## GIRL OF NINETEEN WHO SWAM EIGHT MILES THROUGH TREACHEROUS WATERS OF HELL GATE IN TWO HOURS

Battling against treacherous currents and eddies in the swirling waters of Hell Gate, Miss Nora Leahy, nineteen years old, of New York city, accomplished a feat on July 8 in which many men have failed, when she swam eight miles in two hours. Three or four of the best swimmers among the women

who have won fame in the waters around New York have been able to make the journey, but she is the first one who has ever been able to finish the trip without previous experience.

Miss Leahy never had tried a long distance swim before, but she had been swimming almost from the time she was able to walk and was confident that there was no water which she could not conquer unless it was something like Niagara Falls.

Miss Leahy, by the way, is a member of a company which does aquatic feats in vaudeville, and she felt that she would not harm the act a bit by doing something of a desperate nature. She told the other girls in the company last week that she thought she could do just as well as any of those other girls who were able to get their pictures in the paper. When they chaffed her

about her inability to make a really worth while swim she said she would undertake the difficult feat of swimming through Hell Gate.

With all the details arranged, she

dived into the East River and with a strong trudgeon stroke she made her way to the stream that tumbles through Hell Gate. The tide was running so fast that she made the first mile in twelve minutes. In still water it takes the best swimmer about twenty minutes to swim that distance.

Miss Leahy never showed a sign of faltering and had only one thing to trouble her on her trip. That was when she encountered a tow of scows coming through the gate, and she was forced to turn aside and swim near the east shore. There she had to battle hard against the adverse tide, for the swift waters ran in the opposite direction to the midstream current.

Although buffeted and tossed about by the rough water, she was able to pass the obstacle and then with a clean cut breast stroke which was varied by an overhand she plugged along until she reached Clason Point.

Miss Adeline Trapp, who was the first woman ever to accomplish the swim, accompanied Miss Leahy in a launch, and she expressed surprise at the speed with which Miss Leahy, a novice, was able to swim the course.

At the end of the trip Miss Leahy said she felt strong and could go almost as far again.

## VANITIE MAY RACE RESOLUTE

Although there is no possible chance of a series of races for the America's Cup this season between an American yacht and the Lipton challenger, there is some likelihood that the two remaining cup candidates, Vanitie and Resolute, may engage in a short series of races if the owners can come to an agreement. According to the rumors, Cornelius Vanderbilt has purchased an interest in the Vanitie from Alexander Smith Cochran, and will race her against the Resolute, but as yet, nothing definite has been decided.

The third candidate, Defiance, which proved a failure, has been dismantled and will not race. She was purchased by E. Walter Clark, of Philadelphia, whose original intention was to re-rig her as a schooner. That idea was abandoned, however, and the yacht now lies alongside the Vanitie at Jacobs yard, City Island.

### HORSE RACING IN MONGOLIA

Horse racing has never been taken so seriously in this country as in Mongolia, where it is carried on under the auspices of the Buddhist priests. The races are rarely less than ten miles long, and the chief event of the Mongolian racing year is a contest over thirty miles of rough steps. When Mr. C. W. Campbell visited Mongolia he attended a race meeting at which most of the competing horses were owned by Lamas. "The great races which take place yearly at Urga," he writes, "are held under the direct patronage of the Lama Pope of Mongolia, who becomes the owner of all the horses that are entered in the races."
