"BT" STANCHIONS ARE ALWAYS CHOSEN

when their merits are known. Because:

They are the easiest to open and close. One hand only is necessary.

They allow the greatest amount of freedom for the cow—being two to four inches longer inside than others.

They cannot possibly be opened by the cow.

They are made in five sizes, and, if necessary, are adjustable.

They are made entirely of steel and malleable. The frame is made of 70 carbon steel (they are the only stanchion made of high carbon steel).

They are the easiest to install, owing to "BT" Special Clips for attaching above and below.

They can be used equally well with a wood frame, as shown in Fig. 160, or in the "BT" All Steel Stall.

If you are building or remodelling your barn, you will be interested in the "BT" Catalogue on Stable Construction. It gives best plans for layout, tells how to ventilate and how to lay cement floors, etc., and gives full information about "BT" Steel Stalls and Stanchions. If "BT" plans are used the cost of your stable will be reduced.

In writing, let us know how many cattle you will stable.

[Fig. 160—Stanchion with Wood Frame.]

BEATTY BROS.,

FERGUS, ONT.

We also make Hay Carriers and the "BT" Litter Carrier.
