WOMAN DECLARES CAPTAIN PUSHED HER FROM BOAT.

Miss Sadie Gallup, Survivor of the Larchmont, Says Her Pleading Was Ignored—Shoved Back as Boat Left Vessel.

BLOCK ISLAND, R. I., Feb. 15.—There will be no inquest into the cause of the appalling Sound disaster held on this island according to a statement which Coroner Daniel Mott of New Shoreham made today.

MONCTON, Feb. 15.—There is every prospect of a fresh increase of activity in the prosecution of the Scott Act in Moncton, in consequence of orders being issued by the new council to the chief of police to proceed with a vigorous enforcement of the act.

PROVIDENCE, R. I., Feb. 15.—"I was pushed away from the captain's boat by a large man, who, I thought, was the captain, although I do not know for certain."

"When the crash came," said Miss Gallup, "there was much confusion, and after dressing as quickly as I could I rushed out on the hurricane deck. I got to one of the boats only a few minutes before the steamer went down. Just as I was about to get in a large man shoved me aside and got in himself, and the boat was shoved off."

"Oh, God, save me!" I cried, as the boat disappeared, but it did not come back.

"I remained where I was, and a few minutes later found there were about forty others on the deck with me. I had been borne away and became a kind of a raft. Mr. and Mrs. Harry Feldman, who were rescued, were among those who shared the awful sufferings of those thirteen hours we drifted at the mercy of wind and waves before we were picked up by the fishing schooner 'Erie'."

SAW GOLD ERAID ON CAP. Miss Gallup's story from this point on agrees substantially with that of Mr. and Mrs. Feldman, who are now in the Rhode Island Hospital being treated for frozen hands and feet.

It was stated tonight that Miss Gallup may be sent to Newport tomorrow on the steamer George W. Danielson. Dr. Larabee, who is attending her, says she is gaining in strength and he believes pneumonia, which it was feared might set in, has been ward off.

Neither Mr. nor Mrs. Feldman could be reached this evening to confirm the principal statement made by Miss Gallup which would remain a few days on Block Island.

YOUNG HIERGESSELL LESS POSITIVE. Miss Gallup's story was even more startling than that told by Fred Hiergesell, a sixteen-year-old boy, who said the steamer was pushed back when he tried to get aboard the captain's boat.

"Do you mean to charge that the captain's boat was the first one to get away from the Larchmont?" the boy was asked.

"I don't know for sure," he answered, "but I know I tried to get into it and was pushed back and then later got into a boat which a few others and myself cut away from the rear end of the boat. I am not sure about the captain's boat being the first to get away."

ESTABLISHES A HOME FOR RETIRED PROFESSORS. CHARLOTTEVILLE, Va., Feb. 15.—John Armstrong Chasler, brother of Lieut. Governor Chasler of New York, has recorded in the Albemarle county clerk's office a deed conveying his "Merry Mills" estate, near Cobham, containing 40 acres to the University of Virginia, to secure a home for such retired professors of the university as the board of visitors may designate.

TOKIO, Feb. 15.—(Afternoon.)—The projected amendments to the American immigration law involving a restriction on Japanese labor immigration to the United States from the Hawaiian Islands, were received here with great displeasure. The council of older statesmen and cabinet ministers today showed no concern whatever over the diplomatic situation.

THIRTY FOUR YEARS IN I. C. R. SERVICE. J. R. Bruce Had an Anniversary—Scott Act Matters.

COLLINS NOT SO CHEERFUL AS FORMERLY IN THE ALBERT COUNTY JAIL—MONCTON'S NEW MUSEUM.

MONCTON, Feb. 15.—There is every prospect of a fresh increase of activity in the prosecution of the Scott Act in Moncton, in consequence of orders being issued by the new council to the chief of police to proceed with a vigorous enforcement of the act.

This Little Pig Got the Pullman Car Drawing Room and the Other Little Pig Got None-- But Cushing Finds There is More Water at the I. C. Pier Than the Allan Line Officials Can Make Use of.

THE ALDERMAN WROTE A LETTER TO MAYOR SEARS THIS MORNING REMINDING HIM OF HIS PROMISE.

Another resident which caused a ripple in the preparations this morning was the discovery by Mayor Sears that one of the delegates representing the board of trade had bespoken the drawing room on the delegation's private car. His worship expressed the opinion that as he had charge of the arrangements no delegate should have made any such arrangement for getting the best accommodations without his knowledge and approval.

Mayor Sears received word this morning that representatives of the Shipping Federation would be willing to meet the delegation at 10:30 on Monday morning in the board of trade building, Montreal. The delegation are trying to arrange that they can keep this appointment without interfering with their Ottawa appointments.

The soundings which Director Cushing took at Long Wharf this morning for which L. B. Ross, on behalf of the I. C. R., yesterday gave permission, are, it is said, very satisfactory. The city yesterday decided to take the soundings so that the delegation would have the real facts within their possession, in case they wish to make any presentation of the position of the Alans, and the depth of water, while in Ottawa.

The soundings were taken at an early hour this morning and the result showed that the water at the berth ranged from 28 feet to 32 and even greater depths. At the extreme end, it is said, there is shallower water but the soundings are alleged to show that over the part of the berth which would be necessary to the tugboats and other "Allan" steamers the depth of water is quite sufficient.

A PLOT TO BLOW UP A UNITED STATES WARSHIP AT HALIFAX BY FOG.

PREVIOUS TO A VOYAGE IT WAS FOUND THAT RIVETS HAD BEEN REMOVED FROM A BOLLER.

SAN FRANCISCO, Feb. 15.—It became known today that a secret investigation is being held at Mare Island navy yard in connection with the condition of the boilers of the Yorktown. The Yorktown has been ordered to Magdalena Bay to protect American interests, but just before starting it was found that her boilers were leaking badly, and it was found that eleven rivets had been removed, apparently deliberately. Had the Yorktown been allowed to proceed, the Bennington horror, it is stated, would have been repeated. The flagship Chicago was despatched in place of the Yorktown.

VANDERBILT'S HORSES ARE BEING SENT TO EUROPE.

NEW YORK, Feb. 15.—A despatch from Newport says: "Twenty-seven horses, the property of Alfred G. Vanderbilt's show stables, will be taken to New York today to be made ready for embarkation for England on the steamer Minnetonka, which sails February 23. They will be in charge of Charles H. Wilson, superintendent of Mr. Vanderbilt's country place, who will be accompanied by twelve groomers. Later twelve fine vehicles will be sent over for use in the ring of the International Horse Show."

SUPREME COURT.

FREDERICTON, N. B., Feb. 15.—The Supreme Court was engaged this morning with hearing County Court appeals. Green vs. Clark. Mr. T. J. Carter supported appeal from Victoria County Court. A. R. Slipp, contra. The court considered. Cormier vs. Arsenau. J. D. Phinney, K. C., supported appeal from Kent County Court. W. F. Chandler contra not called. Appeal dismissed. Clark vs. Murray. H. A. McKeown supported appeal from St. John County court. R. G. Murray contra.

DEATHS.

CAMPBELL—In this city, on the 15th inst., Francis W., son of Thomas and Katherine Campbell, aged 19 years and 4 months. Funeral on Sunday, at 2:30, from his father's residence, 24 Harding St.

NELSON—On Feb. 16th, at the residence of her brother, Captain G. H. Perry, 160 Main street, North End, Mrs. Metilda J. Nelson, aged 70, at half-past two o'clock p. m., from the residence of her brother, to Cedar Hill Cemetery.

SEATTLE, Wash., Feb. 15.—Lieut. Glasford, in charge of the United States Signal Corps, received word yesterday from Vadez, Alaska, that a terrific storm was raging in that vicinity. At Knitler the snow is seven feet deep and the wind is blowing a gale. At the summit of the trail between Vadez and Fairbanks the snow is 15 feet deep.
