Trainer Knox Blamed For Poor
Condition of Some of the Men
—Howard, Colored Sprinter,
Anxious to Try Again

(Canadian Press)
Montreal, Aug. 1.—Bronzed with sun and overflying with good spirits, the major portion of the Canadian Olympic athletic team arrived in Montreal on the Royal Edward this morning.

The city was not broken down to let them walk through, neither were they welcomed by cheering throngs. Louis Rubenstein hustled their baggage through the customs, and they were present on the wharf, representing the M. A. A. A. Messrs. Bowie, Coates and Burchill.

All expressed themselves as delighted with their trip, with the way the games were conducted by the Swedish officials, with the showing they made, with their small number against the greatest athletes in the world, in a competition in which every previous record but one was broken.

That the athletes had troubles with Coach Knox, was indicated by remarks dropped by some of the returning contingent.

The trouble with regard to Knox, of which little has been said up to the present, but of which more, it is said, is likely to be heard, appears to have been that, while admittedly a good all round athlete himself, and probably one of the most experienced men obtainable, he did not know how to handle men nor how to adapt himself to their different needs.

"He tried to coach everybody the same way," he is a hard worker himself, and thought he could coach everybody else just as hard," were some of the criticisms. That he did not use the best judgment in the world was indicated in the case of Fabre, who finished eleventh in the Marathon at Stockholm. The unanimous opinion is that Fabre was a good runner, but considering his condition. He was so lame he had been unable to walk a few days before, and he was advised by his doctors not to start, but although he was suffering great pain from the sprained tendon, he ran. Everybody pronounced that he would drop out at the end of a few miles, but to their amazement he finished well up in front. What he would have done had he been in prime condition is difficult to say, but it is believed by many that he would have had a good chance to win.

As to reason for his leg being out of shape, it was said that as soon as the boat left Montreal Knox started the men running about the deck. Fabre was then in splendid shape, but had never run on boards before, having always trained on the road. A slight soreness appeared on the leg, and he was unable to keep up with the rest of the team. He told Knox about it two or three times, but the trainer told him to go ahead and run.

While the members of the team declare that "Archie" Howard, the big western negro sprinter was far too erratic for any trainer to handle, and that Knox got as much out of him as anybody could, the Winnipeg flyer himself declares that he is disgusted with athletics. He says he did not do himself justice, but blames Knox's training methods rather than himself. He declares that he is going to train his own way and endeavor to meet again the men who defeated him and he says he will beat them. Howard admits frankly that in the two hundred metre race he was out of his metes and says the reason was that his thigh gave out on him. Whatever the reason the other members of the team say he ran a good race to that point and had just collapsed the leaders when he dropped out.

ANOTHER RIOTLarge Forces of Police on London
Docks—Several Fights—Union-
ists Returning to Work

(Special to Times)

London, Aug. 1.—Elaborate precautions were taken today, to prevent a repetition of yesterday's rioting in the neighborhood of the London docks. Large forces of mounted and foot police were detailed early to occupy strategic points near the dock gates, and all the men entering the docks were searched for weapons before they were allowed to proceed. Several unimportant fights took place between the unionist and the non-unionist laborers and a few arrests were made.

The unionist laborers are rapidly taking the place of the "Red" laborers, who worked as "blacklegs" throughout the ten weeks' strike.

SYNOD COMMITTEES

The education committee of the Church of England met this morning and discussed matters pertaining to the education department of the church. Reports concerning the Roxbury school were presented showing an encouraging condition of affairs and a bright season is looked forward to. The financial showing was better than ever before in the history of the college, while the attendance figures were most satisfactory. It was also gratifying to note that out of five boys at McGill from Roxbury three had passed in first class and had 70 or more of an average. Twelve new boys had applied for membership in September.

The board of church literature also met this morning and transacted matters of interest in that branch, while the mission committee will meet tonight. This afternoon the committee on the chapel, the Cathedral will convene together with the ordination of candidates committee.

An investigation is to be commenced tomorrow into the civil service departments in this city by D. N. Duhamel, of the Public Service Commission, who is expected to arrive tonight. The nature of the investigation is not definitely announced other than to say it is an enquiry into the service of the general for the "purpose of economy and efficiency." Mr. Lake, the other member of the commission, is at present in the west on similar duties, while Mr. Duhamel has been in Halifax and Charlottetown during the last few days conducting the enquiry.

THE SIMMS FACTORY.

Despite the wet weather, construction work on the Simms' factory at Fairville has proceeded rapidly and the builders are not many days behind their schedule. The roof should be on by the middle of August, or a few days later, and T. S. Simms & Co. hope to move in before the end of October. The speed with which this big contract is being carried out is a revelation to local builders.

AT THE HOSPITAL.

Florence Carey, daughter of John Carey of Carleton, was operated on for appendicitis at the General Hospital yesterday. She was reported as resting quite comfortably today.

NAVAL
DEFENCEConference at London
Was Resumed
Today

CONTINUE AT OTTAWA

(Canadian Press)
London, Aug. 1.—Naval defence negotiations will be resumed today with the Canadian ministers, and will probably be the last meeting until after the parliamentary recess, which begins on Tuesday. It is not improbable, says the Morning Post, that negotiations may be continued at Ottawa next month, unofficial representations having been made by Mr. Asquith and Mr. Churchill to this effect, and if Mr. Borden, it adds, is assured that the proposal will be viewed with favor an official invitation will be extended.

The Canadian ministers are experiencing difficulty in securing accommodation for the return journey owing to the rush of passengers, and the admiralty may solve the difficulty by placing a warship at their disposal.

Responding to the toast to the Worshipful Company of Leather Sellers, who entertained Mr. Borden and his colleagues at dinner last night, the premier, apropos of naval negotiations, declared the conference had been conducted in the best spirit of good will. The government had received them most cordially, and the result of their negotiations would be found to be of advantage, not only to Canada, but also to the whole empire.

BERESFORD
ALARMED

New York, Aug. 1.—Police Lieutenant for saving the life of a man. On a July morning one James Butler, tumbled into the water at West Tenth street. Becker, who had been swimming, saw him and swam to his rescue. He was an expert swimmer and had gone overboard at the request of Becker and a promise that he would receive \$100. Becker never paid the money, Butler said, and so he called Becker a "fake hero." He added that Becker would have drowned if he (Butler) hadn't pulled him out. Becker was arrested while on duty as a stationer in the Bronx. He objected to being photographed. The smaller picture shows how he covered his face with his hat when an attempt was made to get a picture of him by flashlight.

REMARKABLE
OPERATION
ON HIS HEART

New York, Aug. 1.—An operation on the heart was performed yesterday in Bellevue Hospital by Dr. Wm. G. Lusk, in which thirty-six feet of gold wire was wrapped around the aorta, the great artery leading from the heart, and a current of electricity sent through the wire, which reduced the swelling of the artery sufficient to allow it to perform its natural functions. No anesthetic was used during the operation, but the incision, which was made in the back of the patient, between the fifth and sixth ribs, was sprayed with cocaine. At the close of the operation, which lasted about four hours, Dr. Lusk expressed himself as satisfied, and while the operation is not expected to prolong his life, the patient, who underwent the operation was Oscar Nelson, 59 years old, a cabinet maker, whose case had been pronounced hopeless.

RECIPROCITY
APPROVED
IN TRINIDAD

Port of Spain, Trinidad, Aug. 1.—The first reciprocity agreement with Canada was carried today in the legislative council by 15 votes against 5, and in the chamber of commerce by a majority of one.

The opponents of the agreement argued that it would be of no benefit to the colony outside of the sugar industry, and that it would be harmful to the cocoa and coconut industry. The supporters of the agreement urged that its acceptance would show the imperial sentiment of Trinidad and that it would be the first step toward general trade within the British Empire.

COTTON
STRIKE
AVERTED

London, Aug. 1.—At a conference between representatives of the federation of master cotton spinners associations and the master cotton spinners association of card room workers, held yesterday, in Manchester, it was agreed, after deliberations lasting two hours, to settle the dispute concerning the wages of ring spinners. The agreement was reached after concessions had been made by both sides. This does away with the possibility of a strike.

DELEGATION OF
BRISTOL CITIZENS
REACH MONTREAL

Montreal, Aug. 1.—The delegation of Bristol citizens who are coming to Canada to attend the Cadet anniversary, at Halifax, on August 14th and 15th, arrived today in Montreal on the Canadian Northern liner, Royal Edward. Mr. Rieley has taken great interest in promoting trade between Canada and the port of Bristol, and was a member of the Bristol delegation which toured Canada a couple of years ago.

NOW SHOES ARE GOING UP
AND AUTO IS TO BLAME

Chicago, Aug. 1.—Shoes of all grades are to be raised in price, and according to Chicago dealers the automobile is to blame for the increase. The advance will be about twenty per cent, it is said.

"Since January 1, 1908," said one dealer, "the price of leather has increased 72 per cent. The price of shoes has been raised from time to time to keep pace with the increased cost of production but now another good substantial boost must be made in the price and the principal cause of the advance is the popularity of the automobile. It is not generally known how many sides of leather are used daily in the manufacture of the automobile but it is something enormous."

LONDON'S POPULATION

London, Aug. 1.—The population of London has decreased, it appears, by 13,936 since 1910. In that year the population of the administrative county was 4,280,275; last year it was 4,226,261. The drop is due to the continued migration of population from the inner circle of the metropolis boroughs to the outer suburbs.

TO REHABILITATE
WANING INDUSTRYConference Will Be Held at Win-
nipeg to Evolve Means to En-
courage Live Stock Business

Ottawa, Aug. 1.—A conference of exceptional importance to western Canada, never before called to be held in Winnipeg on July 29. The conference has been summoned to discuss the whole problem of the waning live stock industry of western Canada, and to discuss ways and means of encouraging it.

During recent years the quantity of live stock raised in the west has been steadily declining. Not many years ago all Canada was an extensive shipper of cattle to England. Today exportations have practically dropped to nil. The cutting up of the ranges into homesteads has had some influence, but not entirely.

Western Canada is not only no longer exporting cattle, but it is actually not raising sufficient for its own needs. During the past couple of years large quantities of beef, pork and mutton have been imported into the west and mutton has even been brought from as far as New Zealand.

Hon. Martin Durrell, minister of agriculture, is taking an active interest in the efforts to revive the industry and H. B. McKel, acting live stock commissioner, leaves tomorrow for Winnipeg to take part in the conference and to lend any assistance he can and claim any right to the Dominion government in any place that may be devised. The railways and packing houses as well as western live stock associations will be represented at the conference.

ROOSEVELT AGAIN
HURLS THEFT CHARGE

Nashville, Tenn., Aug. 1.—State Treasurer Taylor, head of the third party in Tennessee, has received a letter from Theodore Roosevelt taking a full out of President Taft and Governor Hooper. The letter follows in part:

"I need not say to you how heartily I hope you will nominate a progressive ticket composed of ex-Democrats and ex-Republicans. Governor Hooper, as I understand it, has endorsed the fraudulent Chicago convention, and will support its nominee. In my judgment no honest man, whether Republican or Democrat, can support Mr. Taft and claim any right to the suffrages of other honest men. Stealing is stealing, and to steal a nomination is as bad as to steal a purse."

FINDS SKELETON OF

Sheridan, Wyo., Aug. 1.—The skeleton of what is supposed to be the largest dinosaur is being unearthed at the Jensen quarry near Rock Springs. Already seventy-five lengths of vertebrae, beginning with five lengths of the neck, and extending far out on to the tail have been uncovered. The animal is thought to have been eighty-five feet long.

BUYS WHOLE HOUSE
TO SEE PLAY ALONE

London, Aug. 1.—The Grand Opera House at Scarborough, seating over 1,400, was bought up last night by a wealthy American visitor, who wished to have a performance of one of the Bernard Shaw's plays entirely to himself.
