RICKARD PUZZLED BY BOXERS' CLAIM

Professes Not to Understand Attitude—No Discrimination, He Contends.

New York, Nov. 24.—Tex Rickard declares the combination of boxers, including the champions of several classes and their managers, aligned against him will not put him out of business. He professed to be puzzled by their attitude, but took no cognizance of the reported intention of a Coforth-Buckley-Johnston organization to run a huge boxing drama in opposition to his Madison Square Garden show home.

"It is all a puzzle to me," said Rickard. "I have made some alluring overtures and offers to those managers and their boxers to come into the Garden and box for me, but they have ignored the offers and gone off to other cities and accepted engagements for much less money. They have started this fight against me, for some fancied grievance, but I propose to sit tight."

"If any of those men can point out to me what reforms are necessary, and what they expect from me, I will be glad to listen to them. I have made efforts to obtain the services of several champion boxers, but they refuse to listen to any offers, yet they hop off in other directions and do business."

"As I understand it, some of these men object to the system of matchmaking in the Garden. Now, if they can suggest better methods, I will very gladly listen. In my judgment their suggestions will improve the calibre of bouts in the Garden, I have no objection to a formal statement in a few days."

LEAPING TRUCK EXCAVATION NEW SPORT AT TORONTO (Toronto Globe)

A new form of locomotion will shortly be all the vogue in Toronto, among the younger element, at least. That freak

of European fancy, known as "Pogo," and which has recently spread like wild fire throughout France and Great Britain has invaded the Queen City, under the prosaic name of jumping sticks.

This new form of "making walking a pleasure" consists of a straight round stick, about four feet long. Near the bottom end is a cross piece to rest the feet on. The top is grasped firmly in two hands, level with the chest. Perched thus on the stick the "pogoist" endeavours to progress in a series of hops, literally lifting himself by his boot straps, without losing his balance.

"Pogging" to work will prove for more interesting than mere walking to save six cents. The "hazards" of torn-up tracks will add zest to the "pogging" progress by testing his skill in hurdling excavations and heaps of loose rails.
