THE INTELLECTUAL REALM.

That the Bible and modern scientific statements are being more and more harmonized by recent investigations and discoveries is illustrated by an incident which happend some years ago in the city of Philadelphia while I was preaching there. If you ever had Greek was the language of learning. In that realm our Divine Saviour is king-lord of the intellect, besides being ruler of the intellect, besides be-ing ruler of the heart. He is to be the dominating power in our great univer-sities and institutions of learning as well as in our Christian Endeavor so-cieties and humble meeting houses in the backwoods; he is to be the com-panion of the scientist, like Henry Drummond, who goes forth into the great temple of nature to find "A Na-tural Law in the Spiritual World," as well as the companion of David

THE MESSAGE OF THE CROSS.

But the Hebrew superscription ought to be the most important to us all. It ought to be the most important because the Hebrew language has always been the symbol of God's protecting and par-doning love. The Hebrews were God's favored people. So, when we read the Even the echoes of the departing foot-steps seemed to make those prison walls the more awful and hopelessly superscription of the cross in the Hebrew tongue, God seems to say to us, as individuals, "I have sent my only begotten Son into the world that by his blood you may be pardoned of your sins and become part of my new kingdom." We might believe that Christ is the Son of God. We might even believe that some day he shall rule from sea to sea, but that belief will not make him our individual King and Saviour time our individual tang and menent in inless we can read our atonement in his death and his resurrection, which was by symbol written in the Hebrew inscription nailed upon the top of the cross, Can you not and will you not by the Hebrew message, believe and accept the statement that Jesus Chris died to save you as individuals? H fied to save you, oh, man, oh, woma just as though you were the only sin-ner in all the universe. By the Hebrew superscription nailed to the cross I proclaim a universal par-

don and salvation for all sinners. Jesus Christ once said: "As Moses lifted up the serpent in the wilderness even so must the Son of Man be lifted up." So today I lift high the Hebrew superscription of the cross, I cry out in rds of Revelation, "The and the Bride say some, and let him that hearth say come, and let him that hearth say come, and let him that is athirst say come, and whoso-ever will let him come and take of the from New York.
