### The Market

New York, Oct. 25.—The Mexican situation is heated up by the Mexican and gives rise to a conservative feeling among banking interests. It is a situation, unfortunately, cannot be cleared up quickly and must continue as a disquieting factor, probably for a long period. While the railroads are under the disadvantage of small returns for their services there can be no great quickening of business, because important purchases by railroads constitute a very large percentage of the element of prosperity. The Steel Corporation announces that no shut-down of steel mills is contemplated. The market must remain for a time a technical one, ruled by short sales and short covering. The attitude at Washington will have much to do with sentiment and at the moment price-levels are controlled by sentiment. The real underlying props are sound.  
J. S. BACHE & CO.

### TAKE COMMERCIAL ELEMENT OUT OF ANGLO-AMERICAN EXPOSITION IN LONDON

London, Oct. 27.—Earl Grey, ex-governor-general of Canada, and the Earl of Kintore, with an influential committee, have taken over the proposed Anglo-American exhibition to be held in London in 1914, and, having eliminated the commercial element, have made it a part of the centenary of peace celebrations. All profits will be handed over to the American-British peace committees for the purpose of scholarships and prizes in connection with the educational, social and commercial economies of both countries.

## THE RAIN

The rainfall last night was exceptionally heavy. Between nine o'clock last night and the same hour this morning 3.65 inches was the rainfall. So far this month it is 5.81 inches, of which 2.82 inches has fallen since the night of the 26th. This last amount is greater than the total rainfall for the whole of last month, which was 2.14 inches.

### "PEEPER" PUT TO FLIGHT BY INDIANTOWN MEN

Lively scenes were enacted in Indian town on Saturday about midnight. Missiles of various kinds were hurled through the air, the stillness of the night was pierced with wailing cries and the excitement was intense. During the early part of the evening a merchant had observed a man slinking about the rear of his premises and though he was warned away he still continued in the vicinity and had approached near the windows on the lower floor.  
Finally the citizen and another chased the "peeper" for some distance and when the pursued was at bay, he began to hurl rocks at those following. The others returned his fire and the air was rent with shouts and sounds of missiles striking the gutter. Eventually he made his escape, and it is hardly probable he will visit in the neighborhood again very soon.

### A SUMMERTIME PARTING

(Scene the Depot Platform)  
"Adieu" he said, "The Fates have pity, I must return to the hot city."  
Oh, say that you will faithfully  
To maiden truth you pledged to me."  
"True as the stars, heart of my heart."  
She whispered low as they did part,  
And kissed—mid sidelong wink and  
Orn—

## LOCAL NEWS

### Norumbega Dancing Class this evening.

**BIBLE SUNDAY**  
Yesterday was the day appointed by the Canadian Bible Society to be observed as Bible Sunday in the city churches. Rev. W. H. Barracough, pastor of Centenary church, preached in Queen Square Methodist church in the morning, and in the evening delivered a stirring address in Centenary on the Supreme Value of the Word of God. The congregation of Centenary church are the largest contributors to this society. Most of the churches are asked to contribute one-tenth of their missionary apportionment towards the work of the society. The congregation of Centenary, however, generally exceed this proportion and contribute more to the society than any other church in the city.

### PHYSICIAN BUYS A NEW BRUNSWICK FARM

Retiring from an arduous medical practice and seeking a place where he might enjoy the pleasures of life devoted to a physician in active work Dr. W. J. Graham of Superior Junction, Ontario, has selected New Brunswick and has purchased a farm at Hatfield's Point, the Spectator farm of 140 acres with excellent dwelling and other farm buildings.  
Dr. Graham and his family will take possession immediately and will devote themselves to poultry raising for which they think this province affords exceptional opportunity. He decided to settle in New Brunswick only after a careful survey of this and other provinces. The purchase of the property was made through Alfred Burley & Company.
