NEWS OF SACKVILLE AND PLACES NEAR

Death of Robert Scott—Child of Former New Brunswick is Killed in Calgary

Sackville, N. B., June 9.—(Special)—Robert Scott, one of the oldest residents of Murray Road, died last night, aged 83. He was a native of Dumfries, Scotland, and came here when seven years old with his father and mother. He was a member of the Presbyterian church for sixty-six years, and during all that time never missed a communion. He is survived by three sons and one daughter. Mrs. M. E. Nichols and children, of Winnipeg, are guests of Mrs. Nichols' parents, Hon. Josiah Wood and Mrs. Wood. Mrs. Nichols will leave for England, to spend some weeks. On her return she will be accompanied by Miss Wood. On the Sackville rifle range yesterday the Sackville team defeated the Mount Whalley marksmen, 384 to 276. The distances were 200, 300 and 400 yards. The day was a very bad one for shooting. The Amherst men who were expected to shoot failed to appear.
Prof. Hunt's son James, who is employed by the Canadian Pacific Irrigation Company at Brooks, Alberta, was killed yesterday by the recent severe blizzard in the west. Mr. Hunt writes that the game was so great that the tents were blown over, while the cold was very bitter. On the morning after the storm the ground was covered with two inches of snow.
In Calgary a few days ago Fernie Grant, the nine-year-old daughter of William H. Grant, formerly of Sackville, was instantly killed by being kicked by a pony.
Rev. A. Leblanc was called to Port Elgin last night by the serious illness of Mrs. Patrick Fagan, an aged woman of that town.
Among those who will receive degrees from the McGill Medical School in Montreal today are Will M. Anderson, son of Mr. and Mrs. Leblanc, of Sackville, and W. E. Black, of Amherst, and W. A. Dakin, of Pugwash.

I. C. R. Work Here
Regarding the use to which the I. C. R. would put the Charlotte street extension, A. W. Campbell, deputy minister of railroads, said yesterday that they would provide deep water shipping facilities there. Warehouses will be erected and general terminal equipment secured. Work on the new cattle sheds in the I. C. R. yard is to be commenced at once, after the old sheds are torn down.

New York Financial Bureau
New York, June 9.—The stock market seems to be entering a trade phase and may back and forth temporarily in a restricted area pending developments. While the situation now justifies purchases on the hammering of bearish professionals, with profit taking to be in order on rallies. While the shortage is so large, the short side is extra-hazardous even for scalping. The fact that many good stock returns high and money is cheapening should influence conservative investment, especially as the crops are good and the rate situation is susceptible to further improvement.
The government report is a favorable factor, indicating a yield larger than the average. The copper report is of course unfavorable, but the situation has not been good. The outlook for the bank statement is good, and the Sun seems to indicate a reduction will again be made in the Bank of England discount rate soon. The American has an interview with Gary in which he made to say business will improve materially during the next thirty days. The railway supply association representing 860,000,000 of shipping stock announcement itself for higher freight rates, which Commissioner Clements, in the American, says he is interested in for four or five of ten months.
Press comment and market literature show mixed views, probably owing to the apparent conflict of Morgan and Standard Oil people which may be predicated to confuse the public. The developments of the next few days with the approach of the adjournment of congress will throw much light on the situation and perhaps determine the trustworthiness of the administration latest "better understanding" with the railroads.

Montreal Stocks
Montreal, June 9.—(Special)—The tone of the stock market was stronger today but there is no demand and there was very little doing. The advance is based more on manipulation than outside requirements. Scotia sold at 84 1/2, and Porto Rico jumped to 50 1/2. Other strong spots were—Soo, 137 1/2; Quebec, 42 1/2; Power, 134; Steel Corp, 65 7/8.

FUNERALS
The funeral of Miss Mary L. Shaw was held this afternoon from her late residence, 111 Hazen street, to Fernhill. Rev. A. A. Gribble conducted the service, which was held at 2 o'clock. The casket was borne by the Standard Oil people which may be predicated to confuse the public. The developments of the next few days with the approach of the adjournment of congress will throw much light on the situation and perhaps determine the trustworthiness of the administration latest "better understanding" with the railroads.

Friday the Bargain Day at M. R. A's

Fredericton, June 9.—(Special)—John H. Reid, of this city, received a telegram last night notifying of the death of his only brother, Robert Reid in Edmundston. The deceased was a native of St. John and was aged eighty-three. For many years he was a resident of this city and once held a seat in the city council. He removed to Edmundston thirty years ago and had of late resided with his daughter, Mrs. Medley Richards.

Twenty-two children of the Middlemore home arrived here this morning and were distributed to applicants at the county court house.

Bronze Tablet for Monument Through Citizens' Generosity

The Champlain monument in Queen Square is now ready for unveiling. The inscription in bronze has been placed on it, the inscription reading as follows:
Samuel de Champlain
Born at Brouage, France, 1567.
Died at Quebec, 1635.
Discovered and named the river St. John.
It was thought at first that the inscription would have to be cut into the stone, but through the generosity of J. B. Robertson and George McAvity, this was not necessary, the former supplying the mould and the latter providing the cast. The bronze inscription is a very handsome one.

Killed Young Woman and Took His Own Life

Chicago, June 9.—Unrequited love is believed today to have prompted Frank L. Campbell to slay Miss Lena Hansen and kill himself. At a lonely spot she was shot twice while on her way home after dark. Both bullets pierced her heart. Campbell, with her photograph in his pocket, was found early today shot to death about 500 feet from where Miss Hansen met her death. He was 31 years old and she was two years younger. Campbell was married and the father of a three year old girl.

FEAR SHE HAS MET FATE OF RUTH WHEELER

New York, June 9.—Mrs. and Mrs. Joseph Meason of 107 East 103d street believe their 15-year-old daughter, Esther Maude, is being detained against her will or has been murdered. She disappeared Monday when she left the house to look for work as a stenographer. The police of the whole city and the Irish detective force have made a thorough search and have not the slightest clue to the girl's whereabouts. The case has many points in common with that of the ill-fated Ruth Wheeler, whose body was found burnt and cast out in a bag.
Having Ruth Wheeler's fate in mind, the girl's parents cautioned her against going to private residences for work or answering post card requests for help. Esther, an unusually attractive girl, was also warned to be careful of her conduct while in the presence of strange men.
It was only about a week ago that the girl undertook her search of a position. Her parents had tried to dissuade her from going to work, but the girl said she wanted to feel independent. Every morning for several days, she left her home supposedly to go to the business district to visit offices where stenographers were wanted.

NEW HEALTH OFFICER MAKES OFFICIAL CALL ON HEALTH BOARD

Dr. George G. Melvin, the newly appointed health officer, was on duty this morning for the first time officially, and made his first call, in accordance with the requirements of his office, at the board of health office. He met the inspectors, the various committees for visiting some of the places around the city. Nothing definite was planned on, as a meeting of the board of health will be held on Friday next, when it is probable that his duties will be more clearly defined.
He is not known as yet whether he will be called upon to make regular visits to the public schools.
