has some 5,000 firms who export their products. But 50 to 60 of these firms send goods to the Argentine. During 1925, goods to the value of \$12,840,000 were exported by Canada to the Argentine. Agricultural machinery, rubber goods, automobiles, paper, tools, structural steel, chemicals, auto accessories, lumber, railway supplies, cement made up this amount of imports by the Argentine. This could be doubled easily within a year," is Mr. McColl's opinion.

While in the city, Major McColl is at the Admiral Beatty.

MRS. GALLOP FIRM IN MURDER DENIAL

Ends Testimony After 17
Hours on Stand; Verdict
Tonight Likely

ROBERTVAL, June 18.—Emily Sprague, charged before Mr. Justice Gibson here with the murder of her husband, Abraham Gallop, on Aug. 6, 1925, at the Mallory, concluded testimony in her own defense this afternoon after having been 17 hours on the witness stand altogether.

The case began last Friday. She was closely examined by the court on her evidence that she had not poisoned Gallop. She had not, she asserted, told Walter Simpson, that she had committed the deed, nor had she told Detective Housin that Gallop had been drunk for two weeks before his death.

Other witnesses were heard today, among them a carter named Roux, who testified that he had interpreted for Mrs. Gallop when the latter was making the purchase of a wedding ring. This was corroborated by the jeweler who sold her that article. She said she had bought the ring for a friend.

Addresses of counsel are expected some time tomorrow afternoon with a verdict Saturday night.

DR. THOMAS NAMED EDITOR OF ORGAN

United Churchman Continues
Maritime Conference
Will Pay Costs

MONTREAL, June 18.—The "Hall-fax Book Room" will be carried on for the present under the direction of the Board of Publication and the "United Churchman" will be continued as an organ of the church, the General Council of the United Church of Canada decided tonight. Dr. H. E. Thomas, Sackville, N.B., was named editor and the Maritime Conference will assume all financial and other responsibility.

Appointment of the editor and of a "United Churchman" committee for the purpose of sustaining that organ and promoting its interests, was, and will be made in the future by the council upon nomination by the commissioners from the Maritime Conference.

The following committee was then named:

Dr. Clarence McKinnon, P. Morley, E. A. Smith, Rev. C. E. Crowell, J. Stanley McKay, Rev. D. A. Frame, John Lemon, Rev. Henry Irvine. One other name in addition to that of John Lemon will be made by the Newfoundland commissioners.

The conference has power to fill any vacancies which may arise between councils, in the editorship or in the Maritime Conference Commissioners.

THE ABOVE DECISIONS were made following recommendations by Rev. C. E. Crowell, Halifax, in the name of the Maritime Conference Commissioners.

RETURNS TO CITY.

C. N. R. Constable Roy Duffy has returned to duty at the Union depot, having arrived in the city yesterday from Montreal, where he had gone in charge of the party of Chinese who arrived here on the N. S. P. Chignecto Monday evening and who left Tuesday night for China via Montreal and Vancouver.

WILL CONSECRATE CHURCH IN MAINE

BANGOR, Me., June 18.—Rev. Benjamin Brewster, Bishop of Maine, will consecrate St. John's Episcopal church next Sunday. This is a gothic stone structure, replacing the wooden church burned in the conflagration of 1911, and is of much the same design. It cost \$102,000, was completed in 1918, and the last mortgage note was paid in May.

The Coming and the Goings.

(The London Advertiser.)

Everybody in Britain speaks well of Lord Willington, Canada's new governor-general. He will be doubly fortunate if, when his term here ends, Canadians speak as well of him as they do now of Lord Byng.
