

GRENFELL WORK AT LABRADOR IS REPORT TOPIC

Saint John Branch of Mission
Re-elects Mrs. W. A.
Harrison

PLEA IS MADE TO
AID NEW HOSPITAL

Activities Are Detailed in Re-
port of Miss Frances
Stetson

The Saint John branch of the Labrador Medical Mission at its annual meeting in St. John's (St. John's) church hall yesterday heard with gratification of the year's work.

Mrs. W. A. Harrison, president, was in the chair, and the officers were re-elected as follows: President, Mrs. W. A. Harrison; vice-presidents, first, Mrs. A. L. Fleming; second, Mrs. George Billard; secretary, Miss Frances Stetson; assistant secretary, Mrs. L. DeV. Partridge; treasurer, W. L. Caldwell; denominational representatives, Mrs. Hugh Reynolds, Mrs. Angeline, Miss Stella Payson and Mrs. H. C. Schofield; representatives of branches, Rothessy, Miss Annie Puddington; Hampton, Mrs. Fred Wedderburn.

It was decided to adopt the "Bible" method of raising funds for the St. Anthony Hospital building fund and to send the collecting cards to the various convents.

TREASURER'S REPORT.
The treasurer reported receipts of \$568.75, including proceeds of the tea, \$258.80; donations and sale of work, \$297, and proceeds of lecture, \$720. Disbursements included \$397.33 sent to the Ottawa branch and \$225 paid to the industrial section of the mission work.

A branch in Hampton had been organized after the visit of Miss Wain, corresponding secretary of the Canadian branch, and Mrs. Fred Wedderburn, its secretary, submitted a report showing the branch had six regular members but many friends assisting with knitting.

Miss Annie Puddington reported the Rothessy branch had forwarded \$100 for their support of an orphan at St. Anthony's, had contributed to the sale of clothing sent from Saint John and had forwarded to Ottawa \$22 in fees.

SECRETARY'S REPORT.
Miss Frances H. Stetson, secretary, reported as follows:

Labrador seems to be coming more and more into the limelight, and perhaps Dr. Padon's vision of its becoming a most popular spot may come true before we realize it. Captain MacMillan has, of course, kept that land, though his writings are of farther north, much before the public of late, and if anyone wishes to spend an interesting hour I'd advise him to read

Captain MacMillan's article in the last Geographic Magazine and see the interesting pictures he shows. During the fall I received a cutting from the Boston Herald, written by Miss Starkey, who traveled alone up to Okkak, which is many, many miles north of Indian Harbor, in order to study the Eskimo, and her article was most interesting, and especially so when she repeats one or two of the tales of the sufferings of the Eskimos during the flu, of which Dr. Padon told us when he was last here.

Recently I have heard that two former mission workers from around here have gone back. Miss Ferris, who formerly lived at Pleasant Point and who had been on the coast for two winters in charge of a nursing station Forteau, has gone back for a short period to relieve the strain at St. Anthony hospital, due to Miss Dalzell's death, while Mrs. Bidlake has returned to the school at Muddy Bay for the winter. Perhaps some of you have heard her lecture on her experience at that same school, for she has spoken on several occasions in different places and shown interesting pictures.

GOOD DEAL DONE.
Since our last annual meeting we have accomplished a good deal and I feel that the interest in Dr. Grenfell's work is more widespread than it was a year ago. Perhaps one reason for this is that the letter which was sent out just before the Lenten season to the missionary societies in the different churches, asking for their aid toward making the bala this year a success. In some cases the letter reached the society after their work had been mapped out, but there was hardly a case when we did not receive something. We asked, when they were doing their Lenten sewing, if they could each make two extra garments for our bala. The response was certainly gratifying and most encouraging, for instead of two garments many of the societies sent us many articles and all new. And though they had sent us new articles, when the call was sent out for second-hand clothing we received a generous supply. Not as large as some years, but as there had been such a demand for clothing for our various convents, we did not expect as much this year.

LENT ASSISTANCE.
During Lent a number of ladies met at the secretary's house every week, and as a result we had 60 shirts to show the six weeks' work. In this connection I would like to mention how indebted we are to Miss Barbary, for not only was she my guiding angel when I went to choose materials for our own sewing party, but she was so interested in what we were trying to do that whenever she heard of a society who spoke of making anything for us, she helped them with advice as to what to make, and in that way we received many splendid things for boys who so often have to go without. She was certainly a tower of strength and I feel we owe her many thanks. The bala was late in being shipped this year, as the secretary was delayed in getting the clothing sent from Saint John and had forwarded to Ottawa \$22 in fees.

British War Office Banishes Spats In Kilties' Uniform

Canadian Press Despatch.
LONDON, Nov. 20.—Spats have been banished from the British Army. The War Office has announced that as a measure of economy the white spats which have formed part of the regular uniform of the Kilted Scottish regiments for more than a hundred years will no longer be issued. The white spats became a part of the High-

BABY'S OWN TABLETS ARE OF GREAT VALUE

To All Mothers Having Young Children in the Home.

No other medicine is so useful to mothers of young children as Baby's Own Tablets. The Tablets are the very best medicine a mother can give her little ones during the dreaded teething time because they regulate the stomach and bowels and cause no irritation of the throat, prevent colic and diarrhoea and break up colds and simple fevers.

Concerning Baby's Own Tablets, Mrs. John A. Patterson, Scotch Village, N. S., says:—"I have six children, and all the medicine they ever got was Baby's Own Tablets. I would use nothing else for them and can strongly recommend the Tablets to all other mothers."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

Brookville and spoke to the members of the Allied Mission Circle and to Rothessy, where she addressed the Netherwood School. When she left here she went on to Hampton and had the good fortune to interest Mrs. Wedderburn and a few ladies so that Mrs. Wedderburn has undertaken to start a branch there. We also hope that after hearing Miss Wain, the Allied Mission Circle of Brookville, will feel like helping us again.

SUCCESSFUL EVENT.
With the fall came the thought of the annual tea and sale and it was decided to hold it before the end of October. The Stone Church Parish House was most kindly placed at our disposal by Mr. Fleming and in spite of the weather not being on our side, we all felt, when the day was over, that it had been one of the most successful teas we had held. Many people have spoken of what a pleasant affair it was so we hope they will all like coming again another year. We were most fortunate in being able to waylay Miss Cleveland, the director of the Industrial Department of the Mission, who was just on her way out from St. Anthony. She graciously consented to stay for the tea and spoke a few words. As she had just left the coast it seemed to bring us all more intimately in touch with the work there.

Miss Cleveland, while here, spoke to the girls at the Netherwood school and what she told them first and so with enthusiasm that they wanted immediately to know how they got to Labrador. As the age limit of 21 was rather a damper.

While Miss Cleveland was here she was able to bring comfort to the sisters of the nurse who so sadly over what she told them first and so with enthusiasm that they wanted immediately to know how they got to Labrador. As the age limit of 21 was rather a damper.

MISS MAHONEY'S WORK.
A few days ago I received a wire from Miss Mahoney who was the nurse in charge of the St. Anthony hospital. I had a few moments while she changed trains to hear of her work. She is on her way back for a second winter in charge of the nursing station at Plowers Cove and this year was feeling a bit depressed for up to the present no one has come to her for help as to where to go or where to place as a welfare or industrial worker which means that she will have to spend the winter alone, unless someone is soon found who would like the winter's experience and it would be a most interesting and worthwhile experience. When she told me in a casual way of what she had to do I marvelled at her strength and yet she did not seem unusually strong when I worked under her, but it does seem true that the workers who go north come home stronger than when they went. Her district comprises one thousand people, and her work means care of an emergency case which is brought to her, as well as constant dog-team trips to one village or another wherever the call of illness is sounded. No doctor near than St. A.

lander's equipment during the Peninsular War, waged by the British against Napoleon in Portugal and Spain. During the 250-mile retreat from Astoria to Corunna in January, 1809, through snow and rain in a mountainous country, the Highlanders tore their shirts into strips to bind their lacerated feet. Official sanction was given to this addition of the uniform shortly afterwards by the issue of white spats.

thong, forty miles away. And yet I feel sure she would not give up the experience she has had for a good deal. DR. GRENFELL'S HOPES.
Dr. Grenfell came back from his trip around the world full of enthusiasm and renewed energy and the reception given him on his arrival at St. Anthony would have greatly motivated you if you could have heard Miss Cleveland tell of it. His dream of a fire-proof and up to his hospital at St. Anthony is coming true. The walls of the second storey were up in October, and the roof is on by now I'm sure, and I believe there is hope of getting in sometime this winter. If human energy can accomplish it, it will be done, for the men who accomplished such wonders last summer at Dr. Padon's home, North-west River, are hard at work on the new hospital. Ted MacNeil, and no where is there to be found a truer hearted man, was brought out in the spring and spent several weeks in Chicago and New York going over plans with the architects and studying new methods, and he is now in charge, under Dr. Curtis. The men "down" north do not recognize union hours and their hearts are in the work, as a result they work till dark and that means late in the summer. And there is hope of one more man who now have to put wherever there is a corner, often in the men's ward. I'm sure Dr. Curtis is eagerly looking forward to the completion of the new hospital and thinking of how much more he can do for the children who so many of them need orthopedic care.

She Could Hardly Do Her Household Nerves Were So Bad

Mrs. L. M. Parks, Concession, Ont., writes:—"I had heart and nerve trouble, and became so short of breath I could hardly do my daily household work, and was so nervous I could not think of staying alone, as every little sound I heard felt like a shock to me."

I Saw
recommended, so I after taking the second one I am now feeling like a different woman."

This preparation has been on the market for the past 32 years and has achieved a wonderful reputation for the relief of all heart and nerve troubles.

NERVES AND FAINTING SPELLS

Sent Woman to Bed. Great Change After Taking Lydia E. Pinkham's Vegetable Compound

Sarnia, Ontario.—"After my girl was born I was a wreck. My nerves were too terrible for words and I simply could not stand or walk without pain. I suffered with fainting spells until I was no longer any good for my household. I was so nervous I could not sleep. The doctor said I should have an operation, but I was not in a fit condition at that time. My neighbor said, 'Why don't you try Lydia E. Pinkham's Vegetable Compound?' I am sure it will do you good and will save those doctor's bills. So I was advised by my husband to try it. I told him about it. I am very thankful to say that I was soon able to take a few hours for a while as rooms were scarce at that time. My baby is 17 months old now and I have not yet had an operation, thanks to your medicine. I have recommended the Vegetable Compound to a few people I know and have told them the good it has done me. I know I feel and look a different woman these last few months and I certainly would not have been able to do this without your medicine. You can use this letter as you see fit, as I should be only too glad for those suffering as I have to know what it has done for me."—Mrs. ROBERT G. MACGREGOR, R.R. No. 2, Sarnia, Ontario.

A recent canvass of women users of the Vegetable Compound for report 98 out of 100 received beneficial results.

**CHICAGO POLICE TO
Drop Dry Activities**

CHICAGO, Nov. 20.—Chicago's 5,000 policemen were instructed to lend no further support to enforcement of the prohibition law, but to spend their time in running down criminals, under a resolution prepared by the committee on judiciary for submission to the City Council.

**PREPARATIONS FOR
DRIVE GOING WELL**

The preparations for the Saint John Red Cross canvass of the business section of the city in a drive for funds have been going forward with most encouraging success and the workers are most enthusiastic.

The captains for the various parts of the city, who have been appointed to date, are as follows: G. Earle Logan, P. T. Short, Alexander Machum, Max Marcus, Gray Murdoch, Ed. Boyaner, Palmer Kinsman, Ralph G. McInerney, Philip Simms and C. J. McIlroy.

It is hoped to hold a banquet for the workers on the eve of the launching of the drive and Dr. James W. Robertson, chairman of the Canadian Red Cross Central Council, will address the workers on the work of the society.

PARTY WHIPS WILL ARRANGE SEATING

Office Accommodation in Parliament Buildings Also to be Settled

OTTAWA, Nov. 20.—The whips of the Liberal, Conservative and Progressive parties have been asked to meet in the capital next week to come to an agreement regarding the seating of the members in the House of Commons, and also to arrange for the office accommodation for the members.

Moncton City Clerk Loses Summer Home

Special to The Times-Star.
SHEDDEN, Nov. 20.—The summer cottage on Sand Point road, Point du Chene, owned by Col. Boyd Anderson, City Clerk of Moncton, was destroyed by fire at 3 o'clock this morning. The residence was unoccupied and the cause of the blaze is unknown. The loss is about \$2,000.

TOWN AID GETS TWO YEARS.
HULL, Que., Nov. 20.—Arthur Macell, former Secretary-Treasurer of the town of Buckingham, Que., was today sentenced by Judge Honore Achim in Hull Police Court, to two years' imprisonment following his conviction of the theft of \$1,800 from the corporation of Buckingham. He pleaded guilty.

SPANISH CONSUL ARRIVES.
MONTREAL, Nov. 20.—Antoine Sague Y. Sucona, appointed Consul of Spain for Canada, has arrived in Montreal and taken over the consular offices of his government here.

ELECT OFFICERS.
The Lorneville branch of the Bible Society at its annual meeting this week elected officers as follows: President, Walter Wilson and secretary-treasurer, Mrs. Bertha Ferguson.

ATTENDANCE WAS GOOD.
The first week of the Scout Leaders' Training course was completed last night and the records showed that the average attendance had been 16. The course is to be completed in the first week in December. On Dec. 1 the Scouts will attend a meeting to be addressed by Dr. James W. Robertson, Chief Commissioner for Canada.

CHILDREN SHOULD NOT BE PUNISHED FOR BED-WETTING. It is caused by weakness of kidneys or bladder. Mothers will find my home treatment helpful for their little ones. Send no money, but write today for Free Trial Treatment. Adults with urinary weakness will also find my treatment beneficial.
