BACK INTO COMMTEL

Sunday Observance Bill Still Being Mangled in Commons. W. F. McLean Mak's Strong Plea to Have Whole Matter Referred to Provinces—Ayleworth Says No.

(Special to The Daily News) Ottawa, July 6.—Hon. A. B. Ayleworth in the house today moved the third reading of the Sunday Observance bill.

Duncan Ross (Yale-Cariboo) moved an amendment to permit any unavoidable work on the Lord's day to save property. In British Columbia it was sometimes necessary to employ a small army on Sunday to fight forest fires.

Maclean (South York) spoke of the principle of the bill and the relation of the liberal party to it. He quoted from Lewis' "Life of George Brown," to show that the liberal party was departing from the traditions of old time reformers, who relegated such matters to the provincial legislatures.

Ayleworth said that he had already spoken of the difficulty of keeping down the bill, but the fact remained that the bill referred. The judicial committee of the privy council did not decide that no jurisdiction rested with the provinces, but the fact remained that the only effective law that could be obtained was through the dominion. The bill was the best effort that they were able to reach.

Ayleworth advised the house to go into committee again and to insert Ross' amendment, and to also insert the 24 hours rest to those who worked on Sunday to telegraph operators and telephone operators.

The house then went back to committee. Mr. Borden remarked that they should begin at clause one and go all over the bill. Mr. Ross' amendment was carried. He also moved that the 24 hours rest be not applicable to those who only worked 8 hours in industrial processes. This he said was satisfactory to the Lord's Day alliance in British Columbia.

The report of the secretary of state for the year ending December 30, shows the total number of naturalizations in the month of June, 1907, to be 10,000. The steamer Arctic with captain Bernier in command, will sail for Hudson's bay and the far north on Saturday.

The Arctic will go north by way of Hudson's bay and will afterwards proceed through Hudson's and Davidson's straits to Lancaster sound, and will call at Foul Bay, Cape Barter, and other points. Capt. Bernier will collect customs duties and see that the foreign whalers have licenses. The idea is to assert Canadian authority in these distant waters.

The senate railway committee has passed the G. T. Pacific branch lines bill without amendment. Hon. Mr. Hyman announced that on the recommendation of the international timber commission that no more power franchises will be granted affecting Niagara waters until further report is made by the commission.

The anti-trust bill has received its third reading in the senate. Committee Complete Arrangements—Purse for Log Rolling Increased. A well attended meeting of the Dominion day celebration committee was held in the city hall last night with Mayor Gillett in the chair.

SOCIETY WAS STAGGERED

ABERDEEN'S SON TO MARRY AN ELDERLY WIDOW. MRS. COCKYANE, BRIDE TO BE, HAS LOTS OF MONEY.

Chicago, July 6.—The Tribune has the following from London: Society was a bit staggered at first by the announcement that a marriage had been arranged between Lord Haddo, eldest son and heir of the earl of Aberdeen, and Mrs. Cockyane, a linen draper's widow heretofore unknown among the fashionable set.

Mr. Cockyane married her first husband in 1881, and she is almost 60 years of age. He is only 27 years of age. She had a son who is 24. He and Lord Haddo were at Balliol together. There the linen draper's son proved for the best scholar and carried off the highest honors in natural science.

In marrying a woman who has much the advantage of him in seniority, Lord Haddo is following a custom in favor now. Lady Magheranore and lady Florence Astley, brides of last year, were both much older than their husbands and to go back further, were lady Randolph Churchill, Mrs. Langtry, lady Lochan and lady Howard de Walden.

LOOKS FOR A SURPLUS

Small Balance on Right Side at Close of the Fiscal Year. Finance Minister Tatlow Expects Balance Sheet for 1905-06 Will Show Excess of Revenue Over Expenditure.

"I expect, when the accounts are completed, there will be a surplus of from \$20,000 to \$50,000 in the provincial treasury for the year ending 30th June, 1906," said Hon. R. G. Tatlow, finance minister, to the Victoria Times on Wednesday.

"When delivering the budget speech on March 27, 1905, I did not anticipate the large increase in revenue that has occurred, and then thought there might be a slight deficiency. I am glad to say, however, that my expectations in this regard were not realized, and we will have somewhere about the same surplus as at the end of 1904-5, which was about \$45,000."

"In only one item has the revenue fallen below the estimate, that of the Chinese entry tax. The sum of \$1000 was expected from this, but I do not think there will be anything left after expenses have been paid. This deficit, however, is a cause for congratulation."

The enormous increase in the lumber industry has been mainly responsible for our bettered financial position. The estimated revenue from this source, \$400,000 will be exceeded by about \$100,000 or twenty per cent. This increase alone will more than cover the estimated deficit. Mining receipts have also been larger than expected. As an instance of this I may say the Vancouver office had an excess of thirty per cent, and many other agencies, including that at Victoria, have also brought added revenues.

The principal deficit in revenue that had to be met was, of course, the Chinese head tax. In 1904-5 the province obtained \$255,000 from this source which is now entirely wiped out. But the deficit is being made up by the reduction of fixed charges that will go a long way to meet this. The loans of 1877 and 1897 will mature these. These are the highest rates of interest in the world, but this drain will cease in 1907. This will leave a large sum available for public improvements that it is at present impossible to undertake.

"I think the highest rate of interest in the world, but this drain will cease in 1907. This will leave a large sum available for public improvements that it is at present impossible to undertake. The revenue from real property taxes may become greater, but I do not look for much of an increase in this direction. As settlement becomes more general there will be new municipalities spring up and local bodies take charge of community improvements. That being the case, there should be no difficulty in raising the higher rates of interest, as far as the power of the province lies, all districts available within direct communication of some method of transportation."

CANADIAN TRADE REVIEW

FALL TRADE OUTLOOK REPORTED VERY ENCOURAGING. IN NORTHWEST WEATHER CONDITIONS HELD CROPS.

Montreal, July 6.—Bradstreet's weekly trade review says: Seasonable quiet reigns in Canadian trade, but the underlying features are largely favorable, and the fall trade outlook is really a flattering one. Crop accounts are the best, the production and demand for dairy products, and prices hold steady. Warm weather has helped trade in the territory tributary to Montreal. Summer dry goods are moving better at Toronto, and canned goods are firm on light stocks. Canadian woolen mill owners are reported using foreign material, owing to high prices for domestic articles. Collections are fair to good. In the Northwest weather conditions have helped the territory, which promises to be a bumper one.

Failures for the week number 23 against last week, and 29 in this week a year ago. The following are the clearings for the week: Montreal \$1,482,115; Toronto \$1,744,289; Winnipeg \$1,828,171; Ottawa \$1,192,502; Halifax \$2,606,116; Victoria \$1,352,283; Quebec \$2,243,637; Hamilton \$1,641,054; St. John \$1,323,498; Vancouver \$1,084,232; Calgary \$1,015,233.

SUIT UNDER ALIEN LABOR LAW

Revelstoke Man's Action Against Mundy Lumber Company. Vancouver, July 6.—A suit which will be of considerable interest to mill hands throughout the province is soon to be started. It is the Mundy Lumber company of Revelstoke, for infraction of the alien labor law. In chambers John H. Mills, on behalf of Richard Nichol, formerly of Revelstoke, proceeded against the Mundy Lumber company. Mr. Justice Morrison reserved judgment.

Mr. Mills stated that in November last the Mundy Lumber company, whose head office is at Bradford, Pa., imported 15 laborers from Bradford, and put them to work in the mill at Revelstoke. In order to give the Americans work, he said, 15 Canadian workmen were dismissed. Nichol was one of the dismissed Canadians and was suing for the entire 15.

The penalty for importing alien laborers is a fine of not less than \$50 and not more than \$100 for each case. The principal deficit in revenue that had to be met was, of course, the Chinese head tax. In 1904-5 the province obtained \$255,000 from this source which is now entirely wiped out. But the deficit is being made up by the reduction of fixed charges that will go a long way to meet this. The loans of 1877 and 1897 will mature these. SALE OF POSTAGE STAMPS

Fiscal Year Just Closed Saw Highest Ratio of Expansion. Ottawa, July 6.—For the 12 months closing June 30, the Canadian stamp issue amounted to the enormous sum of \$72,200,000, an increase of 66 per cent over the previous fiscal year, and of \$2,323,125 as against the year 1897-8. This represents not only the largest stamp output on record, but the highest ratio of expansion. For the month of June the output was \$6,019,200, against \$33,285 for June, 1905, and \$26,322 for the same month of 1906. The phenomenal issue of stamps shown by these figures is a striking vindication of Sir William Mulock's course in reducing the postal rates. Instead of the revenue falling off as had been expected, it has increased by reason of the cheaper rates more letters and postcards have been sent.

Lieutenant Voronoff testified relative to the white flag incident, saying he was ordered by captain de Colongue, chief of admiral Rojestvensky's staff, to secure a sheet to be used in case of the appearance of a Japanese ship, but that when he came on deck with the sheet, captain Kalamitoff indignantly threw it into the sea.

EMPLOYER AND EMPLOYEE

Judge Wilson's Decision as to Payment of Wages to Day Laborers. Cranbrook, July 6.—Judge Wilson, county court judge of East Kootenay, has handed down a written opinion in Howson vs. the Crown's Nest Pass Coal company which is of importance to both the laborer and to the employer of labor, that when a man quits or is discharged he must be paid at that time if working by day's labor, and that he need not wait until the regular pay day to secure what is due him.
