Second Annual Exhibition of the Hor ticultural Association.

Large Attendance at St. Andrews Rink-Everybody Delighted With the Display-The Prize List.

(From Daily Sun August 28th.) The second annual flower show of the St. ohn Horticultural association, which open-dysterday in St. Andrew's rink, and will be continued today and tomorrow, richly deerves the patronage of every resident of the an eye for their beauty.

The rink has been tastefully decorated for

The rink has been tastefully decorated for the occasion, evergreens of course predominating, witch sufficient bunting to here and there brighten up the effect with a bit of rich color. Along the north and south wall see a number of refreshment tables, presided over by young ladies, and immediately left of the entrance is an attractively gotten up candy booth. The flowers are arranged on tables, separated by broad alies, and so grouped as to show to the best possible advantage. The association, which is a liberal contributor to the show, does not enter into competition for any prize, and the exhibits are divided into two casses, amakeur and professional. The professional exhibitors are L. Angevine, Wm. McLean of Coldbrook, H. E. Goold of Sussex, John Bebbington of Fredericton. The amateur list comprises some of our most prominent citizens. Some little time after eight o'clock last night, J. V. Ellis, chairman of the exhibition committee, called the gathering to order and introduced Sir Leonard Tilley, president of the Horticultural association, to make the opening address.

and introduced Sir Leonard Tilley, president of the Horticultural association, to make the opening address.

Sir Leonard, who was received with applause, said he wished that Mr. Ellis had been called on, instead of himself, to open the proceedings, as Mr. E. by virtue of his office was the proper person to discharge that duty. He took pleasure, however, in thanking the many ladies and gentlemen present for their attendance said bespoke even a larger and more liberal patronage during the continuance or the exhibition, it was not very along ago, said Sir Leonard, that some gentlemen proposed the establishment of this horticultural association, and the idea had been taken hold of with an energy that had borne good, practical fruit. He felt satisfied that those who had contributed to this work were more than repaid by what had already been done in King and Queen squares, The next step taken was in the direction of a public park, and thanks to the zeal of Mr. Allison, supported by Mr. Hanington and other public spirited citizens, that work was being pushed along with vigor. Funds had been raised, lands given and other lands secured, and the undertaking had become a fixed fact. This exhibition, continued the speaker, had a two-fold purpose—is develop the public taste for flowers and flower growing and to add to the funds of the association. Sir Leonard referred to the noble work done in the direction of cultivating the public taste for flowers in the city of Fredericton by the late Hon. L. A. Wilmot, and compared the profusion of flowers to be seen in St. John today to the by gone days when Harris and Allen had the only green houses in the city. He looked forward with confidence to the time when St. John would be as proud of its beauty to its rich floral adornment. Sir Leonard declared the exhibition formally opened.

J. H. Harris of Halifax, who has been selected as judge of flowers and plants, in response to repeated calls, then made a few remarks in a pleasant vein. While admitting that the show was 25 per cent. b

marks in a pleasant vein. While admitting that the show was 25 per cent, better than last year, he expressed surprise that it was not a hundred fold superior. From a florist's point of view he was, however, more than pleased at the quality of the exhibits, and predicted that if Halifax did not brace up it would yet be behind St. John in the cultivation and production of flowers.

While the professional exhibitors make a large showing, and a better one than that or last year, and the association likewise has put its best foot forward, the greatest interest manifested by last night's visitors was taken in the display of the private exhibitors; Joseph Allison leads this latter list with a table 6x8, covered with rare potted plants, a 6x12 table 6x9 covered with rare potted plants, a 6x12 table 6x9 covered with rare potted plants, a 6x12 table 6x9 covered to cut flowers and a natural conte table devoted to cut flowers and a natural fernery containing 72 kinds of ferns. Mrs. George U. Hay exhibits 32 varieties of New Brunswick ferns, a collection of great value in the eyes of every student of botany who visits the rink. A. H. Hanington is a lavish exhibitor. He shows a bank of sweet peas of the latest and best varieties, such as Blushing Beauty, Primrose, Dorothy Tennant, Countess of Radnor, Blanche Ferrie, etc.

Miss B. R. Stephens of Sandy Point road, a young lady of sweet sixteen, deserves special mention for the extent as well as the quality of her exhibits, which include in potted plants, 12 begonias of mixed variety, 9 military plants, sword fern, parlor fern, 8 silk flock, 22 coleus, mixed varieties, 6 primroses, white and pink, 3 lemon verbenas, 2

duchanas, one Acada tree, a herectorys, the codar fern, 8 Aster geraniums, 2 soysmaglottis and 15 stribilanthes. In cut flowers she shows 10 varieties of sweet peas, 7 varieties of asters, 4 dahlias, 1 sunflower, 4 variety calilopsis, 2 fever few, 4 hollyhooks, 2 migmonettes, 2 schrynanthus, 4 varieties bachelor button; also nastutiums, pansies, daisies, sweet elysium, and double and single varieties of gladioli.

H. D. Troop makes a splendid showing with 42 pots of rare and luxuriant foliage plants and 4 begonias. Miss Jennie Wilson, corner of Queen and Pitt streets, has sent in 3 col. asters, 3 distinct asters, a peony, 16 kinds of sweet peas, 8 blooms of pea, a bouquet of peas, a white cornet aster and a pink cornet do.

3 col. asters, 3 distinct asters, a peony, 16 kinds of sweet peas, 6 blooms of pea, a bouquet of peas, a white cornet aster and a pink cornet do.

Mrs. M J. Rawlins of Douglas avenue has an exhibit that merits the attention of every one. It consists of six magnificent fuchsias of large growth and wonderful wealth of bloom. Miss G. Sancton shows a canna and L. J. Lewis of 183 Duke street contributes 2 coleus, 2 begonias, 1 fuchsia, 1 umbrelle plant, 1 suseveri, 1 zelanica, and 2 palms from Jamaica. Mr. Lewis's showing should not be overlooked by any visito. Mrs. H. J. Olive exhibits a collection of cut sweet peas; Mrs. David McLellan a basket of cut flowers and 9 varieties of sweet peas; Mrs. W. H. Barnaby 2 palms and a rubber plant; Mrs. Thomas A. Rankine a fuchsia and Mrs. Charles Scammell a rubber plant. Miss J. E. Puddington of Spruce street shows a shrubby begnolia, 5 fuchsias, Miss Peters of the Clifton house a splendid cactus smarellius, Mrs G R Pugsley, 2 begonias and D. Roberts, 183 Metcalf street, a very-fine collection of pansies.

The Horticultural association show with pride on a table 6x6 ft. a collection raised since last March that the official judge says surpasses its exhibit of last year. In addition to this there is a fine collection of flowers cut off the public squares.

The lady friends of the association have come forward nobly and are doing their part to make the exhibition a financial success. Those who took part last night were: Candy tables—Mrs. R. Keltie Jones and Mrs. Alex Wilson in charge, with Misses G. Allison, E. Skinner, G. Scammell and Miss Ellis assisting.

Lemonade tables—Mrs. Olive in charge, with Miss Olive, Miss B. Cushing and Master R. Thompson.

Lee creem tables—In charge of Mrs. Fillis

with Mass Onve, Miss B. Cusning and Master R. Thompson.
Ice cream tables—In charge of Mrs. Ellis, Mrs. Steison, Mrs. Spurr and Mrs. Pugsley on the right, and Mrs. Hanington, Mrs. J. P. C. Burpee, Mrs. Horace King and Mrs J. Allison on the left. The assistants were Misses A. Tuck, A. Smith, Dunn, Travers, Willet, Hanington, M. Skinmer, Pugsley, M. Holden, M., McLauchlan, E. Clarke, B. Butt, B. Robertson, A. Jones, M. Vroom, Massie, L. Cushing, Babbitt (Fredericton), G. Davidson, W. Hall, B. Tilley, McCormick, A. McNichol, B. Sadher and B. Betts. The cashfers are Miss Cuditp and Miss F. Hanngton.

Jas. H. Harris, florist, of Halifax, who performed the difficult duties of judge last year, with most intelligent impartiality, was again selected this year. His findings were as follows:

He was seconded by Tom O'Rourke, Maurice Kelly and Joe Gordon. About five minutes later Griffit put in an appearance. Attending his were Eddie Conley and James Robin son. Both men weighed in this afternoon at 126 pounds, Dixon being a

reat, gamey manner in which he

trifle the lighter. In the first round Dixon started in apparently to end up the fight as soon as possible. He landed heavily on Griffin's stomach. Griffin retaliat ed with a pat on Dixon's nose. Just as the gor as the gong sounded Dixon landed an upper cut heavily.

In the second round an upper cut by Dixon took Griffin's nose and drew blood. Dixon forced matters from the start and kept it up throughout this round, repeatedly jabbing, but Griffin succeeded in getting a terrific right into Dixon's ribs.

In the third round Dixon jabbed heavily on nose and chin. Griffin straight countered with the right, and by clever ducking escaped some vicious swings. Griffin was being forced ti the ropes at the end of the round In the fourth round a right hander on the jaw sent Griffin down, but he got up again and pulled off the round

by clinching.
Throughout the fifth round Dixon ontinued on the aggressive. Dixon anded his left on the nose and sneaked in a right when the men were clinched. Griffin ducked in a terrific upper cut. Both exchanged rights and lefts before the end of the round. In the sixth Griffin partly closed

Dixon's left eye.

The seventh round was a terrific one. Dixon repeatedly jabbed, Griffin cross-countering effectually several times. The work was very slow throughout, with honors about even. By this time it was apparent that the Spellman Bros Make an Assignment winner must do some lively work in order to get a decision. As soon as Captain Cranfield saw that he would probably be up again, he hauled down, and then all headsails and the prodigious topsail of his. The English boat was not injured a little bit by the blizzard. But it was said this morning by the sharps who looked at her from Sandy Hook, where the bountiful air came upon her with only her massive topsail set, that she heeled over under it enough to show that she is very tender for one so big.

The Defender went on, fairly boiling through the water. The wind had not time enough to kick up a sea, but even in the easy surface that the ocean offered there was a good chance under the power of the wind for the Defender to make a lively kick off from her bow, and to leave a white and waxey trail after her, if she had been so inclined. Necessarily she picked up a bone in her teeth and made white caps as she left the water astern, but her deck was on a level to a degree that surprised everybody who saw her. And she kept not only going ahead fast but eating up to windward all the time. Her performance was simly marvelous. And yet the America's cup committee does not seem to be satisfied that the Defender is the better boat, for they have ordered another trial race for tomor

CRICKET. The Young Men Too Much for the Veterans.

There was some exciting cricket on the A. A. A. grounds Thursday, and the match between the veteran players and the younger men of the club afforded lots of amusement for the spectators. The old men, who were cap tained by A. O. Skinner, put up good cricket considering their years, and were particularly strong at the bat. Of course they were not as kittenist imprisonment in the state prison for in the field as they used to be, but for all that they did not make many muffs. Some of the men booked to aprear could not come, but the team wa strengthened by the presence of Mr. Short, a former member of the club and at present captain of the Staten Island, N. Y., eleven, and by Col. Carter, son of the late Sir James Carter chief justice of New Brunswick, who is now visiting his old schoolmate Sheriff Sturdee. Mr. Short's 48 and Col. Carter's 5, not out, helped to materially swell the veteran's score. The young men had a strong team, and they fielded sharply, batted strongly and put up good all round cricket The crease was in fine condition, and the weather all that could be desired. Rev. J. de Seyres and Mr. Williams

The old men went first to bat, and olled up 116 before the last wicke fell. After a capital luncheon in the adies' pavilion the young men opened their innings and soon set their op ponents leather hunting in lively shape. Five of the eleven made doubl figures, but they had several "lives," thanks to the inability of some of the fielders to hold the ball. The fourth wicket fell for 115, but all were retired for 154, a lead of 38 runs.

The old men then went in for their second innings but failed to make anything of a stand, and were all disson made 14 and Harvey and Barker 12 each, the latter not out. Time would not permit playing out the match, which was consequently decided by the result of the first innings leading sires. TEMPERANCE COLUMN.

By the Women's Christian Temperance Union of St John.

Trust the people—the wise and the ignor-ant, the good and the bad—with the gravest questions, and in the end you educate the

At a recent meeting of our W. C. T. U: so few members were present that very little could be accomplished be-yond forming our committees for the regular work of the union. The want of interest in the subject of temperance by the community at large was commented upon and earnestly deprecated by our president. Being request ed to prepare "something" for our column, I feel like addressing a few words from so many of our meetings from various causes, some being out of town, others ill perhaps, and others burdened with increasing cares. Amid all these changes and chances of our transitory life the poor weary heart grows hot and restless and chafes against the inexorable destiny that seems allotted to it of daily trials, temptations and disappointments. Then let us say "Calm me, my God, and keep me calm." We must lean on the "everlasting arm," not on a weak fellow creature. This is the mistake we so often make, we turn to some dear friend or relative expecting ready sympathy, and are surprised and hurt to meet with coolness, or to find we are misunderstood.

We were told that a white ribbon woman came to one of our meetings lately, a stranger, expecting to be received cordially and as a sister, but decided she would never come again, because no one noticed her. No one could tell who it was, but when the incident was narrated deep regret was expressed that the lady had not given her name, or made herself known as one of us by wearing the white ribbon. when she would most assuredly have been made welcome among us. While it is true that we should not be forgetful thus "to entertain strangers," we cannot but feel that we should all individually, first as Christians, then as members of this world-wide union, come to the meetings with charity in our hearts towards all not looking for as seeking to "bear one another's burdens, and so fulfil the law of Christ." If we could put self out of sight altogether and each strive even in little things to "be pitiful" and to "be courteous" this world would be a more habitable one than it is. "All's right with the world," for our God has "made all things beautiful in His time," but the shadow of sin, it is, that darkens and chills the fairest scenes.

Miss Willard says: "It will take several generations to change the set of brain and trend of thought, so that in place of an individual we shall have corporate conscience; but the outcome of the gospel and the golden rule to say 'our duty' rather than always 'my duty,' that is, we shall conceive of society as a unity which has such re-lations to every fraction thereof that there could be no rest while any lack-ed food, clothing or shelter, or while any were so shackled by the grim cir-cumstances of life that they were unable to develop the best that was in them both in body and mind." Does this view of true socialism seem a mere dream, an ideal impossible of attainment or realization? been, may be; such love and unity were once witnessed on this earth when "the multitude of them that believed were of one heart and of one soul." At best we can avoid the sad mistake of doing anything through strife or vain

glory "and learn to esteem others better than ourselves.' Some one has said "Temperament we are born with, character we have to make," but we are prone to yield to the "temperament" or natural pro-clivity instead of making it "the stepping stone to higher things." In theory we are very noble, brave and unselfish, but how easily our coward hearts quail when the tide turns against us and we have to face the stern realities of life. Oh that we might live as "if

we had but a day," then We should waste no moments in weak regret

If the day were but one;
If what we remember andwhat we forget

Went out with the sun;
We should be from our clamorous selves set

free
To work or to pray,
And to be what the Father would have us be,
If we had but a day. A. D., Rec. Sec., W. C. T. U.
